Legal Deadline: Final, Statutory, January 29, 1989.
Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing nonfederal oil and gas development in the (cont)

Abstract: Several sections of 36 CFR Part 9, Subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 35% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to revise the existing regulations to incorporate congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs; revising sections of the regulations to make them consistent with the enabling (cont)

1201. MINERALS MANAGEMENT: NONFEDERAL MINERALS OTHER THAN OIL AND GAS

Significance: Agency Priority

Legal Authority: 16 USC 1 et seq; 31 USC 9701; 5 USC 301

CFR Citation: 36 CFR 9, Subpart C

Legal Deadline: None

Abstract: Extensive nonfederal mineral rights exist within units of the National Park System. The Service presently regulates only nonfederal oil and gas activities occurring in those units. Mineral activities, other than those associated with nonfederal oil and gas, are occurring in approximately 13 units of the System. There are also 7 additional units in which nonfederal mineral development is currently proposed or has recently been proposed. The Service is charged by Congress to ensure that the development of nonfederal mineral rights within park boundaries is consistent with the purposes for which the units were established. The proposed regulation would establish procedures and standards governing nonfederal mineral development, other than nonfederal oil and gas, in a manner that protects affected park units until such time that the Service has sufficient funds to acquire the mineral right.

1228. MANAGEMENT OF MINERAL DEVELOPMENT ASSOCIATED WITH MINING CLAIMS

Significance: Agency Priority

Legal Authority: 16 USC 1901 et seq Mining in the Parks Act of 1976; 16 USC 1 et seq NPS Organic Act; 30 USC 21 et seq Mining Law of 1872

CFR Citation: 36 CFR 9, Subpart A

Legal Deadline: None

Abstract: The existing regulations at 36 CFR Part 9, Subpart A, promulgated in January of 1977, contain several provisions that are either outdated or have proven difficult to understand, enforce and comply with. Most notable is a provision regarding the use of water in connection with mining claims within National Park System units. The current language creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service (NPS) would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity. Additional changes sought by the NPS are as follows: Several sections of the regulations refer to a surface disturbance moratorium (mandated by the Mining in the Parks Act of 1976, 16 USC 1901 et seq) which expired in 1980. Other sections include transitional procedures used temporarily in implementing the regulations.

1229. ALASKA REGION: SAME-DAY-AIRBORNE HUNTING REGULATIONS

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 13.21

Legal Deadline: None

Abstract: The National Park Service is proposing rules what will prohibit the hunting of certain wildlife species in the National Preserve areas in Alaska on the same day in which a hunter is airborne. Hunting will continue to be allowed pursuant to State and Federal regulations. Access to those areas by aircraft for sport hunting and other purposes is also allowed. While the

State of Alaska has a similar regulation in place, commonly referred to as the "same-day-airborne" regulation, recent changes to their regulation have allowed exceptions for some species in certain State of Alaska game management units including the National Preserve areas. This exception will allow "land-and-shoot" hunting of wolves in the National Preserves. The proposed National Park Service regulation will prohibit "land-and-shoot" hunting for big game including the following species: All species of Bears, Bison, Caribou, Elk, Mountain Goat, Moose, Musk Oxen, Dall Sheep, Wolf, Wolverine, Coyote, Arctic and Red Fox, and Lynx.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 4.15

Legal Deadline: NPRM, Statutory, October 1988.

Abstract: This rulemaking would establish an NPS mandatory seatbelt regulation to apply in park areas that are located within States that do not have a seatbelt law in effect. This regulation would affect 100 park areas in 18 States. The regulation would apply to all of a vehicle's front seat occupants except those that are occupying a seat that was not originally equipped by the manufacturer with a seatbelt and those with a medical condition that prevents restraint by a seatbelt.

The National Park Service is required to issue the proposed rule by a provision in the Department's 1989 FY Appropriations Act.

Abstract: The Bureau is amending existing Financial Assistance and Social Services Program regulations to further define the adult care services provided to Indian people. These proposed regulations define the extent of the program, establish eligibility requirements, and establish adult care services as a social services program separate and distinct from the general assistance program. The revision is needed to specifically define the Bureau's role in the provision of institutional and in-home care to Indian adults who are mentally or physically handicapped or otherwise disabled. The Bureau is also amending miscellaneous assistance provisions to conform with the congressional directive in Public Law 98-473. Miscellaneous assistance will be revised and defined as burial assistance. Legal Authority: 92 Stat. 1660

CFR Citation: 25 CFR 18

Legal Deadline: None

Abstract: This rulemaking action would permit the Field Solicitor, Pawhuska, Oklahoma, to determine the heirs, devisees and/or legatees of estates under the jurisdiction of the Osage Agency, consisting of Osage headright interest, real estate on which restrictions against alienation have not been removed, and/or funds on deposit at the Osage Agency, all of which do not exceed a valuation of $10,000 on the date of death of a decedent, when requested in writing by one or more of the heirs, devisees and/or legatees; provided, that a court of competent jurisdiction has not proceeded to administer or probate the estate. The administration of such estates by the Field Solicitor would alleviate the necessity of the employment of an attorney by the beneficiaries, approval of the will pursuant to 25 CFR Part 17, and the filing of administration or probate proceedings in State Court. Because of the size of these estates, it is financially impractical for the beneficiaries to employ attorneys for that purpose.

Legal Deadline: NPRM, Statutory, August 5, 1989. Final, Statutory, October 5, 1989.

Abstract: The primary purpose of the amendments to 93 USC 638 is to permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services while maintaining the Federal Government's unique and continuing relationship with and responsibility to individual Indian tribes and to the Indian people as a whole. In addition to extensive consultation with the tribes and Native American groups, the Bureau of Indian Affairs is examining all of its planning administrative procedures from the perspective of maximizing tribal participation. Due to the broad scope of the review, an estimate of the potential cost and potential benefit is premature. The changes are one of process rather than increases or decreases in budget or program funding. The major potential cost is to the Federal Government in order to meet the insurance requirement

of the law. The amount is undetermined to date.

Legal Deadline: Other, Statutory, June 28, 1990.
The Act requires that the Roll be prepared by June 28, 1990. Therefore, the final rule must be published in advance of that date.

Abstract: The Bureau of Indian Affairs is proposing to add a new Part 67 to its regulations to establish procedures to govern the preparation, certification, and approval of a roll of the Coquille Indian Tribe. The Coquille Restoration Act of June 28, 1989, Pub. L. 101-42, 103 Stat. 91, directs the Secretary of the Interior to prepare within one year a membership roll of the Coquille Indian Tribe. The roll will be used to identify persons who meet the statutory requirements for membership in the Coquille Indian Tribe.

1248. ● HOUSING IMPROVEMENT PROGRAM

Legal Authority: 25 USC 13

CFR Citation: 25 CFR 256

Legal Deadline: None

Abstract: Congressional direction contained in the FY 1984 Department of the Interior and Related Agencies Appropriation Conference Report directed the Bureau to develop a program which is more cost effective and better meets identified needs. In response to this directive, the Bureau developed a new system to achieve the results intended. The redirected Housing Improvement Program is being promulgated as proposed regulations in conformity with Section 552 and 553 of Title 5, United States Code, as required by the Indian Self-Determination and Education Assistance Act Amendments of 1988.

Legal Authority: 16 USC 470aa to ll, Sec. 10

CFR Citation: 25 CFR 262

Legal Deadline: None

Abstract: The proposed rule will add a new part to Title 25 of the Code of Federal Regulations. The rule is in response to direction in the Archeological Protection Act of 1979. Key areas of the proposed rule will address the permit requirements specific to Indian Tribes and individuals, and the custody of archeological resources.

1250. LAW AND ORDER ON INDIAN RESERVATIONS

Significance: Agency Priority

Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Legal Deadline: None

Abstract: The present regulations contain a very incomplete criminal code that does not cover many areas of the law that are usually in the laws of the State where the reservation is located. The current regulations also contain very sketchy provisions on criminal and civil procedure. It is proposed to update the sections on criminal offenses, and essentially create new sections on criminal procedures, domestic relations, probate proceedings, appellate proceedings and juvenile proceedings.

This will provide the Courts of Indian Offenses with more complete and up to date procedures and rules. Courts will have a six month period from the date of publication of the final rule to the effective date in which to revise their court codes. It is not anticipated that this revision will have any effect on the annual case load for these courts or require additional staffing. Therefore, the initiation of these rules should not result in additional costs.

Additional Information: In May 1982, the District Court for the District of Arizona invalidated the regulation of 25 CFR 167 and ordered the Bureau to publish new regulations. The Bureau published interim regulations on Hopi partitioned lands on September 8, 1982. During the past year several meetings have been held with the Navajo Tribe to obtain concurrence to include Navajo partitioned land in the regulations. The Navajo Tribe expressed the desire for separate regulations and the Bureau has drafted a new regulation for Navajo Partitioned Land within the existing 25 CFR Part 167.

Abstract: The Bureau of Indian Affairs proposes to revise the rule concerning the circumstances under which the Bureau of Indian Affairs, in the performance of the Federal Government's trust responsibility to Indian tribes, may, in its discretion, provide Departmental funds to an Indian tribe or other Indian organization for the payment of a private attorney's legal services. The proposed revisions would not change the underlying policy of the current rule which is to pay for private counsel to represent Indian tribes only in exceptional circumstances. The principal changes involve representation in child custody proceedings, services of tribal court personnel, and non-litigation services. The proposed revision would also provide that when trust resources are involved, tribes and individual Indian allottees are eligible to apply for and receive federally appropriated funds under 25 CFR 89.

Legal Authority: 5 USC 301; 25 USC 323 to 328

CFR Citation: 25 CFR 169

Legal Deadline: None

Abstract: The Bureau of Indian Affairs intends to amend several sections of its rights-of-way regulations which impose a variety of specific requirements on grantees of rights-of-way over Indian lands. These requirements were intended to implement public laws enacted around the turn of the century which authorized the Secretary of the Interior to issue rights-of-way for various specific purposes. In 1948 Congress gave the Department comprehensive authority to grant rights-of-way for any purpose or any term of years without the antiquated restrictions of the older statutes. The regulations continue to reflect the old requirements and the result has been inconsistent application of the 1948 Act. The removal or revisions of these sections would end that practice.

CFR Citation: 25 CFR 61

Legal Deadline: Final, Statutory, October 26, 1988.
One year from date of enactment for completion of the tribal membership roll.

Abstract: This rulemaking action is being taken to amend the regulations contained in 25 CFR Part 61. Part 61 contains general enrollment procedures which can be made specifically applicable in the preparation of a particular roll by the Secretary by amending section 61.4 to include the qualifications for enrollment for that particular roll. Under the Cow Creek Band of Umpqua Tribe of Indians Distribution of Judgment Funds Act of 1987, the Secretary has been directed to prepare certain rolls of Cow Creek Indians to be used in the implementation of the Act. The proposed amendment is, therefore, to make the procedures contained in Part 61 applicable to the preparation of the Cow Creek rolls by adding in section 61.4 the qualifications for enrollment for each of the rolls to be prepared.

1263. APPEALS FROM ADMINISTRATIVE ACTIONS

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9

CFR Citation: 25 CFR 2

Legal Deadline: None

Abstract: The present administrative appeal regulations are ambiguous and misleading. It is difficult to tell what issues may be appealed and to whom the appeal should be sent. Most deadlines are uncertain. Those that are certain are often unrealistic. It is also unclear when a final decision will be rendered by the Interior Board of Indian Appeals and when it will be rendered by the Assistant Secretary for Indian Affairs. Alternatives will be developed by reviewing the existing appeal regulations of other agencies. Consideration will be given to specifying which types of appeals go to the Assistant Secretary and which to the Board. The alternative of providing for the Assistant Secretary to make a case-by-case decision whether or not to refer the matter to the Board will also be considered. The primary benefit should be reduced frustration for both appellants and the BIA officials who handle the appeals. The greatest cost may be that both appellants and BIA officials may have to comply with more specified procedures and meet more deadlines in order for the system to work.

The revised rule will be more cost effective for the Department and Indian groups petitioning for Federal acknowledgment. The proposed revisions will be published taking into consideration ten years of experience with the regulations. Revisions will reflect recommendations received from the Congress, Indian groups and tribes, other Federal agencies and national organizations.

Abstract: The regulations at 30 CFR 228, implementing section 202 of the Federal Oil and Gas Royalty Management Act of 1982, 30 USC 1719, provide that the Federal share of funding of certain cooperative agreement activities with any State or Indian Tribe will be limited to not more than 50 percent of the cost of eligible activities as established under the terms of the cooperative agreement. However, Congress recently passed "The Indian Self-Determination and Education Assistance Act Amendment of 1988," October 5, 1988, PL 100-472, which included amendments to PL 93-638 to require all Bureaus within the Department of the Interior to enter into PL 93-638 contracts with Indian Tribes. Consequently, the cooperative agreements that MMS may enter into in the future with Indian Tribes will be considered PL 93-638 self-determination contracts. Because PL 93-638 entitles an Indian Tribe to Federal reimbursement of 100 percent of the costs of an approved self- determination contract, MMS is proposing to amend its regulations to remove the 50-percent Federal funding limitation.

1269. AIR QUALITY - OFFSHORE CALIFORNIA

Significance: Regulatory Program

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.47

Legal Deadline: None

Abstract: Amendments to the DOI Air Quality regulation for oil and gas operations will be proposed for Outer Continental Shelf areas adjacent to California. The changes would provide additional safeguards for those pollutants which could be critical to air quality in the region. The costs have been determined to have a net present value of approximately $25M to the regulated industry; the net benefits have not been quantified but would be a reduction in any effect of emissions from OCS operations on the ozone levels in adjacent onshore areas. This may be expected to yield cost reductions in health services and other related areas. The DOI has conducted a conflict assessment to determine the likelihood of the interested and affected parties being able to reach an agreement on an air quality regulatory program. If the affected parties involved can develop a mutually agreeable set of requirements, then DOI will initiate rulemaking based on that agreement.

1270. RECOUPMENTS AND REFUNDS OF EXCESS PAYMENTS UNDER FEDERAL OFFSHORE MINERAL LEASES

Significance: Regulatory Program

Legal Authority: 43 USC 1339

CFR Citation: 30 CFR 230

Legal Deadline: None

Abstract: This rulemaking is needed to add new regulations covering recoupment and refunds of excess payments made under Federal offshore mineral leases which are subject to section 10 of the Outer Continental Shelf Lands Act of 1953 (OCSLA), 43 USC 1339. This rule would establish requirements and guidelines for crediting (recouping) excess payments of royalties, rentals, bonuses, or other amounts against a current or future payment obligation or refunding such excess payment to any person lawfully entitled to receive a refund or credit for an overpayment made under an offshore lease. The new regulation is intended to lessen confusion on the part of payors, operators, and the Minerals Management Service.

CFR Citation: 30 CFR 243

Legal Deadline: None

Abstract: The MMS regulations at 30 CFR 243.2 address the effectiveness of its Royalty Management Program decisions and orders pending administrative appeal. At the time the rule was issued in 1984, it was MMS's interpretation that most decisions and orders would not be suspended pending appeal. However, in 1986, the Interior Board of Land Appeals (IBLA) determined that unless there were special circumstances, the Director, MMS, was required to stay effectiveness of decisions and orders pending appeal provided the appellant posted adequate surety (Marathon Oil Company, 90 IBLA 236 (1986)). In view of the IBLA decision, an amendment is needed to MMS regulations at 30 CFR 243.2 to reflect clearly that MMS decisions and orders are stayed pending administrative appeal, the types of sureties which would be acceptable to MMS, and related issues.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.210

Legal Deadline: None

Abstract: The rules at 30 CFR Part 250 which govern oil and gas and sulphur operations in the OCS will be revised to address in greater specificity training requirements for personnel engaged in oil, gas, and sulphur drilling, development, and production operations in the OCS. Training requirements were addressed in a proposed rule to consolidate into one document the rules governing oil and gas and sulphur operations in the OCS which was published on March 18, 1988 (51 FR 9316). The training provisions of that proposed rule have been revised, updated, and consolidated under a new Subpart O, Training. Other alternatives considered were not revising the regulations and revising only those regulations identified by industry. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

Abstract: The rules at 30 CFR 250 which govern oil and gas and sulphur operations in the Outer Continental Shelf (OCS) will be revised to address sulphur exploration, development, and production operations with more specificity. Sulphur operations are currently addressed through rules applicable to oil, gas, and sulphur and through OCS Order No. 10, Sulphur Drilling Procedures, issued by the Gulf of Mexico OCS Region. Comments received as the result of the publication on March 18, 1986 (51 FR 9316), of a proposed rule to consolidate rules governing oil, gas, and sulphur operations in the OCS included recommendations for the development of regulations which treat sulphur operations in the OCS with greater specificity. Other alternatives considered were not revising the regulations. Promulgation of the regulation is not expected to result in costs significantly more than those incurred through the unregulated use of good commercial practices.

Abstract: The existing regulations require that the value of certain processed gas that is not sold pursuant to an arm's-length contract shall be the greater of value determined by two different methods. The comparison of the two values is commonly referred to as "dual accounting." The dual accounting requirement results in the inconsistent valuation of gas depending on whether it is sold in an arm's-length or a non-arm's length situation. Regulation amendments are being developed which would eliminate the accounting for comparison requirement except where required by lease terms.

Abstract: The existing regulations provide for the valuation of unprocessed gas, residue gas, or any gas plant product which is not sold pursuant to an arm's-length contract to be determined in accordance with a benchmark method. In the final regulations, MMS adopted as the first benchmark the lessee's gross proceeds received under its non-arm's-length transaction if they were equivalent to the gross proceeds received under comparable arm's-length contracts for like-quality production in the same field or area. The criteria to be considered in defining comparable contracts were also outlined. However, since the adoption of the revised regulations, numerous questions have been raised as to the interpretation of the first benchmark. These questions have identified the need to further clarify MMS's intention in this regard.

1276. AMENDMENTS TO 30 CFR 250.52 TO ADD REQUIREMENTS INTENDED TO PREVENT OCCURRENCE OF ACCIDENTAL FIRES CAUSED BY FALLING SLAG FROM WELDING OR BURNING

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.52

Legal Deadline: None

Abstract: The Minerals Management Service proposes to amend 30 CFR 250.52 to add requirements designed to increase personnel safety and minimize property damage by avoiding or preventing the occurrence of accidental fires caused by hot slag from welding or burning activities falling into flammable material floating on the ocean surface beneath Outer Continental Shelf (OCS) facilities. The proposed amendment was prompted by the recommendations of an investigation of a January 6, 1984, accidental fire believed to have been

caused by hot welding slag igniting a layer of hydrocarbons floating on the surface of the ocean water beneath an OCS facility. Three men died and nine were burned as a consequence of that fire. The alternative considered was to send lessees advisory notices alerting them of the potential danger of welding slag; however, the alternative was considered less effective because it lacked enforcement. The proposed amendment would not result in increases in cost to lessees or consumers.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.18

Legal Deadline: None

Abstract: This proposed rule is intended to remove apparent inconsistency in current regulations concerning the release of data and information submitted to MMS on certain MMS forms. Section 250.18 specifies periods of time that certain geological and geophysical data will be protected from disclosure to the public when submitted on specific forms, but release dates for similar data and information on other forms are not mentioned in the regulations. The alternatives of providing guidance through an OCS Order and through a Notice to Lessees and Operators on a region-to-region basis does not ensure that information is uniformly available to the public. This rulemaking does not involve any significant additional costs. Its benefits are the removal of ambiguity in the current regulations and the availability of data and information to the public on a uniform basis in all OCS Regions.

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: The MMS Auditing and Financial System (AFS) matches and applies each payment received to its corresponding report or bill. If a payment cannot be automatically matched and applied by the AFS because of inadequate or erroneous information, it must be manually matched and applied by MMS personnel. The manual matching of payments to reports and bills results in MMS incurring substantial costs so that the AFS can operate properly to account for and distribute royalties. This situation also delays the payment application process and can result in delay in distribution of royalties and related information to States and Indian Tribes and allottees. To recover the costs, MMS is proposing to amend its regulations to add a new assessment amount not to exceed $250 per incident. The new assessment would encourage payors to submit their payment, when required, together with the applicable report or copy of the bill and for the same amount as the report or bill. The new assessment would also encourage payors to adequately identify payments to the report or bill to be paid.

Abstract: The MMS does not currently have regulations which delineate how service of official correspondence, including orders, decisions, demands for payment and notices of noncompliance issued by its Royalty Management Program is effectuated. In the absence of MMS regulations, the Interior Board of Land Appeals (IBLA) (IBLA-87-349) reversed a decision by the Director, MMS that an appeal had not been timely filed and therefore would not be considered. A rule is required that would: 1) establish an "address of record" to which official correspondence will be sent, and 2) define the "date of service" whether the document was physically or constructively delivered. The date of service established in accordance with this rule also would be the beginning date of the 30-day period in 30 CFR Part 290 for the filing of an appeal relative to an order or decision.

Legal Authority: 43 USC 1335

CFR Citation: 30 CFR 256

Legal Deadline: None

Abstract: This rulemaking would amend current regulations requiring lessee surety bonds. The monetary value of surety bonds designated in current regulations was established over a decade ago and is seriously inadequate to protect the government from loss due to lessee failure to meet the terms of the OCS lease for royalty payments, proper abandonment of wells, site cleanup, and ongoing lease operations. Bond requirements may be increased on a case-by-case basis, as an alternative to rule change. This might result in inconsistent requirements. The potential costs are whatever increase is incurred in obtaining a higher value bond. Benefits would be a reduced potential for government loss and a greater protection of the public interest.

Abstract: Because royalty payments are a major source of income to many Indian allottees, and the only source in some instances, it has been a longstanding Department of the Interior policy that overpayments made by lessees and other royalty payors to Indians cannot be recovered by refund. This policy was established to prevent an undue financial burden on Indian allottees who may have limited financial means to refund the overpayment. However, the adopted policy permits lessees and payors to recoup overpayments as a credit against future rental or royalty accruals due to Indian tribes or allottees. Lessees and operators were instructed to follow this recoupment policy in "Notice to Lessees and Operators of Indian Oil and Gas Leases No. 1A" (NTL-1A), issued by the Conservation Division of U.S. Geological Survey in 1977. The MMS published revised final oil and gas product valuation regulations at 30 CFR Part 206 on January 15, 1988 (53 FR 1184 and 53 FR 1230), effective March 1, 1988. Section 206.150(e)(2) of the revised regulations terminated NTL-1A. Although the Indian lease overpayment recoupment policy has been the same for many years, MMS believes that its (cont)

Abstract: The Minerals Management Service (MMS) published final revised regulations governing the valuation of gas from Federal leases onshore and on the Outer Continental Shelf and from Indian Tribal and allotted leases in the Federal Register on January 15, 1988 (53 FR 1230). The proposed gas valuation provisions of section 206.153, in part, govern the determination of value in situations where the lessee's contract for the sale of gas prior to processing provides for the value to be determined based upon a percentage of the purchases proceeds resulting from processing the gas. However, the inclusion of these percentages-of-proceeds contracts under section 206.153 has created unreasonable burdens on lessees. Consequently, MMS is proposing to amend its regulations to provide for the valuation of gas under percentage-of-proceeds contracts to be under the unprocessed gas valuation standards of section 206.152, rather than section 206.153.

Legal Deadline: None

Abstract: The rules at 30 CFR 250.126 on the manufacture of safety and pollution-prevention equipment (i.e., surface and subsurface safety valves) are being amended. The amendment would update the American National Standards Institute/American Society of Mechanical Engineers (ANSI/ASME) SPPE-1 standard from the 1985 edition to the 1988 edition and allow compliance with either the updated version of the ANSI/ASME SPPE-1 quality assurance (QA) program (1988 edition) or the proposed American Petroleum Institute (API) QA program (API Spec Q1 in combination with API Specs 14A and 14b). Other alternatives considered were not to amend the rule and to continue using ANSI/ASME SPPE-1 as the only type of certification for the QA program. The costs to lessees under the API program or the updated ANSI/ASME SPPE-1 program are not expected to be significantly different than the costs under the current program. If there is any cost difference, it is expected to be a reduction in cost since the use of the API program is an option to the use of the ANSI/ASME SPPE-1 program. Lessees would not be expected to choose the use of the more expensive of the approved QA programs.

Abstract: Existing regulations governing the valuation of geothermal resources provide insufficient guidance for the valuation of geothermal resources utilized to generate electricity in a lessee-owned power plant. Consequently, the Minerals Management Service has issued a report entitled "Valuation of Federal Geothermal Resources--Electrical Generation" which describes a "geothermal netback procedure" to value these "no sales" resources. An amendment is needed to the existing regulations to provide regulatory guidance after receipt and consideration of comments from the public to the existing geothermal netback procedure.

Abstract: Amendments to the regulations providing for the discretionary release of postlease proprietary data and information will be proposed. The amendments would limit the discretion of the MMS Director to release such data and information by defining more precisely the circumstances under which such releases may be authorized and to whom the data and information may be shown. The alternative to the proposed amendment is the case-by-case determination of whether to release such proprietary data and information based on the existing less specific discretionary authority of the Director. This alternative leaves some degree of uncertainty to the lessee concerning the circumstances under which releases will be authorized, and possible changes in policy.

1286. REVISION OF REGULATIONS GOVERNING INTEREST RATE APPLICABLE TO LATE PAYMENTS AND UNDERPAYMENTS

Legal Authority: 25 USC 396 et seq; 25 USC 396a et seq; 25 USC 2101 et seq; 30 USC 181 et seq; 30 USC 351 et seq; 30 USC 1001 et seq; 30 USC 1701 et seq; 31 USC 9701; 43 USC 1301 et seq; 43 USC 1331 et seq; 43 USC 1801 et seq

CFR Citation: 30 CFR 218

Legal Deadline: None

Abstract: Existing regulations at 30 CFR 218.54, 218.55, and 218.103 govern the rate of interest to be charged on underpayments or late payments of royalty by lessees and other royalty payors, and the rate of interest to be paid on late disbursements of an Indian Tribe's or Allottee's royalty or a State's share of royalty revenues. These regulations reference section 6621 of the Internal Revenue Code of 1954 for the applicable interest rate in each situation. However, section 6621 was amended by the Tax Reform Act of 1986 to provide for a different interest rate for overpayments and for underpayments. A rule amendment is required to clarify an ambiguity in the existing regulations, created by the amendment to section 6621, as to which of two different rates would apply.

Legal Authority: 43 USC 1334; 30 USC 1751

CFR Citation: 30 CFR 290

Legal Deadline: None

Abstract: The final rule provides a grace period for filing of appeals of orders and decisions of Minerals Management Service officials. Existing rules required receipt of an appeal within 30 days of receipt of an order or decision. The final rule establishes a grace period whereby appeals are timely if received within 10 days after the end of the initial 30 days and there is evidence of transmittal within the 30 days. The rule allows more appeals to be considered and decided on their merits.

1288. NONDISCRIMINATION IN EMPLOYMENT IN THE OUTER CONTINENTAL SHELF

Legal Authority: 43 USC 1863; 43 USC 1331 et seq; 42 USC 2000d to 2000e

CFR Citation: 30 CFR 271

Legal Deadline: None

Abstract: There are no provisions in current Minerals Management Service regulations which provide a mechanism for remedy of unlawful discrimination in Outer Continental Shelf (OCS) employment. Rules would be developed to provide a process whereby persons who believed they had been denied employment because of unlawful discrimination would have a forum. These rules would implement the purposes of section 604 of the OCS Lands Act Amendment of 1978. Alternatives considered are no action, issuance of a policy statement and no rules, and proposal of extensive affirmative action rules similar to those rescinded in the past. Very few complaints are expected to arise as there has been no evidence of discrimination to date. Therefore, costs are expected to be minimal. Benefits would be the assurance that the requirements of section 604 are being fully carried out.

Abstract: Amendments to the Department of the Interior (DOI) Air Quality regulation for oil and gas operations will be proposed for all Outer Continental Shelf (OCS) areas. The changes would update requirements and consider the need for

current information collection burdens, and provide additional safeguards for those pollutants which could be critical to air quality in areas adjoining the OCS. A determination of potential costs and benefits cannot be made until the final rulemaking has been prepared for RIN 1010-AA61, dealing with amendments to the DOI Air Quality regulation for oil and gas operations adjacent to the State of California. Considerable information has been developed during the negotiations conducted to implement that rulemaking. There have also been revisions to the related Environmental Protection Agency regulations which will affect both of these rulemakings. Timing, content, and format for this rulemaking for all OCS areas will not be determined until completion of the rulemaking RIN 1010-AA61.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.4; 30 CFR 250.34(j)

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) proposes to amend 30 CFR 250.4 and 250.34(j) to implement the authority provided in the Fiscal Year 1987 Department of the Interior Appropriation Act to facilitate preparations of Environmental Impact Statements associated with the approval of certain Development and Production Plans. The alternative of prescribing specific procedures for use of such funds would not allow the flexibility to respond when the use of contractors and private contributions is the most sensible approach. There may be increased cost to some lessees; however, these costs represent a voluntary users fee comparable to the users fee provided in the Independent Offices Appropriation Act of 1952, as amended. No increase in cost or prices would result for any other entity.

Abstract: The Surface Mining Act exempts mining operations that extract other minerals where coal does not exceed 16 2/3 percent of tonnage of minerals removed for sale. Evidence of abuse of this exemption has been identified. Proposed regulations would establish procedures to administer the exemption. The costs of compliance for these operations are undetermined. Benefits would be to the public in terms of protection of health, safety, and environment from detrimental effects of mining. Legitimate noncoal operators would be able to compete fairly with those operations now using the exemption to undersell their legitimate competitors.

Additional Information: The Office of Surface Mining has determined that the proposed rulemaking constitutes a major Federal action requiring an EIS to meet the requirements of the National Environmental Policy Act. OSM has also made the determination that the proposed rule may be significant within the meaning of EO 12291. Precise cost/price impacts cannot be determined prior to further development of the regulation, but such costs are

anticipated to be significant in terms of EO 12291 and the Regulatory Flexibility Act. Therefore, a Preliminary Regulatory Impact Analysis and Small Entity Flexibility Analysis are being prepared.

Abstract: The proposed rule would comply with a court order of the District Court for the District of Columbia which remanded OSM reporting requirements for surface coal exploration. The proposed rule would revise existing requirements to include the filing of a notice by all individuals or operators planning coal exploration, and specify the information required on applications for coal exploration. The obligation to report is a standing requirement of existing regulations. This rule would expand the requirement to report. Because affected States already have the expanded requirement in place, no additional costs or benefits are expected to be associated with the rule.

CFR Citation: 30 CFR 816.100; 30 CFR 816.101; 30 CFR 816.104; 30 CFR 816.105

Legal Deadline: None

Abstract: The rule is being proposed in response to a remand by the Court to provide additional guidance to the regulatory authorities. The proposed rule should ensure that all reclamation efforts proceed as contemporaneously as practicable with surface coal mining operations in accordance with Section 515(b)(16) of the Surface Mining Control and Reclamation Act of 1977.

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 750

Legal Deadline: None

Abstract: The proposed rule would implement court approved settlements involving OSMRE, the State of New Mexico, and the National Coal Association/American Mining Congress Joint Committee in regard to final Indian lands regulations. The rule would delete the reference to the American Indian Religious Freedom Act and revise the requirements addressing inclusion of surface coal mining and reclamation provisions in Indian leases.

1311. DISPOSAL OF EXCESS SPOIL ON PREEXISTING BENCHES

Legal Authority: 30 USC 1201 et seq; PL 100-34

CFR Citation: 30 CFR 816.74; 30 CFR 817.74

Legal Deadline: None

Abstract: The regulations at 30 CFR 816.74/817.74 allow, with the approval of the regulatory authority, the disposal of excess spoil through placement on preexisting benches provided that the standards set forth in sections 816.71/817.71 are met. These standards contain the general requirements for the disposal of excess spoil. Based on the draft study entitled "Encouraging Abandoned Mine Land Reclamation via Remining: A Federal, State and Industry Initiative" and comments received, OSMRE has reviewed these regulations. Based on this review, OSMRE has concluded that excess spoil, when placed on the benches, is similar to backfilling and grading of a highwall and bench. It therefore could be regulated under the backfilling and grading regulations in sections 816.102/817.102, in lieu of the "excess spoil" standards, while maintaining the same environmental and safety standards. The proposed rule would apply the backfilling and grading requirements to disposal of excess spoil on preexisting benches.

Legal Authority: 100 Stat 3457, sec. 12; 30 USC 22; 43 USC 1701 et seq

CFR Citation: 43 CFR 3826; 43 CFR 3811

Legal Deadline: None

Abstract: This proposed rule establishes guidelines for mining in certain military installations under the Mining Law of 1872, as amended, and for assuring the safe, uninterrupted, and unimpeded use of the lands for military purposes. The Military Lands Withdrawal Act of 1986 specifically provided for certain military lands previously withdrawn from mining to be considered for opening to the operation of the Mining Law of 1872, as amended, with certain special restrictions. Military Lands identified as suitable for mining through the Bureau of Land Management's planning system will be opened on the effective date of an opening order that will be published in the Federal Register.

1369. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42, Subpart I (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in programs or activities assisted by the Department of Justice (DOJ). The statute, 42 USC 6103(a)(4), requires that Federal agencies providing Federal financial assistance promulgate implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980 a draft final rule was forwarded to HHS for approval. On July 13, 1984 HHS conditionally approved the draft regulation. On August 12, 1987 DOJ submitted to HHS a draft final regulation.

Significance: Agency Priority

Legal Authority: 8 USC 1103; 8 USC 1362

CFR Citation: 8 CFR 292.1

Legal Deadline: None

Abstract: The proposed regulation would amend 8 CFR 292.1 and enable first and second year law students taking part in a clinical program at an accredited law school to represent individuals before the Immigration and Naturalization Service, Board of Immigration Appeals, and Immigration Judges under certain specified circumstances. It will also eliminate the provision allowing law school graduates without bar admission to practice under certain limited circumstances before the Service, Board, and Immigration Judges.

Abstract: The Immigration and Naturalization Service ("the Service") entertains numerous requests for verification of information from INS Service Records, via Form G-641. This form has been misused as a substitute document, while other INS documents are being prepared (i.e., I-94, I-551 or Certificate of Naturalization or Citizenship). Should an applicant need to have his or her status verified while waiting for one of these documents to be processed, and such verification can be satisfied by obtaining a copy of a document (certified if necessary), an FOIA/PA request can be made. If verification is needed to obtain a benefit and a copy will not suffice, the agency needing verification can make a direct request to the INS and it will be handled as appropriate.

Legal Authority: 8 USC 1101(a)(15)(B); 8 USC 1184

CFR Citation: 8 CFR 214.2(b)

Legal Deadline: None

Abstract: This notice announces the intent of the Immigration and Naturalization Service ("the Service") to set forth, in regulatory form, the special requirements for admission, extension and maintenance of status of nonimmigrant alien visitors for business and visitors for pleasure. Much of the Service's written policy relating to this subject is now contained in the Service's Operations Instructions at O.I. 214.2(b). Because it is more appropriate for interpretations and rules to be set forth in regulatory form, this information will become part of 8 CFR 214. In addition, the proposed rulemaking will clarify the criteria for according B-1 classification to members of certain occupations (such as participants in religious programs and members of foreign film crews). By issuing this advance notice, the Service is providing an opportunity to the public to submit comments and make suggestions at an earlier stage of the process. This will result in a proposed rule which is more comprehensive in its scope and more understandable to the public.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the Nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to provide permanent resident status to certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and incorporated a labor certification process into the statute. This interim rule establishes special H-2A regulatory criteria. It supplements the Department of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15)(H) of the Immigration and Nationality Act.

Abstract: This rule implements a new amendment to section 210 of the INA by deleting the entry cut-off date for eligibility to file applications under section 210 in the United States; and establishing standards and procedures for processing "preliminary applications" at designated ports of entry on the southern land border. This rule clarifies and makes various grammatical and technical amendments to the regulations governing the Special Agricultural Worker Program including changes necessitated by the new amendments to section 210. The rule defines the term "preliminary application"; deletes the limitation on the authority of District Directors to deny applications at legalization offices; deletes the filing date requirement for eligible aliens apprehended prior to the application period; clarifies the provision concerning where appeals under Part 210 are to be filed; deletes the references to issuance of an Order to Show Cause and Warrant of Arrest in cases where the United States Attorney declines prosecution; clarifies the provision requiring notification of decisions to the applicant's representative; confirms that Special Agricultural Worker (cont)

1409. INS/EOIR FEE REVIEW

Significance: Agency Priority

Legal Authority: 31 USC 9701

CFR Citation: 8 CFR 103.7

Legal Deadline: None

Abstract: This rule proposes to amend the existing fee schedule of the Immigration and Naturalization Service and the Executive Office for Immigration Review (EOIR). These changes are necessary to place the financial burden of providing special services and benefits which do not accrue to the public at large on the recipients of these special services and benefits. Charges have been adjusted to more nearly reflect the current recovery cost of providing these special services and benefits, taking into account public policy and other pertinent facts.

CFR Citation: 8 CFR 103.1; 8 CFR 103.3; 8 CFR 103.4; 8 CFR 103.5

Legal Deadline: None

Abstract: The regulatory action deals with appeals, precedent decisions, certifications, and motions. It would have a beneficial impact on the public by increasing the time periods for submission of certain appeals and briefs and making requirements easier to understand. It would have a beneficial impact on the Service by increasing the number of complete appeals filed with any supporting briefs and streamlining the Service's review of certain decisions. It would also change the title of the Chief, Administrative Appeals Unit to Director, which would have a negligible impact.

Legal Authority: PL 99-603, sec 121; PL 100-503

CFR Citation: None

Legal Deadline: Other, Statutory. Notice must be published by 12/31/89.

Abstract: Agreements between INS and State agencies using an automated "computer-matching" process to access INS's SAVE data base to verify the immigration status of alien applicants for specified entitlement benefits pursuant to Section 121 of IRCA. The Computer Matching Act applies to certain computerized comparisons of information in a Federal agency's automated system of records with the automated records of another organization, and provides procedural requirements and safeguards for any information obtained through any type of information exchange which is defined as a "computer-matching" program under that law. A "matching agreement" between the organizations is also required. Six State agencies were determined to be using as of June 1, 1989 a type of automated access method in conducting SAVE-related verifications that subjects them to the provisions of the Computer Matching Act.

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations, which has been selected for review or development during the coming one-year period. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act.

DATES: The agenda includes all regulations which are expected to be under review or development between October 1989 and October 1990.

FOR FURTHER INFORMATION CONTACT: Roland G. Droitsch, Deputy Assistant Secretary for Policy, Office of the Assistant Secretary for Policy, Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, (202) 523-9058.

Note: Information pertaining to a specific regulation can be obtained from the Agency Contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the **Federal Register** of an agenda of regulations.

Executive Order 12291 became effective February 17, 1981, and in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming one-year period. It also requires the Department to conduct a Regulatory Impact Analysis for all "major" regulations being developed.

The Regulatory Flexibility Act became effective on January 1, 1981. It applies only to regulations for which a notice of proposed rulemaking was issued on or after January 1, 1981, and requires the Department of Labor to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). For any regulation that will have this impact, the Department must conduct a Regulatory Flexibility Analysis to gauge the economic consequences of the rule and to analyze the availability of more flexible approaches for lightening the rule's regulatory burden on "small entities."

If a proposed regulation will not have a "significant economic impact on a substantial number of small entities," the Department of Labor must publish a certification to that effect at the time of the general notice of proposed rulemaking or at the time of the publication of the final rule. That certification must be accompanied by a succinct statement explaining the reasons for the agency's determinations.

As permitted by law, the Department of Labor is combining this publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The regulatory reform process, of which the Unified Agenda is a part, continues to be an extremely valuable aid in the development of better regulations by the Department. We believe that our regulatory reform program has resulted in improved regulatory management, more clearly written regulations, and significantly less burdensome regulations.

Further improvement is certainly needed, and we are constantly seeking new and innovative approaches in pursuit of this goal. All interested members of the public are invited and encouraged to let departmental officials know how our regulatory reform process can be further improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

The Department of Labor's next semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, will be published in April 1990.

Elizabeth Dole,

Secretary of Labor.

CFR Citation: 41 CFR 50 TO 204; 29 CFR 1910 to 1919; 29 CFR 1924; 29 CFR 1925; 30 CFR 1 to 199

Legal Deadline: None

Abstract: Part 50-204 of 41 CFR contains safety and health standards for Federal supply contracts under the Walsh-Healey Act. These standards, which also apply to Federal contracts for services under the Service Contract Act, were adopted in 1969, and were last revised in 1971. Many of the standards in Part 50-204 are duplicative of standards found in other Department of Labor regulations, primarily those issued under the Occupational Safety and Health Act (OSHA) in 29 CFR Parts 1910-1919, and the Mine Safety and Health Act (MSHA) in 30 CFR. In addition, other OSHA and MSHA standards have been revised and updated considerably since 1971, and these changes are not reflected in Part 50-204. Because employers covered by the Walsh-Healey and Service Contracts Acts are also covered by OSHA and MSHA, and thus are already required to comply with the OSHA and MSHA standards, as applicable, the Department of Labor is considering whether or not the Walsh-Healey standards should be revised by deleting redundant provisions and by substituting appropriate references (cont)

Significance: Agency Priority

Legal Authority: 8 USC 1161

CFR Citation: 29 CFR 503

Legal Deadline: Final, Statutory, September 30, 1989.

Abstract: Section 210A of the Immigration and Nationality Act requires that the Secretaries of Agriculture and Labor determine the number (if any) of additional aliens who should be admitted to the U.S. or who should otherwise acquire the status of aliens lawfully admitted for temporary residence, to meet a shortage of workers to perform seasonal agricultural services. The "shortage number" so determined is the basis upon which the Immigration and Naturalization Service will admit such workers during fiscal years 1990 through 1993.

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors 16 and 17 years of age. Child Labor Regulation No. 3 sets forth the permissible industries and occupations in which 14 and 15 year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of the regulations to ensure the safety and health of such minors and at the same time avoid unnecessary restrictions on their employment opportunities. Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Legal Deadline: None

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations.

Abstract: These regulations cover nondiscrimination and affirmative action obligations of Federal contractors under Executive Order 11246, as amended; the Vietnam Era Veterans' Readjustment Assistance Act of 1974 (38 U.S.C. 2012), as amended; and Section 503 of the Rehabilitation Act of 1973, as amended. Abstract: The Office of Workers' Compensation Programs (OWCP) in 1986 implemented a fee schedule for charges made under the Federal Employees' Compensation Act (FECA) by physicians. The fee schedule specifically excluded hospitals, nursing homes and pharmacies from coverage. In the intervening years, it has been shown that some hospitals are performing many of the same services as those which, when performed by physicians are covered by the fee schedule. The result is that different amounts may be paid for exactly the same service. OWCP proposed to end this inequity by extending to hospitals the fee schedule for those services which are similar to those provided by physicians.

1461. EMPLOYMENT OF HOMEWORKERS IN CERTAIN INDUSTRIES

Significance: Regulatory Program

Legal Authority: 29 USC 211

CFR Citation: 29 CFR 530

Legal Deadline: None

Abstract: This regulation sets forth restrictions on industrial homework and governs the issuance of certificates authorizing the employment of homeworkers in certain industries, pursuant to Section 11(d) of the Fair Labor Standards Act (FLSA). As originally issued, these regulations restricted the employment of industrial homework in seven industries: knitted outerwear; women's apparel; jewelry; buttons and buckles; gloves and mittens; handkerchiefs; and embroideries. The ban was removed on homework in the knitted outerwear industry by the Department on 11/9/81, following extensive hearings and public comment. This action was subsequently upheld by the District Court for the District of Columbia. However, on appeal the ban was reimposed 2/29/84 by the U.S. Court of Appeals for the District of Columbia Circuit. On 3/27/84 the Department published a proposed rule rescinding the ban on homework in the knitted outerwear industry only. In addition to soliciting comments on the proposed rescission, the Department sought comments on various alternatives to such action (49 FR 11736). On 11/5/84, a final rules was published lifting the ban on homework for (cont)

The comment period was later extended to May 13, 1988 (53 FR 15063). The proposal also excluded the women's apparel industry and stated that this industry would be the subject of separate rulemaking. Abstract: This proposed rule would amend the Walsh-Healey Public Contracts Act regulations to provide an alternative regular dealer definition applicable to information systems integration businesses which bid on contracts to furnish the government fully operational information processing ("ADP") systems. The alternative definition would relieve potential contractors in this industry from having to physically maintain inventories from which sales are made, a custom that is

1463. LABOR STANDARDS FOR FOREIGN AGRICULTURAL WORKERS

Significance: Regulatory Program

Legal Authority: PL 99-603

CFR Citation: 29 CFR 501

Legal Deadline: Final, Statutory, June 1, 1987.

Abstract: The Immigration Reform and Control Act of 1986 contains certain labor standards requirements for foreign agricultural workers employed under the H-2A foreign agricultural worker program, as well as for U.S. workers hired by employers who utilize foreign agricultural workers. The standards relate to pay, working conditions, housing, transportation and recruitment. The Employment Standards Administration issued an interim final rule on June 1, 1987 (53 FR 20524). It will issue an amended final rule that incorporates the labor standards issued by the Employment and Training Administration and sets forth procedures for enforcement of these labor standards. (Note: Final action on these regulations has been delayed while the Department requires experience in enforcing the statutory requirements applicable to temporary foreign agricultural workers.)

Significance: Regulatory Program

Legal Authority: PL 100-347, Employee Polygraph Protection Act of 1988; 29 USC 2001 to 2009

CFR Citation: 29 CFR 801 (New)

Legal Deadline: Final, Statutory, September 25, 1988.

Abstract: The Employee Polygraph Protection Act of 1988 (EPPA) was enacted June 27, 1988 and takes effect December 27, 1988. EPPA prohibits most private employers from administering lie detector tests to employees or prospective employees but permits the use of polygraph tests, subject to certain safeguards, under specific circumstances. The Secretary of Labor is authorized to issue rules and regulations to implement EPPA and to enforce it, including authority to conduct investigations, assess civil money penalties for violations, and bring suit in U.S. District Courts to enjoin violations of the Act. An interim final rule was published October 21, 1988 (53 FR 41494), requesting comments by February 27, 1989. The interim final rule became effective on December 27, 1988.

Abstract: The Department of Labor has changed the title of its district office heads in its Division of Longshore and Harborworkers' Compensation and Division of Coal Mine Workers' Compensation. They were previously known as Deputy Commissioners and are now called District Directors. This change is made for administrative uniformity among all office managers within the three Office of Workers' Compensation Programs divisions and will have no effect on the authority of the office heads in their capacity as managers or as informal adjudicators.

Significance: Regulatory Program

Legal Authority: 29 USC 201 et seq

CFR Citation: 29 CFR 531

Legal Deadline: None

Abstract: These regulations contain the basic standards governing the application of section 3(m) of the Fair Labor Standards Act (FLSA). This section provides that, under certain conditions, the reasonable cost or fair value of furnishing employees with board, lodging, or other facilities may be applied towards meeting the Act's minimum wage and overtime requirements. Section 3(m) also provides that tips received by certain employees may be credited toward the payment of the statutory minimum wage (up to a maximum of 40 percent). Due to other regulatory priorities, this regulatory initiative is being withdrawn and will be considered at a future date.

Abstract: These regulations establish the terms and conditions, pursuant to section 14(c) of the Fair Labor Standards Act (FLSA), under which handicapped workers may be employed, under certificate, at wage rates less than those otherwise required by statute. The 1986 Amendments to the FLSA substantially revised section 14(c) to simplify worker certification by eliminating separate certification for more productive workers, multiple handicapped individuals, and those in evaluation or training and work activities centers. Three affected regulations (29 CFR 524, 525 and 529) were combined into a single proposed new rule which was published for public comments on May 20, 1988. The comment period closed on July 19, 1988. On October 31, 1988, a notice was published in the Federal Register (53 FR 43899) reopening the comment period for 15 days.

Abstract: This regulation sets out Reed Act requirements for States. It covers: restoration of Reed Act funds used to pay unemployment benefits; appropriation by the States and use of funds for administration; and disposition, reduced usage, and replacement of Reed Act-financed property. The regulation implements P.L. 97-248 and updates existing material issued as manuals. Alternatives being considered include: (1) Issuing a regulation, another type of directive, or nothing; (2) Limiting the scope of the regulation to areas involving compliance with Federal law or not limiting scope; and (3) which rules, if any, should be issued regarding the calculation of Reed Act balances, restorations of Reed Act funds, program income, and sales, other dispositions, and reduced usage of property acquired with Reed Act funds. Issuing a regulation will benefit grantees by reducing their uncertainty as to the applicable rules. No significant additional costs will result.

CFR Citation: 20 CFR 618

Legal Deadline: None

Abstract: These regulations are being developed to implement the benefit provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24, 1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. The U.S. Supreme Court ruled on March 25, 1987 that the legislative veto provisions were unconstitutional but the first right-to-hire provisions were constitutional, therefore, rulemaking can proceed on the (cont)

Abstract: Since 1981, Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment insurance and the repayment of such advances and interest thereon. Promulgation of comprehensive regulations is being undertaken in two phases. The proposed rule will replace instructions contained in several Unemployment Insurance Program Letters approved under OMB No. 1205-0199 expiring October 31, 1990. This action represents the second phase, governing States receiving and voluntarily repaying advances to their unemployment funds and paying interest in such advances. The final rule for the first phase, governing relief from automatic repayment and interest charges, was published in the Federal Register on September 26, 1988 (RIN 1205-AA14).

Abstract: Before the Department of State (DOS) and the Immigration and Naturalization Service (INS) may issue visas and admit certain immigrant aliens to work permanently in the United States, the Secretary of Labor pursuant to Section 212(a)(14) of the Immigration and Naturalization Act (INA) must certify to the Secretary of State and to the Attorney General that: (a) There are not sufficient United States workers who are able, willing, qualified and available at the time of the application for a visa and admission into the United States and at the place where the alien is to perform work; and (b) The employment of the alien will not adversely affect the wages and working conditions of similarly employed U.S. workers (8 USC 1182(a)(14)). The Department of Labor (DOL) has promulgated regulations at 20 CFR Part 656 pursuant to and to implement section 212(a)(14) of the INA (8 USC 1182(a)(14)). Abstract: This proposed rule would replace outdated administrative regulations for the unemployment insurance (UI) program grants to States with reference to more current common administrative requirements for State governments codified elsewhere by the Department of Labor (DOL). Because of certain unique needs of the UI program, this action would also cover UI program exceptions to these requirements and clarifications of Employment and Training Administration (ETA) policy in applying requirements to State grantees. Abstract: These regulations implement the Amendments to the trade adjustment assistance provisions of the Trade Act of 1974 in Pub. L. 100-418 by expanding the eligibility for TAA to workers in the oil and natural gas industry engaged in exploration and drilling; requiring a written notice to workers believed to be covered by a certification issued by the Department and the publication of a notice of certification in a newspaper of general circulation; making participation in training a condition for receiving trade readjustment allowances; authorizing the waiver of training for a worker when training is not feasible or appropriate; authorizing the payment of TRA to a worker during breaks in training that do not exceed 14 days; basing TAA benefits on the workers most recent separation rather than first qualifying separation as previously applied; extending the authorization of the TAA program to September 30, 1993; and, making other changes.

Significance: Regulatory Program

Legal Authority: 8 USC 1101 et seq

CFR Citation: 20 CFR 655

Legal Deadline: None

Abstract: As mandated by Immigration Reform and Control Act of 1986 (IRCA), DOL published a proposed rule on May 5, 1987 (52 FR 20496) and an interim final rule on June 1, 1987 (52 FR 16770), for administering the H-2A temporary alien agricultural labor certification program created by IRCA. Comments received on the proposed rule were considered by DOL in developing the interim final rule. An additional 60-day comment period led to additional comments. Subsequently, litigation relating to the wage provisions in the June 1 rule, particularly the methodology for establishing adverse effect wage rates (AEWRs) was filed against DOL. In December 1987 the U.S. Court of Appeals for the D.C. Circuit remanded the interim final rule to DOL for further explanation of the AEWR methodology. DOL is publishing a proposed rule explaining its intent to adopt the same methodology set forth in the June 1, 1987 rule, based upon an expanded record.

Abstract: The Economic Dislocation and Worker Adjustment Assistance Act (EDWAA) was enacted on August 23, 1988 to amend the Job Training Partnership Act (JTPA) by substituting a completely new Title III. Title III of JTPA establishes programs of training and employment assistance for dislocated workers. The new program incorporates several important changes. Among these changes are: (1) institutionalizing a State rapid response capability, (2) changing delivery system to mandate the designation of substate grantees, (3) focusing on better resource utilization through reallotment and reallocation provisions, (4) greater emphasis on training by incorporating new features such as certificates of continuing eligibility and needs related payments while in training. In addition, greater emphasis will be placed upon coordination and linkages among major training and employment program components such as the public employment service, the UI and TAA programs.

Section 9342(d) of OBRA 1987 specifically directs the Secretary to issue not later than January 1, 1989, the regulations required to implement this provision.

Abstract: Section 502(c) of the Employee Retirement Income Security Act of 1974 (ERISA) was amended by Section 9342(c) of the Omnibus Budget Reconciliation Act of 1987 (OBRA 1987) to authorize the Secretary of Labor to assess a civil penalty of up to $1,000 a day from the date of a plan administrator's failure or refusal to file the complete annual report required to be filed with the Secretary under section 101(b)(4) of ERISA. This regulation would carry out the requirement of OBRA 1987 that the Secretary promulgate regulations implementing the new civil penalty provision relating to a plan administrator's failure or refusal to file a complete annual report.

Abstract: MSHA has an established mining equipment approval program which includes evaluation criteria and corresponding safety standards requiring the use and maintenance of approved equipment. However, existing approval regulations do not generally apply to the diesel-powered equipment now being used in coal mines. In July 1988 an Advisory Committee convened by the Secretary of Labor made recommendations to the Secretary concerning standards for the use of diesel-powered equipment in underground coal mines. Based on those recommendations, MSHA has published a proposed rule that addresses the approval of components of standards for its use. The Advisory Committee also recommended that an approval program be established for equipment safety features beyond the basic engine and power package. These features could include such components as the fuel system, exhaust gas dilution system, electrical system, braking system and fire suppression system. With the proposal, MSHA published an ANPRM requesting comment on what approach should be taken on the recommendations.

Abstract: The problem of hearing impairment among miners has become of increasing concern to MSHA. Many miners are consistently exposed to noise levels that are near maximum levels currently permitted by MSHA. As a result, miners may be suffering hearing impairments, notwithstanding existing MSHA noise standards. MSHA intends to utilize one rulemaking to establish similar noise standards to apply to coal mining and metal/nonmetal mining.

Abstract: This rulemaking would develop a performance-oriented standard to address the hazards of working in confined spaces. Many of these confined spaces work areas are not unique to mines and the hazards are identical to these confined space hazards that exist in general industry for which OSHA is preparing a proposed standard.

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 16

Legal Deadline: None

Abstract: This standard would establish requirements for the MSHA testing, evaluation and approval of electric detonators for use in underground coal mines and certain metal and nonmetal gassy mines. At the present time there are no industry-wide standards to establish minimum performance requirements for detonators. Regulations governing the technical characteristics and performance of detonators would ensure compatibility for safe use with approved blasting units and approved explosives as required by underground coal mine standards. Some imported detonators that have entered the market during the past few years require an initiating current that exceeds the tested capacity of MSHA approved blasting units making them incompatible with approved blasting units. Other detonators tested by the Bureau of Mines showed reduced no-fire current levels which present a greater sensitivity to stray electrical current and could result in premature detonation.

Legal Deadline: None

Abstract: Existing electrical standards for underground coal mines would be substantially reorganized, clarified, and updated. General incorporations by reference of the National Electric Code would be eliminated and replaced with specific standards applicable to underground coal mining operations. The Agency is in the process of developing a proposed rule that addresses the wide range of issues raised by commenters on the Agency's 1986 ANPRM. MSHA is analyzing: (1) accident and injury data to determine the cause and rate of accidents involving electricity and the need to revise standards to prevent future accidents; (2) variances granted to determine whether alternative methods of compliance could be included in the standards; (3) consensus standards in the National Electrical Code for applicability to underground coal mines; and (4) litigation cases related to the Agency's enforcement efforts to determine where clarified standards could improve compliance.

Abstract: On November 18, 1988, the Mine Safety and Health Administration (MSHA) published a final rule (53 FR 46768) to revise its safety standards for explosives and blasting in underground coal mines. Prior to the effective date, MSHA stayed 30 CFR 75.1325(b) which restricts blasting to only one face in a working place to allow further review of single versus multiple face blasting. 1511. NOTIFICATION, INVESTIGATION, REPORTS AND RECORDS OF ACCIDENTS INJURIES, ILLNESSES, EMPLOYMENT, AND COAL PRODUCTION IN MINES

Significance: Regulatory Program

Legal Authority: 30 USC 957; 30 USC 813(d)

CFR Citation: 30 CFR 50

Legal Deadline: NPRM, Statutory. This regulatory requirement is a Federal statutory provision. It implements Sections 103(d)(h) and (j) of the Mine Act.

Abstract: In response to concerns raised by members of Congress and the mining community about the nature and accuracy of existing reporting obligations, MSHA established an intra-agency task force to review its requirements for reports of accidents, injuries and illnesses in coal and metal and nonmetal mines. The Agency focused on several aspects of the reporting requirements including the definition of an occupational injury or illness, and an expanded audit program. The Agency has determined that the existing regulations in Part 50 should be clarified and improved through the rulemaking process. MSHA will clarify the definitions of reportable injuries and illnesses and solicit suggestions from the public in this effort.

Abstract: The primary purpose of this action is to provide miners with the means to receive necessary information on the hazards of chemicals to which they are exposed and the action necessary to protect their safety and health. Abstract: The agency has developed an NPRM which incorporates permissible exposure limits which are applicable to the hazards encountered in metal and nonmetal mines and coal mines. The proposal solicit comments on updating permissible exposure limits and methods of controlling such limits. Standards for use of respiratory protective equipment would replace an outdated incorporation by reference. The proposal would also update asbestos standards. Other issues being considered are: requirements for exposure monitoring and precautions for handling restricted-use chemicals; notification of workers of overexposures; access to exposure monitoring records; medical surveillance and transfer of miners required to use respirators and miners using certain carcinogens.

Abstract: On August 25, 1988 the Mine Safety and Health Administration (MSHA) amended its standard addressing the use of berms and guardrails on elevated roadways at metal and nonmetal mines. However, MSHA stayed the provision which allows an alternative to the use of berms or guardrails on elevated roadways for infrequently traveled roadways used by service or maintenance vehicles. Legal Deadline: Final, Statutory, February 15, 1990.

Abstract: On January 27, 1988, the Mine Safety and Health Administration published a final rule for safety standards for roof, face and rib support in underground mines. Three of the final standards were challenged by the United Mine Workers of America (UMWA), International Union, Petitioner, v. Secretary of Labor, et al, No. 88-1238 (D.C. Cir., March 10, 1989). On March 10, 1989, the U.S. Court of Appeals (D.C. Cir.) upheld one of the new standards and invalidated two, 30 CFR 75.204(a) and (b) and 30 CFR 75.213. On May 17, 1989, the Court issued an Order which, effective February 15, 1990, would vacate the two invalidated standards. These two remanded standards relate to roof bolts and roof support removal. MSHA had submitted that rulemaking with respect to these two standards could be completed in 9 months. MSHA is reopening rulemaking procedures on these standards.

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 18; 30 CFR 7

Legal Deadline: None

Abstract: Conveyor belts are the leading cause of fires in underground coal mines. These mines often use many miles of conveyor belts. The remote location of the belts can allow fires to start and spread to the coal before they are detected. Application of recent improvements in the flammability of belt material would make belts more difficult to burn, resulting in fewer belt fires. The Agency is developing higher flame-resistivity approval requirements and a less complicated approval test to allow manufacturer or third party testing of conveyor belts for use in underground coal mines.

Abstract: These proposed rules would reduce the information collection burden imposed by the Mine Safety and Health Administration (MSHA) on mine operators or other affected parties by revising reporting and recordkeeping requirements. In most cases, paperwork requirements would be replaced with certification provisions. This rulemaking would examine whether recordkeeping burdens could be reduced in 30 CFR 49.6(b) which requires records of monthly inspections and tests of mine operators and equipment to be kept for one year; in 30 CFR 75.1714-3 which requires records of quarterly inspections and tests of self-contained self-rescue devices; in 30 CFR 75.1101-23(c)(1) which requires records of the participation of coal miners in quarterly fire drills and in 30 CFR 75.1713-3 and 77.1703 in which mine operators are required to conduct first-aid training courses for selected supervisory employees, and report in writing to the District Manager the names and job titles of all supervisory employees within 60 days, and the date on which such employees satisfactorily completed the first-aid training course.

Significance: Regulatory Program

Legal Authority: 30 USC 814(e); 30 USC 957

CFR Citation: 30 CFR 104

Legal Deadline: None

Abstract: This rulemaking would implement section 104(e) of the Federal Mine Safety and Health Act of 1977 which addresses mines with a pattern of repeated, significant and substantial violations. In 1985 MSHA issued an ANPRM which outlined new procedures for implementing the statutory provision for pattern of violations. The Agency reviewed comments and has been working to develop both appropriate criteria and a meaningful procedure for identifying operators who are potential pattern violators. The costs of the regulations would primarily bear upon individual mine operators receiving issuances notices. Any costs that the mine operator would incur to comply with other Federal standards would be attributed to those standards. The primary benefit of the pattern of violators provision would accrue to workers at mines where the mine operator has shown a disregard for their safety and health by allowing the same work hazards to repeatedly occur without addressing the underlying problems.

Abstract: The Agency published a proposed rule concerning ventilation in underground mines which included provisions for the introduction of new technology for systematic monitoring of explosive methane gas, as well as gases that may indicate a mine fire. Other important issues include ventilation of worked-out areas: timeframes for tests for methane; and using intake air that has been used to ventilate a belt conveyor entry. 1528. METAL AND NONMETAL RADIATION STANDARDS

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 57.5037 to 57.5047

Legal Deadline: None

Abstract: MSHA is reviewing its radiation standards for underground metal and nonmetal mines and has identified certain issues with respect to regulatory action. The Agency published a proposal in December 1986 revising its existing ionizing radiation standards. Public hearings were held in August 1987. Extensive testimony was presented during the public hearings. The rulemaking also takes into account the receipt of the NIOSH criteria document in October 1987, and the release of the National Academy of Sciences BEIR IV Report in December 1987.

1529. APPROVAL CRITERIA FOR RESPIRATORY PROTECTIVE DEVICES

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 11

Legal Deadline: None

Abstract: Under the 1977 Mine Act, MSHA and the National Institute for Occupational Safety and Health (NIOSH) jointly approve respirators for use in hazardous atmospheres. New technology has been developed which has not been accommodated by the existing regulations. In addition, questions have been raised about laboratory testing and field performance of respirators. The decision has been made for NIOSH to have the lead in approval of respirators. MSHA will be involved with the devices which are uniquely adapted or required for mining. A proposed rule to remove MSHA's regulations upon completion of a concurrent NIOSH rulemaking was published in August 1987. However, further rulemaking is contingent upon NIOSH's timetables.

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 25

Legal Deadline: None

Abstract: The requirements for approval of blasting units are part of the overall coal review to update standards. The revision of existing Part 25 specifications was proposed as Subpart D to Part 7. Under this concept, testing would be done by the applicant or a third party, subject to Agency requirements and approval.

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 44

Legal Deadline: None

Abstract: On July 10, 1987, the United States Court of Appeals for the District of Columbia invalidated the Agency's existing interim relief regulation based in part, on procedural defects, holding that it was contrary to Congressional intent. (INT. UNION v. MSHA, 823 F. 2d 608 (D.C. Cir. 1987)). Therefore, MSHA has issued a proposal addressing interim relief in situations where enforcement of a mandatory standard would result in a diminution of safety to affected miners or in emergency situations.

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75.206(a)

Legal Deadline: None

Abstract: On January 27, 1988 (53 FR 2354), MSHA published final rules revising its safety standards for roof, face, and rib support in underground coal mines. The Agency is proposing to revise Section 75.206(a) of these standards to exempt anthracite mines from entry width and roadway support requirements when conventional roof support is used. The requirement would remain in effect, however, for bituminous coal mines.

Abstract: Certain MSHA regulations require persons working in coal mines to be qualified or certified to perform certain tasks, for example, testing for methane and making ventilation examinations. The existing rule requires operators to submit certification and qualification applications to MSHA every six months for recertification. The proposal eliminates the six-month limitation, permitting persons to remain certified or qualified for as long as they continue to satisfy the substantive requirements and remain employed at the same coal mine or independent contractor.

Abstract: The Nation's number one injury problem is back injuries. These injuries account for one of five compensation claims and one of four dollars expended for compensation. The purpose of the proposed request for comments and information is to enable OSHA to determine a course of action--possibly either rulemaking or informal guidance-aimed at reducing the number of back-related injuries which result from improper manual lifting. The request will identify a number of approaches to improving manual lifting, and invite public comments and suggestions. Significance: Regulatory Program

Legal Authority: 29 USC 653; 29 USC 655; 29 USC 657

Abstract: The Carcinogen Policy describes the criteria and procedures OSHA will use to identify, classify, and then regulate carcinogens. The Policy also establishes a process for screening chemicals and for setting priorities for potential rulemaking activities. The Carcinogen Policy explicitly recognizes that periodic revisions are necessary in order to incorporate the latest scientific advances and techniques into the regulatory process. Hence, it is time for OSHA to review and modernize the carcinogen policy. The original standard was issued in 1980 before the Supreme Court "benzene" decision on significant risk. Thereafter, a final rule deleting provisions of the Carcinogen Policy that were inconsistent with the benzene decision was published on 1/19/81 (46 FR 4889). A proposal was published on 1/23/81 (46 FR 7402) to permit alternatives to the risk analysis section of the carcinogen policy to be addressed. The proposal was withdrawn on 3/27/81 (46 FR 19000). Abstract: The present respiratory protection standards have been in place for more than 10 years and do not take into consideration the current state-of-the-art for respiratory protection. In addition, the general industry standard for respirators contains redundancies and includes several advisory provisions which should be eliminated or changed. OSHA has reviewed the current standards and intends to propose revisions.

Abstract: On June 17, 1986, OSHA issued revised standards governing occupational exposure to asbestos, tremolite, anthophyllite, and actinolite in general industry and in the construction industry. These standards replaced OSHA's previous asbestos standard promulgated in 1972. Since the issuance of the revised standards OSHA has received letters and petitions, from both rulemaking participants and nonparticipants, that contain additional comments, assertions and information that the rulemaking record may not fully reflect. These letters and petitions concern the appropriateness of regulating nonasbestiform tremolite, anthophyllite and actinolite as presenting the same health risk as asbestos. OSHA has granted a temporary stay of the effective dates of the current standards as they apply to nonasbestiform varieties of tremolite, anthophyllite and actinolite. This action was taken, in part, to enable the Agency to review letters and memoranda from the National Institute for Occupational Safety and Health as well as submissions by the R.T. Vanderbilt Company and various other (cont)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.270

Legal Deadline: None

Abstract: Employees in oil and gas well drilling and servicing are exposed to a variety of safety hazards which are not specifically covered by present OSHA safety standards. It has proved difficult to apply the existing general industry standards to control the unique nature of this industry. OSHA is considering a standard which will address the unique problems of oil and gas well drilling and servicing. OSHA is reevaluating its proposed rule based on the public record and intends to reissue a proposed rule as the next action.

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1000, (Table Z-2); 29 CFR 1910.1028

Legal Deadline: None

Abstract: OSHA has amended its standard for occupational exposure to benzene by reducing the permissible exposure limit from 10 parts benzene per million parts of air (10 ppm) to an eight-hour time-weighted average of 1 ppm and by adding appropriate industrial hygiene and medical surveillance provisions necessary for the protection of employee health. This action is based on OSHA's determination that the amendments are needed to reduce the risk of leukemia and other adverse health effects associated with occupational exposure to benzene. OSHA published its final amendment to the standard on September 11, 1987. Due to technical problems associated with the completion of a detailed study of feasibility in barge and tanker cleaning and repair operations, however, OSHA exempted these operations from certain provisions of the standard. OSHA intends to issue a proposal to amend the benzene standard which will address the factors specific to the barge and tanker cleaning and repair industry.

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards of cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and employees with a blueprint for effective and safe workpractices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars.

Abstract: The present occupational health standard for formaldehyde was published on December 4, 1987 (52 FR 46168). In this standard, the Occupational Safety and Health Administration (OSHA) required hazard warning labels to be placed on containers of all products composed of greater than 0.1 percent formaldehyde or capable of releasing formaldehyde into the air under any normal condition of use at concentrations reaching or exceeding 0.1 ppm. Material safety data sheets, prepared in accordance with paragraph (g) of the Hazard Communication Standard (29 CFR 1910.1200), were also required. On December 2, 1987, the Formaldehyde Institute filed an Application for Administrative Stay of the Formaldehyde Standard's cancer labeling requirement. On November 8, 1988, OSHA requested comments on whether to grant a petition for administrative stay of these provisions and whether to institute additional rulemaking. Based primarily on the comments received, OSHA stayed the provision at 29 CFR 1910.1048 (m)(l)(i) through (m)(4)(ii) for a period of (cont)

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section

9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA published an Advance Notice of Proposed rulemaking (ANPRM) on April 2, 1987, (52 FR 10586). Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part. Specifically, OSHA issued a set of guidelines for controlling occupational exposure to DCM and OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard. Abstract: On June 18, 1986, the International Chemical Workers Union and the Public Citizen Health Research Group petitioned OSHA to issue an emergency temporary standard reducing the permissible exposure limit for cadmium to one microgram of cadmium per cubic meter of air. On June 25, 1987 the union and HRG filed a petition with the Court of Appeals requesting the Court to order OSHA to promulgate an ETS. In its July 1, 1987, response to the petitioners, OSHA stated that issuance of an emergency standard was not warranted, but that exposure to cadmium at levels permitted under the current standard represented a significant risk to worker health which would be addressed through section 6(b) rulemaking procedures. On September 26, 1988, OSHA published guidelines for controlling exposure to cadmium and recommended reduced exposure levels significantly below the permissible exposure limit.

Legal Deadline: None

Abstract: Standards in 29 CFR Part 1910, Subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquified petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in three phases in an expanded timeframe. The three phases will be (1) Process Hazards Management, (2) Flammable and Compressed Gases, and, (3) Hazardous Liquids. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities of dangerous substances. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in general industry to better understand and better focus on the hazards inherent in the use, handling, and storage of such materials.

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision will involve the promulgation of 16 maritime subparts and their 1910 counterparts. Its completion will relieve shipyard owners from the burden of having to comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. OSHA has established an Advisory Committee to assist the agency in reviewing and revising these subparts. Experts from government, industry, unions and the states will be asked to work with OSHA on this project. A previously identified project, Surface Preparation and Preservation (RIN: 1218-AA96), will be included in this project.

1569. ● PEL UPDATE PROPOSAL FOR CONSTRUCTION, MARITIME AND AGRICULTURE

Significance: Regulatory Program

Legal Authority: Not Yet Determined

CFR Citation: 29 CFR Not Yet Determined

Legal Deadline: None

Abstract: The permissible exposure limits (PELS) promulgated by OSHA in 1971 do not reflect current knowledge of the health effects of many toxic substances. OSHA published a proposal on June 7, 1988 (53 FR 20960) to amend and expand the PELs for general industry. On January 19, 1989 OSHA set new PELs for the toxic substances originally covered in 1971 and covered new substances in a single rulemaking that applied to general industry. OSHA now plans to update the old PELs for construction, maritime, and agricultural sectors not covered by the general industry proceeding. The PELs for these sectors are outdated: the construction industry (29 CFR 1926) references the 1970 ACGIH TLVs; the maritime industry cites three different references--29 CFR 1918 (longshoring), "dangerous gaseous contaminants not immediately dangerous to life" and "heavy concentrations of dusts." In addition, in the agricultural section, OSHA will consider chemicals and pesticides that are currently regulated by EPA. As a result of this rulemaking, OSHA expects that a unified table of PELs for toxic substances will be adopted for all industries.

Abstract: Public Law 99-499 requires the Secretary of Labor to promulgate a final standard for Hazardous Waste Operations and Emergency Response. The final standard was issued on March 6, 1989. Section 126 of Public Law 99-499 was amended by Congress on December 22, 1987 to require the Secretary of Labor to include in the final rule a training course certification program at least as comprehensive as the EPA's model program for asbestos abatement in public buildings. This proposed revision would add criteria and requirements for training course certification of training for workers involved in hazardous waste operations.

Abstract: OSHA currently has no general regulation requiring that employers train their employees in the safe operation of motor vehicles on the job, including the required use of seat belts, although motor vehicle crashes are the single largest cause of occupational fatalities. On-the-job motor vehicle crashes, in both on-road and off-road vehicles, caused over 30 percent of traumatic work-related fatalities in 1987. In the manufacturing sector, which is the primary target of most OSHA regulations, more workers are killed by motor vehicles than by fixed machinery. The hazards faced by workers operating automobiles and trucks, both on public highways and at private facilities, could be greatly reduced by requiring employers to train their employees in safe driving techniques, including the required use of seat belts. OSHA plans to proceed with a single NPRM that would regulate all employers covered by the OSH Act. The approach will be to develop a generic, performance-oriented standard. 1572. OCCUPATIONAL EXPOSURE TO TOXIC SUBSTANCES IN LABORATORIES

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1450

Legal Deadline: None

Abstract: Existing OSHA standards are designed to protect employees who are engaged in work involving exposure to only a few toxic chemicals during relatively standardized, continuous or repetitive processes. In contrast, laboratory workers are exposed to a multitude of toxic substances under frequently changing or unpredictable conditions. During this rulemaking, OSHA will examine whether prudent work practices and protective equipment, chosen for the specific facility and task, are more effective, feasible and economical for laboratory work than adhering to OSHA's current substance-specific standards. Accordingly, OSHA has proposed a special performance-oriented work practices standard that, if promulgated, would apply to laboratory workers and would contain provisions specifically designed for laboratory conditions.

Significance: Agency Priority

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.1048

Abstract: Recent scientific studies have reported that ethylene dibromide causes cancer when administered orally, by inhalation and by skin application in laboratory animals. In addition, other studies have shown the chemical to be a mutagen, teratogen and testicular toxin in experimental animals. On the basis of these reports, OSHA has determined that its current permissible exposure limit of 20 ppm does not provide exposed workers adequate protection against cancer and other adverse health effects. A proposed standard for ethylene dibromide was published 10/07/83 (43 FR 45956). Public hearings were held in February 1984. OSHA is currently in the process of decisionmaking on the provisions to be included in the final standard.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.266, (Revision)

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

Abstract: 4,4'-Methylenedianiline (MDA) is a chemical used primarily to manufacture methylenediphenyl diisocyanate, which is used to make polyurethane foams and elastomers. Recent scientific data indicate that MDA is a carcinogen in animals and a potential carcinogen in humans. In 1983, OSHA and the Environmental Protection Agency participated in a joint effort to publish an advance notice of proposed rulemaking to solicit information on MDA production and use, estimates of environmental and occupational exposure, and studies of its toxic and carcinogenic effects. EPA evaluated the data received in response to the advance notice and concluded that the chemical presents an unreasonable risk of injury to the health of exposed workers. Under the provisions of section 9(a) of the Toxic Substances Control Act, EPA referred MDA to OSHA for action. OSHA responded to the EPA referral on 2/26/86. OSHA established a mediated rulemaking advisory committee composed of interested parties from labor, industry and government to assist the agency in developing a proposed standard. The Committee completed its work in June 1987 (cont)

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity.The proposal also revises the standards for electrical protective equipment, which is used routine for electrical power work.

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. On August 8, 1988, OSHA published a NPRM to modify the final rule, and provide an opportunity for public comment. Public comments have been received, hearings have been held, and OSHA will prepare a final rule based on the public record for this standard, including the record developed in earlier rulemakings.

1590. BLOODBORNE PATHOGENS

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: Many health-care workers are exposed to blood and body fluids

DOL—OSHA **Final Rule Stage**

from patients who have active bloodborne infections or are carriers of these infections. Such exposure presents a potential risk of disease for the health-care worker. One such disease, Hepatitis B, has been shown to present a substantially increased risk for health-care workers. Hepatitis B is a serious disease that may require hospitalization and, in a small percentage of cases, is fatal. Another bloodborne disease, Acquired Immune Deficiency Syndrome (AIDS) is also of great concern to health- care workers. Only a very small number of infections, however, have been documented to have resulted from occupational exposure to the virus that causes AIDS. About half of the nation's 6 million health-care workers are at increased risk from exposure to bloodborne infectious diseases. (cont)

Additional Information: ABSTRACT CONT: Some examples of health-care workers at highest risk are emergency room workers, dialysis unit workers, operating room personnel, intensive care unit workers, and blood bank employees. The Occupational Safety and Health Administration (OSHA) has no standard specifically regulating occupational exposure to bloodborne infectious diseases. In 1983, the Agency issued guidelines for reducing the occupational risk of Hepatitis B infection (OSHA Instruction CPL 2-2.36). These guidelines are voluntary, however. In September 1986, OSHA was petitioned by the American Federation of State, County and Municipal Employees and other unions for the issuance of an emergency temporary standard to protect workers from occupational exposure to bloodborne infectious diseases, such as hepatitis B and AIDS. On May 30, 1989, OSHA published its proposal in the Federal Register (54 FR 23042). Public comment on the proposed standard will assist OSHA in determining the appropriate scope and provisions of the final rule.

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.66

Legal Deadline: None

Abstract: The present standard, which requires positive engagement of a powered platform with a building face to provide stabilization, may need to be revised because many variance designs have been submitted which do not provide positive engagement of the platform, yet claim equal stability. The agency believes there may be merit to this claim. The proposal provides flexibility in compliance through performance-oriented provisions as alternatives to positive engagement. It would also expand the scope of the current standard to include requirements covering additional suspension equipment, fall protection, and employee training.

1593. CONTROL OF HAZARDOUS ENERGY SOURCES (LOCKOUT/TAGOUT) (PART 1910)

Significance: Regulatory Program

Legal Authority: 29 USC 655(b)

CFR Citation: 29 CFR 1910.147, (New)

Legal Deadline: None

Abstract: The proposed standard will fill a major gap in our current regulations which now depend for enforcement on the general duty clause, 5(a)(1). It will apply to those situations where the unexpected energization, start up or the release of stored energy could cause injury to employees. Providing comprehensive and uniform control procedures is also expected to reduce significantly the potential for injury and death of employees because the hazards targeted for control exist in virtually every workplace. Further, the proposed standard will respond to the concerns of organized labor who petitioned OSHA in 1979 and again in 1982 for regulatory action to protect employees and to the American National Standards Institute's petition for OSHA to adopt its consensus standard ANSI Z244.1-1982. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources or limiting the scope and application to those certain machines or industries that are causing most of the injuries.

Significance: Regulatory Program

Legal Authority: 29 USC 655 et seq

CFR Citation: 29 CFR 1910.1025

Legal Deadline: Final, Judicial, June 28, 1989.

Abstract: On December 11, 1981 (46 FR 60758), OSHA published a Revised Statement of Reasons concerning the feasibility of compliance with paragraph (e)(1) of the standard for occupational exposure to lead, which had been promulgated in 1978. In this revised statement, OSHA stated that it could not reach a conclusion regarding feasibility, on the basis of the existing rulemaking record, for eight specific industry sectors: lead chromate pigments, lead chemicals, nonferrous foundries, brass and bronze ingot production, secondary copper smelting leaded steel, shipbuilding and ship repair, stevedoring, and battery breaking separate from secondary smelting, and that in addition, it wished to reexamine the applicability of the lead standard to the stevedoring industry. OSHA requested that the record (which was under review by the U.S. Court of Appeals for the District of Columbia Circuit) be remanded for supplementary administrative proceedings. The Court granted OSHA's December 1981 request on March 31, 1987, and remanded the record to OSHA for further administrative proceedings to determine the feasibility of section (e)(1) for the nine industry sectors OSHA had (cont)

On June 17, 1987, OSHA filed with the Court a motion requesting a 90-day extension to January 1, 1988. On July 31, 1987 the Court granted OSHA's motion. OSHA published in the Federal Register on August 3, 1987, a notice of a limited reopening of the rulemaking record (limited to the issue of feasibility) and specified September 2, 1987 for the receipt of comments from the public and September 15, 1987 for public hearings. Thereafter, at the request of industry and labor, OSHA deferred the relevant dates for the rulemaking until September 16 and 29, 1987, respectively.OSHA requested, and was granted by the Court, an extension for final action until July 15, 1988.Because of the complexity of the issues, OSHA petitioned the court on July 15 for an extension of time for the return of the record until the end of November 1988. OSHA published a final standard on July 11, 1989.

1603. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 22 USC 2658

CFR Citation: 22 CFR 135

Legal Deadline: None

Abstract: This regulation established uniform administrative requirements for grants and cooperative agreements to State and local governments. The regulation is being changed to include institutions of higher education, hospitals, and other nonprofit organizations. This effort represents a merging of OMB circulars A-102 and A-110, and is being promulgated by 27 Federal agencies under the common rulemaking procedures.

Legal Authority: 22 USC 2658

CFR Citation: 22 CFR 137

Legal Deadline: Other, Statutory, March 18, 1989.
Interim final rule for drug-free workplace regulation.

Abstract: This regulation established a uniform system of nonprocurement debarment and suspension among 27 Federal agencies. The regulation included coverage published as an interim rule, which will remain so indefinitely, until a comprehensive debarment and suspension system covering both procurement and nonprocurement is established (see 53 FR 34474, September 6, 1988). This regulation also has been amended to include Government requirements for drug-free workplace, pursuant to the Drug-Free Workplace Act of 1988 (P.L. 100-690, Title V, Subtitle D). The drug-free workplace interim rule (see 54 FR 4947, January 31, 1989) will be finalized during this regulatory period.

1605. ● AMENDMENT TO DEPARTMENT OF STATE ACQUISITION REGULATION (DOSAR CASE 89-010)

Legal Authority: 5 USC 301; 22 USC 2658; 40 USC 486(c); 22 USC 4343

CFR Citation: 48 CFR 625

Legal Deadline: Final, Statutory, June 20, 1988.
Interim final rule at 22 CFR Part 136 made effective on June 20, 1988, the effective date of that section of the statute (PL 100-204).

Abstract: This action will amend the DOSAR to prescribe regulations covering disposition of personal property abroad by certain U.S. Government contractors. The regulation implements a general regulation at 22 CFR Part 136 (see 53 FR 23118, June 20, 1988), which was promulgated pursuant to section 186 of the Foreign Relations Authorization Act, Fiscal Years 1988 and 1989. The DOSAR coverage will be issued as an interim final rule pending adoption on a government-wide basis, as the statute covers all contractors that enjoy importation or tax privileges in a foreign country because of their contractual relationship to the U.S. Government. The purpose of the statute is to ensure that contractors do not profit from transactions with persons not entitled to exemptions from import restrictions, duties, or taxes.

Department Regulations Agenda; Semiannual Summary

AGENCY: Department of Transportation.

ACTION: Department regulations agenda.

SUMMARY: The regulations agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 Seventh Street SW., Washington, DC 20590; except for the Federal Aviation Administration, which is located at 800 Independence Avenue SW., Washington, DC 20591, and the U.S. Coast Guard, which is located at 2100 Second Street SW., Washington, DC 20593.

Agenda

Background

Improvement of Government regulations is a prime goal of the Bush Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals and in accordance with Executive Order 12291 "Federal Regulation" (46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulations agenda for publication in the **Federal Register.** The agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding twelve months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for and reviewed by the Department Regulations Council, the Department's regulations agenda is prepared and published in the **Federal Register.** The Department's last agenda was published in the **Federal Register** on April 24, 1989 (54 FR 16889). The next one is scheduled for publication in the **Federal Register** in April 1990.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Pub. L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared; i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that, each year, the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities, and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

(1)is likely to result in:

(a)An annual effect on the economy of $100 million or more;

DOT

(b)a major effect on the general economy in terms of costs, consumer prices, or production;

(c)a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d)significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2)the Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that, in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary,

(a) is a major regulation;

(b) concerns a matter on which there is substantial public interest or controversy;

(c) has a major impact on another operating administration or other parts of the Department or other Federal agency;

(d) has a substantial effect on State and local governments;

(e) has a substantial impact on a major transportation safety problem;

(f) initiates a substantial regulatory program or change in policy;

(g) is substantially different from international requirements or standards; or

(h) otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the **Federal Register** or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget Bulletin No. 86-16 (July 2, 1986).

First, the agenda is divided by initiating offices. Then, in accordance with the OMB Bulletin, for each initiating office, the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if there is information that does not fit in the other categories, it will be included under a separate heading entitled, "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the **Federal Register** which may occur between agenda publications. (Departmental rulemaking documents published in the **Federal Register** now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made

on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review, under Executive Order 12291, must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the **Federal Register** would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (●) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for or to obtain copies of regulatory documents, including the Department's semiannual regulations agenda issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's regulations agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved at the appropriate address noted in the "Addresses" paragraph above.

Purpose

The Department is publishing this regulations agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department, with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded. If further information is desired on any of the items listed in the

agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC, on September 25, 1989.

Samuel K. Skinner,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of any regulatory document to be issued that is listed in this agenda should communicate, either by telephone or by letter, with the contact person listed with the regulation at the following addresses:

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 Second Street SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street SW., Washington, DC 20590.

Federal Railroad Administration (FRA)

(Name of contact person), Federal Railroad Administration, 400 7th Street SW., Washington, DC 20590.

National Highway Traffic Safety Administration (NHTSA)

(Name of contact person), National Highway Traffic Safety Administration, 400 7th Street SW., Washington, DC 20590.

Urban Mass Transportation Administration (UMTA)

(Name of contact person), Urban Mass Transit Administration, 400 7th Street SW., Washington, DC 20590.

Saint Lawrence Seaway Development Corporation (SLSDC)

(Name of contact person), Saint Lawrence Seaway Development Corporation, 400 7th Street SW., Room 5424, Washington, DC 20590.

Research and Special Programs Administration (RSPA)

David A. Watson, Training Unit, DHM-51, OHMT/RSPA, 400 7th Street SW., Washington, DC 20590.

Maritime Administration (MARAD)

James Saari, Secretary, Maritime Administration, 400 Seventh Street SW., Room 7300B, Washington, DC 20590, (202) 366-5746.

Federal Aviation Administration (FAA)

The FAA has a mailing list system for Notices and Advance Notices of Proposed Rulemaking (NPRMs and ANPRMs). Persons interested in obtaining future copies of all of those documents to be issued by the FAA or only of those concerning certain parts of the Federal Aviation Regulations should request a copy of Advisory Circular No. 11-2, which describes the application procedure, by calling 202-267-3479 or by writing to: Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-200, 800 Independence Avenue SW., Washington, DC 20591.

Office of the Secretary (OST)

Persons desiring to receive future copies of the Department's regulations agenda should submit their request to: Assistant General Counsel for Regulation and Enforcement, C-50, Office of the General Counsel, Department of Transportation, Washington, DC 20590; (202) 366-4723.

Persons who have an interest in specific regulatory documents to be issued by the Office of the Secretary should forward requests for copies of those documents to the same address. These requests should fully identify the document desired. Persons interested in a rulemaking document on an aviation matter (of the kind formerly handled by the CAB) will be placed on a mailing list for all OST aviation-related rulemakings if they so request.

Appendix B - General Rulemaking Contact Persons

The following is a list of persons who can be contacted within the Department for general information concerning the rulemaking process within the various operating administrations.

USCG - Bruce Novak, Marine Safety Council, USCG Headquarters Building, Room 3600, 2100 Second Street SW., Washington, DC 20593; telephone: 202/267-1477.

Abstract: After the sunset of the Civil Aeronautics Board on January 1, 1985, the Department became responsible for overseeing the consumer protection regulations applicable to airline passengers. The Department established a task force to review the current regulations and pending rulemaking proceedings to determine what, if any, actions should be taken. The internal analysis was completed and it was determined that no comprehensive report is necessary. In the next year, the Department expects to address the pending rulemaking petitions and either terminate old rulemaking proceedings or issue supplemental notices of proposed rulemakings to update information for rulemakings in which final rules are expected to issue. This entry is terminated because the comprehensive review of the consumer protection rules is now complete.

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory.

Significance: Regulatory Program

Legal Authority: PL 98-575; PL 100-656, Sec 15(c) to 16 Commercial Space Launch Act

CFR Citation: None

Legal Deadline: None

Abstract: Persons authorized to conduct commercial launch activities by a license issued by the Office of Commercial Space Transportation (OCST) are required to obtain liability insurance or demonstrate financial responsibility, in amounts and on terms prescribed by OCST, to protect against third-party or government property damage claims resulting from the licensed activities. In addition, persons engaged in commercial launch operations must provide proof of financial responsibility, or offer other assurances, adequate to protect the Government when its property or personnel are involved in such operations. The rulemaking sets out the procedures by which OCST would set the appropriate levels and terms of insurance and financial responsibility required to be carried by persons subject to its authority. Abstract: The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. Section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA) extended and modified the program as applied to FHWA and UMTA; similar legislation applied the same requirements to the FAA. The Department issued a final rule to make the STURAA changes in October 1987; a similar rule for FAA programs was published in May 1988. The Department intends subsequently to issue an NPRM that would propose further changes in the regulation.

Significance: Regulatory Program

Legal Authority: Section 404(c) of the Federal Aviation Act of 1958, as amended

CFR Citation: 49 CFR 27; 14 CFR 382

Legal Deadline: NPRM, Statutory, January 30, 1987.

Abstract: The Civil Aeronautics Board (CAB) had a regulation providing protection of the rights of handicapped air travellers. Based on recent Congressional action, DOT began enforcing this regulation on January 1, 1985. The Supreme Court's decision in U.S. Department of Transportation v. Paralyzed Veterans of America held that Section 504 of the Rehabilitation Act of 1973 does not apply to nonsubsidized air carriers. This decision left the existing regulation intact. The Air Carrier Access Act of 1986 directed DOT to publish new regulations prohibiting disability-based discrimination in air travel. The Department will use comments received in response to its August 1986 information notice on issues affecting blind passengers as part of the record for this rulemaking. The Department convened an advisory committee to pursue the rulemaking through a negotiated process. The negotiations have concluded and an NPRM has been published. This rulemaking is significant because of substantial public interest.

Abstract: The CAB proposed new charter rules for direct and indirect air carriers. The proposed rules retain the financial protections of existing rules for direct air carriers while eliminating rules restricting the types of groups (such as "affinity" or "single-entity") to whom charters may be sold. The proposal would also retain a security instrument and depository system for indirect air carriers, along with contract rules for public protection. The proposal also highlights depository bank and travel agent responsibilities in handling passenger funds. The proposal replaces one made earlier. DOT is considering what action should be taken. This rulemaking is significant because of substantial public interest.

CFR Citation: 14 CFR 399.80; 14 CFR 399.85

Legal Deadline: None

Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. The proposal responds to a request for such action by the American Society of Travel Agents. The proposed regulation is significant because it involves important departmental policies and substantial industry interest.

Abstract: Because of the shortfall in FY 1989 appropriations, an NPRM was issued to request comments on various alternatives being considered for reducing essential-service subsidy. However, Congress subsequently amended the appropriation to supply the necessary funds to continue the subsidy payments at their current level. Therefore, further need for rulemaking became unnecessary and this contemplated action will be withdrawn. It was considered significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 42 USC 2000d-4

CFR Citation: 49 CFR 21

Legal Deadline: None

Abstract: In 1981, the Department proposed a consolidation and expansion of its existing Title VI regulation (49 CFR Part 21). Few comments were received on this NPRM, and a final regulation was never published. The Department reviewed the existing regulation to determine if changes were needed. It was concluded that the Department can continue to enforce Title VI appropriately through the existing regulation. Consequently the Department does not anticipate further rulemaking action, and intends to withdraw the NPRM.

Abstract: As part of the NPRM that proposed its minority business program rule (49 CFR Part 23), the Department proposed rules concerning minority business involvement in direct DOT procurement. However, because of the program established by Public Law 95-507, these proposed rules became unnecessary, and were never finalized. That program provides for subcontracting plans and goals in certain direct Federal contracts as well as for disadvantaged business set-asides under the Small Business Administration 8(a) program.

Abstract: This rule will prohibit discrimination against air travelers on the basis of age and implement the Age Discrimination Act of 1975. A final rule was adopted by the CAB on April 10, 1980, and was forwarded to the Secretary of HHS for approval, as required by the Age Discrimination Act. The rule was approved by HHS on July 13, 1984, with changes. However, these changes have not been incorporated. Abstract: This proposed rulemaking would have increased the minimum aircraft accident liability insurance limits for U.S. and Canadian on-demand air-taxi operators from $75,000 to $150,000 per person. (The minimum liability per person for other types of air carriers is $300,000.) The NPRM also included alternative proposals. Commenters alleged that small carriers would be adversely affected by the premiums necessary to pay for the proposed higher coverage. As the currently effective rule has not created significant controversy or complaint in recent years, it was determined no alteration to the current rule is necessary, and the proposal will be withdrawn.

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is now considering what action to take.

Abstract: The American Association of Airport Executives, the Airport Operators Council International and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a number of alternatives, such as a long and/or short notice, where the notices would be required to be posted and whether a smoking notice should be included. DOT is now considering what action to take in response to the notice and comments filed.

Abstract: Transamerica petitioned the CAB to investigate ways to protect consumers against service defaults by scheduled air carriers in domestic, overseas, and foreign air transportation. A congressionally mandated study of methods for protecting airline passengers from carrier bankruptcies was released in January 1988. It concluded that facts did not support the need for any mandatory government-imposed system of default protection: Sixty-two percent of tickets are credit card purchases generally refundable under credit laws; some other tickets are protected by private default plans and insurance; nearly half of all tickets are for business rather than personal travel; other airlines frequently honor default-carrier tickets on a standby basis; and airline defaults have declined since 1984. Consistent with the 1988 study findings, Transamerica's petition was denied.

1644. + ELECTRONIC FILING OF TARIFFS

Significance: Regulatory Program

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221

Legal Deadline: None

Abstract: This project examined whether conversion from a paper document system to a computerized system of filing and monitoring air carrier tariffs would reduce paper flow, speed up processing, and allow the industry to utilize computers and technology to communicate with DOT. As a result of discussions with an advisory committee, the Department decided to experiment with existing data base and electronic mail systems, to determine their feasibility to meet requirements. The final rule permitted those carriers choosing to file their fares electronically with DOT the option to do so. This rule was considered significant because it involved important departmental policies and was of substantial interest to the industry.

Abstract: Part 252 guarantees airline passengers a right to a seat in the no-smoking section if they check in on time. The Civil Aeronautics Board proposed to require a notice on airline tickets advising passengers about this right. The Department of Transportation (the Board's successor) has terminated this proceeding because subsequent events have greatly reduced the need for such a notice: a recent ban on smoking on flights of two hours or less, as well as greater public awareness concerning the rights of nonsmokers on airline flights.

Abstract: Final rule simplifies the procedure for determining State compliance with Federal law regarding maximum speed limits and determining the amount and timing of any reduction of Federal-aid highway funds to noncomplying States. It also updates the current regulation to reflect statutory changes, describes the reservation of obligational authority if final determination on a State's compliance is not made by the date subsequent apportionments are made, and clarifies provisions as to apportionment of withheld funds to States subsequently in compliance. This rulemaking was significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 1371; 49 USC 1372; 49 USC 1381

CFR Citation: Not yet determined

Abstract: A petition, filed by Mr. Theodore Harris, addressed the problem of airline passengers whose airline goes bankrupt after they bought their ticket but before they use it. The petitioner asked that airlines be required to protect such "unearned revenue" by escrowing it or by posting a bond in an amount equal to 150% of average unearned revenue. Exemptions could be granted to airlines which file evidence of ticket insurance plans or which enter into agreements with other airlines to accept the tickets of bankrupt carriers. This rulemaking was considered significant because of substantial public interest. However, a congressionally mandated study of methods for protecting airline passengers from carrier bankruptcies was released in January 1988. CFR Citation: 14 CFR 372

Legal Deadline: None

Abstract: When it "sunsetted," the Civil Aeronautics Board was considering whether to rescind the requirement for operators of Overseas Military Personnel Charters (OMPCs) to file tariffs. This project transferred to DOT. Since Congress eliminated all domestic tariffs effective 1983, this issue is now limited to international service only. OMPC tariff filings have slowed to practically nothing, perhaps as other forms of charters have become more acceptable to foreign governments. There is no immediate need for change in the rule, and this action is being terminated. To the extent the Department considers change to the OMPC charter form itself or to charters in general in the future, the OMPC tariff provision will be dealt with in that broader context.

Abstract: Two enforcement policy statements refer to fare discounts not in a carrier's filed tariff. However, the filing of tariffs for domestic fares ended in 1983. Significance: Nonsignificant

Legal Authority: 49 USC 1373

CFR Citation: 14 CFR 221.160

Abstract: The Department considered amending the regulations to allow cargo tariffs which are within the zones established under 14 CFR 399.41 to be filed on 30 days' notice. There were two alternatives: either maintain the status quo (60 days' notice) or change cargo tariff filing regulations to 30 days' notice to be consistent with passenger tariff-filing requirements. However, in reviewing the existing liberal pricing policies the Department has implemented to stimulate competition in the marketplace, whereby most changes in fares and rates are made on as little as one day's notice, no need was found to amend the existing rule. Therefore, action on the proposal was terminated.

Significance: Nonsignificant

Legal Authority: 29 USC 704; 49 USC 1612(d)

CFR Citation: 49 CFR 27

Abstract: The Department was considering whether or not to eliminate a provision in its rule concerning mass transit services for disabled persons, which permits incremental expenditures by recipients for the off-peak, reduced-fare program for elderly and handicapped passengers on mainline mass transit services to be counted in the calculation of the three-percent limit on required expenditures. Final action determined that disallowing half-fare program costs in calculating the Part 27 cost gap is more consistent with the Part's intent than continuing to allow these costs. Significance: Agency Priority

Legal Authority: 46 USC 3703

CFR Citation: 46 CFR 151; 46 CFR 153

Legal Deadline: None

Abstract: This proposal would update the special cargo requirements for benzene. This would include the lowering of permissible exposure limits, addition of requirements for personal protective equipment, measurement of employee exposures, training, and medical surveillance. This rulemaking is significant because of the safety implications.

Legal Deadline: None

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the Standards for Training, Certification, and Watchkeeping for Seafarers (STCW), 1978 has entered into effect and establishes international standards for tank vessel personnel qualifications. In view of the length of time since publication of the NPRM, a supplemental NPRM will be issued.

1692. POSTING REQUIREMENTS ON INSPECTED VESSELS (87-031)

Significance: Nonsignificant

Legal Authority: 46 USC 3306

CFR Citation: 46 CFR 31; 46 CFR 71; 46 CFR 91; 46 CFR 167; 46 CFR 176; 46 CFR 189

Legal Deadline: None

Abstract: Various laws, international agreements, and Coast Guard regulations require the posting of specific certificates, licenses, plans, operating instructions, and warnings onboard vessels. Some of these contain essential operational data which must be accessible at all times; others are primarily informational. This rulemaking project will seek to reduce posting requirements for nonessential operational data to reduce the burden on the public. Alternatives such as having items readily available rather than being posted are being considered.

1693. ● FISHING VESSEL EMERGENCY POSITION INDICATING RADIO BEACONS (EPIRBS) (87-016)

Significance: Nonsignificant

Legal Authority: 46 USC 4102

CFR Citation: 46 CFR 25; 46 CFR 26

Legal Deadline: None

Abstract: As a result of the passage of Public Law 100-540, EPIRBs will be required on each manned uninspected vessel operating on the high seas or beyond three miles from the coast line of the Great Lakes. On August 17, 1988 the Coast Guard published a rule to require EPIRBs on certain fishing vessels. This rule extends the requirements of the August 17th rule as required by P.L. 100-540.

Significance: Nonsignificant

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100.15

Legal Deadline: None

Abstract: This proposal would amend current regatta and marine parade regulations to increase the lead time requirement for submitting regatta permit applications. The rulemaking will allow the Coast Guard adequate time to review regatta permit

applications, conduct appropriate coordination, and provide necessary public notice relating to regattas and marine events. In view of comments received, an SNPRM will be issued.

1697. DOCUMENTATION OF VESSELS - CONTROLLING INTEREST (88-031)

Significance: Nonsignificant

Legal Authority: PL 100-239

CFR Citation: 46 CFR 67

Legal Deadline: None

Abstract: The Commercial Fishing Industry Vessel Anti-Reflagging Act of 1987 requires that for any United States-built vessel to be eligible for a fishery license the controlling interest in any corporation which owns the vessel must be owned by individuals who are citizens of the United States. This project would implement the provisions of the Act. Based on comments received, the scope of this project has been expanded to include a complete revision of 46 CFR 67.03 which explains citizenship requirements for vessel documentation.

Significance: Nonsignificant

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 46 CFR 148

Abstract: This proposal would clarify the scope and applicability of Part 63, increase safety by preventing an increase in the air flow to a boiler's furnace immediately after an emergency trip, and substitute an industry consensus standard for existing requirements where an equivalent level of safety is provided. The time required for design approvals will be reduced by eliminating several administrative and plan review procedures. The end result should be an overall reduction in costs without compromising safety.

Significance: Nonsignificant

Legal Authority: 33 USC 2602

CFR Citation: 33 CFR 151

Legal Deadline: Final, Statutory, June 15, 1989.
See discussion above.

Abstract: The Shore Protection Act of 1988 (33 USC 2501 et seq.) prohibits vessels from transporting municipal and commercial waste unless they have a permit and display a number. The Act requires the permit and number 240 days after enactment. This interim rule implements these provisions of the Act and requests comments.

Abstract: The Coast Guard has conducted the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard has preliminarily determined that potential conflicts between oil drilling and shipping require creation of a fairway system off the coast of California from the vicinity of San Francisco to Los Angeles/Long Beach and changes to the San Francisco and Santa Barbara channel traffic-separation schemes. No structures would be permitted in the fairway. This project is considered significant because of public interest.

Abstract: This Project would apply the present oil pollution prevention regulations in 33 CFR Parts 154-156 to vessels and onshore and offshore facilities transferring hazardous substances. Although previously not categorized as significant, further analysis has determined this rulemaking to be significant because of safety and environmental considerations. Based on comments received, an SNPRM was issued.

1716. + LICENSING OF PILOTS-MANNING OF VESSELS (84-060)

Significance: Agency Priority

Legal Authority: 46 USC 2104; 46 USC 3306; 46 USC 7101; 46 USC 7109; 46 USC 7112; 46 USC 8101; 46 USC 8502

CFR Citation: 46 CFR 15.812; 46 CFR 10.700

Legal Deadline: None

Abstract: This proposal would: (1) delineate when certain inspected vessels are required to be under the direction and control of a pilot, (2) describe first class pilotage areas where local pilotage expertise is warranted, (3) allow licensed individuals to serve as pilot in areas not identified as first class pilotage areas on vessels that they are otherwise qualified to control,

and (4) permit individuals with 5 years experience on towing vessel combinations of at least 5,000 gross tons while acting under the authority of a license as master, mate, or operator of uninspected towing vessels, with a minimum of 2 of the 5 years having been on towing vessels combinations of at least 10,000 gross tons, to obtain without a written examination, an endorsement as first class pilot, restricted to tug and barge combinations only, for those routes over which they have made the required number of round trips. This action is considered significant because of public interest.

Significance: Agency Priority

Legal Authority: PL 100-220

CFR Citation: 33 CFR 151; 33 CFR 158

Legal Deadline: None

Abstract: This proposal would implement Annex V of the International Convention for the Prevention of Pollution by Ships, 1973. The Act to Prevent Pollution from Ships, as amended by Title II of P. L. 100-220, requires the Secretary to administer and enforce the annex. The Act would reduce the incidence of discharges of plastics, including synthetic fishing nets and other ship-generated garbage, into the oceans. This rulemaking is

significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 46 USC 4310

CFR Citation: 33 CFR 179.01 to 179.19

Legal Deadline: None

Abstract: This rulemaking would require marine dealers to furnish boat and engine manufacturers with serial numbers of new boats and engines sold and the names and addresses of retail first purchasers of those products. Manufacturers would use the information to locate purchasers of boats and engines recalled for defects which create a substantial risk of personal injury to the public and for failures to comply with applicable regulations. Currently many manufacturers cannot obtain sufficient first-purchaser information and their attempts to notify during recalls are inadequate.

Legal Deadline: None

Abstract: Limited visibility from the navigation bridge of vessels has been identified as a factor in vessel casualties and near-misses. This action would establish standards for acceptable limits of visibility based on existing international guidelines. Because the primary focus is on new vessel design, costs are estimated to be minimal compared to potential benefits in casualties prevented.

Abstract: This project would establish the International Convention on Tonnage Measurement of Ships, 1969, as the primary tonnage measurement system for measuring vessels of 79 feet and longer. The project will also extend simplified measurement to all vessels of less than 79 feet in length and eliminate all vessels of 79 feet in length and over from being measured under the simplified system.

Significance: Nonsignificant

Legal Authority: 46 USC 3306; 46 USC 3301

CFR Citation: 46 CFR 91

Legal Deadline: None

Abstract: The Coast Guard is proposing to amend the regulations concerning the reinspection of offshore supply vessels (OSVs) in foreign ports. Currently OSVs holding two year certificates of inspection are reinspected between the 10th and 14th month of the certificate's period. In recent years, more OSVs have been based overseas in remote locations. Vessel owners must reimburse the Coast Guard for inspector travel and per diem costs in connection with foreign inspections. This action would propose an alternative to the traditional Coast Guard mid-period reinspection. The benefits would be flexibility and financial savings to the OSV industry and more effective use of Coast Guard resources.

Small Entities Affected: None

Government Levels Affected: None

Additional Information: This is the first in a series of projects, numbered 85-200 to 85-211, which have been split off from Coast Guard 84-069 which implemented the 1983 Amendments to SOLAS 1974. So many revisions were necessary that it was better to make several small and easily identifiable projects rather than a large and confusing one. Because of staffing assignments, this project could not be completed in a timely manner. It is expected to be reinstituted at a later date.

1758. SOLAS 74/83 EMERGENCY DRINKING WATER AND FOOD APPROVAL REQUIREMENTS (85-202)

Significance: Nonsignificant

Legal Authority: 46 USC 3306(a)

CFR Citation: 46 CFR 160

Legal Deadline: None

Abstract: This project was to establish Coast Guard requirements for emergency drinking water and food meeting the 1983 Amendments to the Safety of Life at Sea Convention. In an attempt to reduce regulations, the Coast Guard is working with industry toward adopting industry (ASTM/UL) standards. As the standards are not yet complete, this rulemaking was terminated. It will be reinstituted when a firmer basis for proceeding has been formulated.

Significance: Nonsignificant

Legal Authority: 46 USC 3306(a)

CFR Citation: 46 CFR 160

Legal Deadline: None

Abstract: This action was to develop approval requirements for pyrotechnic distress signals which meet the provisions of the 1983 Amendments to the 1974 Safety of Life at Sea Convention. In an attempt to reduce regulations, the Coast Guard is working with industry toward adopting industry (ASTM/UL) standards. As the standards are not yet complete, this rulemaking was terminated. Significance: Nonsignificant

Legal Authority: 33 USC 1223(a)(5)

CFR Citation: 33 CFR 160

Legal Deadline: None

Abstract: This revision to 33 CFR 160 Subpart C requires advance notices from all foreign commercial vessels of less than 1600 gross tons bound for parts or places in the Miami Captain of the Port zone. Currently 33 CFR 160.201(c)(1) excepts all vessels of less than 1600 gross tons from reporting advance notices of arrival. The revision requires vessels of more than 1600 gross tons to provide to the COTP crew makeup and charter information at least 24 hours prior to entering ports or places within the COTP zone.

Legal Authority: 49 USC 1354; 49 USC 1355; 49 USC 1421; 49 USC 1427

CFR Citation: 14 CFR 145

Legal Deadline: None

Abstract: Current repair station rules were developed during the infancy of the aviation industry. Very few changes were made to those rules since they were adopted in 1952. This rulemaking project proposes to review foreign repair-station requirements and update the rules to reflect the current international and domestic environment and needs. The FAA plans to hold four public meetings to solicit information and views to review the existing regulations and to explore alternatives in revising the rules of this part. This rulemaking is considered significant because of substantial public interest.

1782. + CIVIL SUPERSONIC AIRCRAFT NOISE TYPE CERTIFICATION STANDARDS AND OPERATING RULES

Significance: Regulatory Program

Legal Authority: 49 USC 1344; 49 USC 1348; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 1431(b); 49 USC 1651(b)(2); 49 USC 2121 to 2125; 49 USC 106(g)

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None

Abstract: Part 36 prescribes noise type certification standards for turbojet airplanes. This proposal would revise Part 36 so that new type certificated supersonic aircraft would be required to meet Stage 3 noise levels. Action is considered significant because of the substantial public interest which may be generated on the issue.

Significance: Regulatory Program

Legal Authority: 49 USC 1354(a); 49 USC 1354(c); 49 USC 1374(d); 49 USC 1401; 49 USC 1402; 49 USC 1403; 49 USC 1404; 49 USC 1405; 49 USC 1406; 49 USC 1421; 49 USC 1422; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1426; ...

CFR Citation: 14 CFR 13; 14 CFR 47

Legal Deadline: Final, Statutory, September 18, 1989.
FAA Drug Enforcement Assistance Act of 1988.

Abstract: This notice would propose to revise certain requirements concerning registration of aircraft, certification of pilots, and penalties associated with registration and certification violations. This notice also announces new procedures for processing major repair and alteration forms which pertain to fuel system modifications. Actions announced in this notice respond to the FAA Drug Enforcement Assistance Act. The proposed requirements and adopted procedures are intended to assist law enforcement agencies in their efforts to stop drug trafficking in general aviation aircraft. This rulemaking is significant because of a statutory deadline.

1784. + CRASH RESISTANT FUEL SYSTEMS IN SMALL AIRPLANES

Significance: Agency Priority

Legal Authority: 49 USC 1354 Federal Aviation Act of 1958, Sec. 313; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1423 Federal Aviation Act of 1958, Sec. 603

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This action would propose changes to the airworthiness standards to improve the crash resistance of fuel systems on normal, utility, acrobatic, and commuter category airplanes. The FAA has determined that improved crash resistance of these fuel systems is necessary to prevent deaths and injuries due to fire in survivable crashes. The proposed design changes would limit fuel spillage near ignition sources and would provide additional time for the survivors to evacuate the airplane. This rulemaking is significant because of substantial public interest.

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None

Abstract: Contemplated action would revise certification and operational requirements for aircraft effective the date of the NPRM. On that date the current two-stage noise requirements would be replaced with a simpler single standard corresponding to the current Stage 3. This rulemaking is considered significant because of substantial public interest.

Legal Deadline: None

Abstract: This action would adopt certain recommendations of the National Airspace Review concerning changes to regulations and procedures dealing with airspace classification. These changes are intended to: (1) simplify airspace designations; (2) achieve international commonality of airspace designations; (3) increase standardization of equipment requirements for operations in the various classifications of airspace; and (4) associate appropriate pilot certification requirements, visual flight rules visibility and distance from clouds rules, and air traffic services offered in each proposed class of airspace. This rulemaking is significant because of substantial public interest.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This notice will propose to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations. These proposals are intended to provide more consistent standards with respect to exit types and quantities required for passenger seating configurations while retaining the same level of safety. This notice also will propose to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

CFR Citation: 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This notice will propose to modify the procedures for conducting an emergency evacuation demonstration by requiring that the flight crew take no active role in the demonstration and changing the age/sex distribution requirement for demonstration participants. This notice also proposes to standardize the illumination requirements for the handles of the various types of passenger emergency exits. In addition, it is proposed to add a requirement for a "push to talk" switch to the public address system. These proposals are intended to enhance the provisions of transport category airplanes for egress of occupants during emergency conditions. 1793. + PROPOSED ESTABLISHMENT OF THE WASHINGTON TRI-AREA TCA AND REVOCATION OF THE WASHINGTON, DC, TCA AND AIRPORT RADAR SERVICE AREAS AT BALTIMORE-WASHINGTON AND DULLES AIRPORTS

Significance: Agency Priority

Legal Authority: 49 USC 1348(a); 49 USC 1354(a); 49 USC 1510; EO 10854; 49 USC 106(g)

CFR Citation: 14 CFR 71

Legal Deadline: None

Abstract: This action would establish a Terminal Control Area (TCA) in the greater Baltimore/Washington, DC, area. Because the TCA would serve airports located in three different areas (Washington, DC, Maryland, and Virginia) the TCA would be established as the Washington Tri-Area TCA. The TCA would encompass four major airports: Andrews Air Force Base, Baltimore-Washington International, Dulles International, and Washington National. The TCA would consist of airspace from the surface or higher within a 20-mile radius of each airport up to and including 10,000 feet above mean sea level. This action is intended to increase the capability of the air traffic control system to separate all aircraft in the terminal airspace around these airports and to substantially increase safety while accommodating the legitimate concerns of airspace users. 1801. ● + GROUND PROXIMITY WARNING SYSTEMS

Significance: Agency Priority

Legal Authority: 49 USC 1354(a); 49 USC 1355; 49 USC 1421 to 1431; 49 USC 1502; 49 USC 106(g)

CFR Citation: 14 CFR 135

Legal Deadline: None

Abstract: This action would revise the requirements for Ground Proximity Warning Systems for certificate holders operating under Part 135 by requiring that: (1) all turbine-powered airplanes with 10 or more seats have these systems, and (2) Ground Proximity Warning Systems meet the applicable Technical Standard Order requirements. This proposal would change the existing rule by expanding the requirement for Ground Proximity Warning Systems, now applicable only to turbojet airplanes, to also include turboprop airplanes. This proposal would also require that only Ground Proximity Warning Systems, not alternate warning systems, be installed on airplanes which currently do not have those systems. Airplanes which already have previously approved alternate warning systems would continue to use those systems. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations to require the servicing of airplane tires with nitrogen, in lieu of air, as the need to fill or service the tires occurs. This action is prompted by three confirmed, and other suspected, cases in which the oxygen in air-filled tires combined with volatile gases given off by a severely overheated tire, and exploded upon reaching autoignition temperature. A tire explosion in the wheel well during flight is suspected in the catastrophic loss of one airplane and severe damage to two others. An Airworthiness Directive has been adopted which affects current large transport category airplanes. The changes proposed in this rulemaking would extend the provisions of the Airworthiness Directive to future transport category airplanes. This rulemaking is considered significant because of substantial public interest.

1804. REVIEW OF MEDICAL STANDARDS AND CERTIFICATION PROCEDURES

Significance: Nonsignificant

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1355 Federal Aviation Act of 1958, Sec. 314; 49 USC 1421 Federal Aviation Act of 1958, Sec. 601; 49 USC 1427 Federal Aviation Act of 1958, Sec. 607

CFR Citation: 14 CFR 67

Legal Deadline: None

Abstract: These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce burdens, both on the FAA and airmen, associated with the processing of medical certificates.

Abstract: This notice will propose to amend the regulations that deal with passenger information, safe passenger egress, child restraint, and emergency equipment. The proposals would prohibit smoking at any time in any location displaying a "no smoking" sign or placard. They would require that passengers wear safety belts at any time a "fasten seatbelts" sign is turned on. They would require that the "fasten seatbelts" sign be turned on during taxi. They would clearly establish a requirement for an assisting means of egress and the stowage of passenger service equipment prior to taxi. They would make the pilot in command or, in the case of operations under Part 121, the certificate holder responsible for informing the passengers that they may be liable for a civil penalty should they fail to comply with FAA regulations. They would require that supplementary child restraint devices be accepted by a certificate holder when requested by the child's attendant.

Abstract: This notice proposes changes to the type certification requirements for both normal and transport category rotorcraft. The changes would revise airworthiness standards for systems, propulsion, and airframes and would introduce safety improvements, clarify existing regulations, and standardize terminology. The changes are based on some of the proposals that were submitted to the FAA by the European Joint Airworthiness Requirements 29 group. These proposals are intended to encourage the European community's acceptance of the Federal Aviation Regulations' rotorcraft type certification requirements and to obviate the development of a new and different European standard. Adoption of these changes will achieve increased commonality of airworthiness standards among the respective countries.

1820. LANDING GEAR AURAL WARNING

Significance: Nonsignificant

Legal Authority: 49 USC 1354(a); 49 USC 1355; 49 USC 1356; 49 USC 1357; 49 USC 1401; 49 USC 1421 to 1430; 49 USC 1472; 49 USC 1485; 49 USC 1502; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25; 14 CFR 121; 14 CFR 125

Legal Deadline: None

Abstract: This notice proposes to amend the airworthiness standards for transport category airplane landing gear aural warning systems and the operating rules for air carrier and air taxi operators of transport airplanes by updating the present requirements to make them more functionally oriented. This proposal is prompted by reports of nuisance or inappropriate aural warnings which have occurred in modern transport airplanes when strictly adhering to the present regulations. It is intended to enhance flight safety while decreasing the regulatory burden associated with making an equivalent level of safety finding or exemption, for those systems that do not meet the existing requirements. This proposal will not affect existing certified airplanes.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would revise the structural requirements for transport category airplanes concerning flutter, divergence, vibration, and buffet. It would clarify the requirement to consider flutter and divergence when treating certain damage and failure conditions required by other sections of Part 25. It would revise the required safety margins by slightly reducing the safety margin concerning airplane speed for normal configurations and providing a minimum safety margin concerning airplane speed for damage and failure configurations. These changes are intended to provide consistency with other sections of Part 25, to relieve a design burden which is now unnecessary as a result of advances in technology, and to improve certain safety margins as a result of the evolution in the design of transport airplanes.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend the Federal Aviation Regulations by upgrading the standards for protecting transport category airplanes from bird impact damage by requiring that airplanes be designed such that: (1) only minor damage would result from impact with a 4-pound bird and (2) the airplane would be capable of continued safe flight and landing after impact with an 8-pound bird. These standards are needed because of possible vulnerability of new technology flight controls, flight instruments, and flight structures to bird strike damage. These proposed changes are based on research and service experience and are intended to improve survivability of the airplane by providing better protection of critical structures and systems.

CFR Citation: 14 CFR 25; 14 CFR 36

Legal Deadline: None

Abstract: The low speed stalling features of some transport category airplanes are not characterized by the nose-down pitching that has traditionally identified the stall. As a result, the stall speed can be demonstrated to an artificially low level by continuing to decrease speed to the point that the airplane load factor is substantially less than one. The maximum usable power level may vary considerably with flight conditions. To correct this problem, this action would propose the use of a 1-G stall speed in all areas of Parts 25 and 36.

Abstract: This action proposes to establish a new category of aircraft for type, production, and airworthiness certification. These aircraft will be designed for pleasure and personal use, and classified as a primary category aircraft. In addition, the NPRM proposed simplified type, production, and airworthiness certification procedures, special maintenance criteria, and associated changes to pilot requirements for this category of aircraft. This rulemaking is considered significant because of substantial public interest.

Abstract: Special Federal Aviation Regulation (SFAR) 27 prescribes standards and test procedures for fuel venting and exhaust emissions for the turbine powered airplanes. This proposal would replace SFAR 27, as amended through SFAR 27-6, with a new Part 34 of the Federal Aviation Regulations which will include all of the standards and test procedures of 40 CFR 87 previously included in SFAR 27. This will codify in a single part all of the applicable requirements of 40 CFR 87, Control of Air Pollution from Aircraft and Aircraft Engines; Emissions Standards and Test Procedures, as amended, December 30,

1982, and insert requirements to comply with Part 34 in the other affected Parts where applicable. This rulemaking is considered significant because of substantial public interest.

PL 100-223, Section 303, Airport and Airway Safety and Capacity Enhancement Act of 1987.

Abstract: This action proposes new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to US-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

PL 100-223 Sec 303

Abstract: The FAA proposes to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Abstract: This proposed Special Federal Aviation Regulation (SFAR) would establish a voluntary alternative method for meeting the training, evaluation, certification, and qualification requirements for flight crewmembers, flight attendants, aircraft dispatchers, instructors, evaluators, and other operations personnel subject to the training requirements of 14 CFR Part 121 and Part 135. The FAA has developed this alternative method in response to recommendations made by a task force composed of representatives from the Government, airlines, aircrew professional organizations, and airline industry organizations. The proposed SFAR is designed to improve aircrew performance and would allow certificate holders that are subject to the training requirements of Part 121 and Part 135 to develop innovative training programs that incorporate the most recent advances in training methods and techniques. This rulemaking is significant because of substantial public interest.

Abstract: This action would revise the type certification standards for transport category rotorcraft by adding flaw tolerance requirements to the requirements for fatigue evaluation of structures. This action would also extend the requirements for fatigue evaluations from flight structures only to all critical structures, including landing gear, and would require consideration of operations having a high number of power cycles per hour. This rulemaking is considered significant because it involves important safety issues.

Abstract: This notice proposes amendments to the FAR which would provide for improved cabin fire protection for transport category airplanes by requiring: (1) each lavatory to be equipped with a smoke detector system which provides warning to the cockpit or to the passenger cabin crew; (2) each lavatory trash receptacle to be equipped with a fire extinguisher which discharges automatically upon the occurrence of a fire within the receptacle; (3) the number of hand fire extinguishers in the cabins of airplanes with passenger seating capacities greater than 200 to be increased; (4) a specified number of the hand fire extinguishers in the cabin to contain Hallon 1211 or equivalent as the extinguishing agent. These safety protections are currently required for operation of airplanes used in air carrier service, but not for the full range of transport category airplanes such as those used for executive transportation. This notice also proposes to require each transport category (cont)

CFR Citation: 14 CFR 27; 14 CFR 29

Legal Deadline: None

Abstract: This project proposes to amend the rotorcraft airworthiness standards in Parts 27 and 29 of the FAR. These proposals would add two dynamic crash-impact design requirement conditions for seat and occupant restraint systems, increase the static design load factors for seating devices and items of mass in the cabin or adjacent to the cabin as prescribed, prescribe a shoulder harness for each occupant, and add human impact injury criteria for the dynamic crash-impact conditions. These proposals are intended to significantly improve occupant protection levels in a survivable emergency landing impact. This rulemaking is significant because of the obvious safety improvements in crash situations, but also because of industry and operator concerns as to incurred costs due to increased weight and design effort.

Abstract: The current regulations need to be revised to account for the changed operational practices stemming from airline economic deregulation. This proposal would clarify or change the number of flight attendants required when passengers are on board an airplane, including at stops. This proposal includes two new requirements: (1) a revision of the reduced number of flight attendants which, under certain conditions, a carrier is permitted to have on board a passenger-carrying airplane during stops; and (2) a requirement for a demonstration of competency by the other authorized persons who may be permitted to be substituted for required flight attendants when passengers are on board the airplane during stops. This proposal would change the current rule by clarifying and specifying the training required to be completed by these other authorized persons. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposes rules under which two or more alcohol- or drug-related motor vehicle convictions or related State administrative actions would be grounds for certificate action against a pilot. This notice also proposes rules under which a pilot's medical certificate would expire, requiring that the pilot apply for a new medical certificate, after an alcohol- or drug-related motor vehicle action. The notice proposes to require pilots to report alcohol- or drug-related motor vehicle actions to the FAA and proposes to add an express consent provision to facilitate FAA access to information reported to the National Driver Register. The proposed rules are needed to prohibit a pilot from operating an aircraft after multiple alcohol- or drug-related motor vehicle actions. This rulemaking is a significant FAA initiative based on the Department of Transportation/ Inspector General Report of February 17, 1987, entitled "Report on Audit of Airmen Medical Certification Program."

Abstract: This action would require that the fuel tank access covers on transport category airplanes be designed to minimize penetration by likely foreign objects and be fire resistant. This proposed change is based on service experience and is intended to reduce the hazards associated with the loss of access panels. This action also proposes to require that the panels of all turbine powered airplanes operated in air carrier service after a specified date meet these standards. This rulemaking is considered significant because it involves an important crashworthiness safety issue.

Abstract: This notice proposes to amend Part 125 and Part 135 requirements for the use of a Minimum Equipment List (MEL). It also proposes to amend the Part 121 requirements for the use of a MEL to make them consistent with the amended Part 125 and Part 135 MEL requirements. Finally, it provides for the development and use of MELs for single-engine aircraft operated under Part 135. This rulemaking is considered significant because of substantial public interest.

1856. + ESTABLISHMENT AND DISCONTINUANCE CRITERIA FOR AIRPORT TRAFFIC CONTROL TOWER FACILITIES

Significance: Agency Priority

Legal Authority: 49 USC 1343; 49 USC 1346; 49 USC 1348; 49 USC 1354(a); 49 USC 1355; 49 USC 1401; 49 USC 1421; 49 USC 1422 to 1430; 49 USC 1472(c); 49 USC 1502; 49 USC 1522; 49 USC 106(g)

CFR Citation: 14 CFR 170

Legal Deadline: Final, Statutory, December 31, 1988.

Abstract: This rulemaking would prescribe benefit-cost based criteria for establishment and discontinuance of visual flight rule (VFR) airport traffic control tower facilities. It considers traffic density (number of aircraft operations without consideration of aircraft size), passengers served, and aircraft operating efficiencies along with the cost of establishing and maintaining or decommissioning a tower. The FAA utilizes these criteria to assess benefits and costs associated with establishing or decommissioning an airport traffic control tower at an airport as a part of its mission to maximize safety and efficiency throughout the airport and airway system consistent with available resources. This regulation, if promulgated, would implement the requirements of recent legislation requiring the publication of criteria for navigational aids and airport traffic control towers as a Federal regulation. This rulemaking is significant because of statutory requirements.

Abstract: This action is intended to increase the capability of the air traffic control (ATC) system to separate all aircraft in the terminal airspace surrounding this airport. It is based on data indicating that a high percentage of near midair collisions reported to the FAA in terminal areas involved visual flight rules aircraft that are not required to be under the control of ATC. The objective of this proposal is to substantially increase safety while accommodating the legitimate concerns of airspace users. This rulemaking is considered significant because of substantial public interest.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This action proposed to amend the airborne low-altitude windshear equipment rule to (1) remove the requirement that windshear flight guidance be installed on older technology airplanes, (2) amend the provision allowing for an extended compliance period based on a phased airplane retrofit schedule, and (3)

provide for acceptance of alternative airplane equipment in the form of an approved airborne windshear detection and avoidance system.

This action is the result of information received in a petition for rulemaking submitted by the Air Transport Association (ATA) requesting that the FAA amend the windshear equipment rule to repeal the requirement that older airplanes be retrofitted with the flight guidance system.

This action solicited comments on the ATA petition and on the FAA's intention to (1) standardize windshear terminology and (2) allow the use of alternative predictive windshear detection and avoidance systems, when such technology is available.

This rulemaking is considered significant because of substantial public interest.

Abstract: This action would amend various sections of the regulations. Some of the amendments are clarifying or editorial in nature or correct improper or obsolete references. Others relax certain existing requirements. Others allow issuance of special flight permits for an additional purpose, relax a requirement for passenger information signs, and eliminate the bulk erasure device on cockpit voice recorders. This action is in response to numerous complaints, suggestions, and petitions for exemption concerning several regulatory requirements received from users of the National Airspace System. These users state that these sections contain obsolete references and vague, complex, and inadequate language and that, in some instances, the cost of compliance is not justified by the benefits derived.

Abstract: This action would adopt fatigue requirements for empennage, canard, tandem wing, and winglet/tip fin structures for airplanes certificated in the normal, utility, acrobatic, or commuter category. Service history, airworthiness directives, and field reports related to unsafe, or potentially unsafe, fatigue failures of empennage structural components on airplanes of these types have shown the need to consider empennage fatigue strength during type certification.

Abstract: This proposal would establish standard visibility and cloud clearance minimums for night-visual flight rules operations. This rulemaking effort is the result of a recommendation of a nongovernmental aviation safety panel. This panel's recommendation sought to reduce the incidence of fatal aircraft accidents associated with night-visual flight rules flights in instrument flight rules conditions while in uncontrolled airspace.

Abstract: This action would establish requirements for the certification of electrical and electronic engine control systems. These control systems range from simple power or thrust trimming devices with full hydromechanical backup to full authority digital electronic controls with no mechanical backup. Although these types of control systems have been certificated under existing regulations, those regulations do not address specific requirements related to electrical and electronic engine controls such as engine supplied power and data, lightning protection, high energy radio frequency protection, and software verification/validation.

1872. AMEND SECTION 43.17 TO ALLOW FOR MAINTENANCE OF U.S. AERONAUTICAL PRODUCTS IN CANADA IN COMPLIANCE WITH THE U.S.-CANADIAN BILATERAL AIRWORTHINESS AGREEMENT

Significance: Nonsignificant

Legal Authority: 49 USC 1354; 49 USC 1421; 49 USC 1422; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 106(g)

CFR Citation: 14 CFR 43

Legal Deadline: None

Abstract: This notice proposes to amend the regulations to provide for the acceptance of maintenance, preventive maintenance, and alterations accomplished on U.S. civil aeronautical products and components in Canada. This proposal is prompted by the airworthiness maintenance provisions contained in the U.S.-Canadian Bilateral Airworthiness Agreement and the Schedule of Implementation Procedures between the United States and Canada. The proposed amendment would provide for acceptance by the FAA of maintenance, preventive maintenance, and alterations performed on aircraft, engines, propellers, appliances, materials, parts, and other components which are transported from the United States to Canada and which are for installation on U.S.-registered aircraft.

Abstract: The FAA proposes to update and clarify the certification and operations specifications requirements for persons who operate aircraft for compensation or hire by (1) codifying the Special Federal Aviation Regulation pertaining to the certification requirements and (2) consolidating into one part the certification and operations specifications requirements for persons who operate under Part 121 or Part 135. The proposal responds to the termination of the Civil Aeronautics Board (CAB) and to changes in the air transportation industry since the Airline Deregulation Act of 1978. The proposal would provide a guide enabling persons who operate aircraft for compensation or hire to determine the certification and operations requirements with which they must comply.

Abstract: This notice is one of a series of notices that proposes to adopt new and amended airworthiness standards for small airplanes. It also proposes to amend the flight instrument requirements in the general operating rules and the operating rules for air taxi and commercial operators. This particular notice proposes amended design requirements for complex systems critical for safety in small airplanes and amended requirements for locating certain instruments, including new technology electronic display indicators. It proposes to add a new airworthiness standard for electronic display instruments. It also includes related changes to the general and air taxi operating rules to allow a third attitude indicator in lieu of a rate-of-turn indicator.

Abstract: This notice is one of a series of notices that proposes to adopt new and amended airworthiness standards for small airplanes which are based on certain proposals discussed at the Small Airplane Airworthiness Review Conference held on October 22-26, 1984, in St. Louis, Missouri. These new and amended airworthiness standards result in the need for new definitions to be added to the regulations, and this notice also proposes the addition of those definitions. The proposals in this notice reflect advancements in technology being incorporated in current designs, permit type certification of spin resistant airplanes, and reduce the regulatory burden in showing compliance with some of the requirements while maintaining the standards governing the design and type certification of small airplanes as may be required in the interest of safety.

1877. IMPROVED STRUCTURAL REQUIREMENTS FOR PRESSURIZED CABINS AND COMPARTMENTS IN TRANSPORT CATEGORY AIRPLANES

Significance: Nonsignificant

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g); PL 97-449

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action would amend Part 25 of the Federal Aviation Regulations (FAR) to upgrade the structural requirements for transport category airplane pressurized cabins by (1) amending the criteria for evaluation of the secondary effects of openings in the pressure vessel, and (2) extending the area of consideration to include openings anywhere within the pressure vessel. The required opening sizes to be considered would not be changed. The proposal is the result of an FAA review of the pressurized cabin load requirements and is intended to make the pressurized cabin load requirements less design-dependent and more objective. It would require evaluation of openings in any pressurized compartment and examination of the effects of differential pressure loads on any critical structure inside or outside of the pressurized cabin.

Abstract: This notice proposes to amend the Federal Aviation Regulations to add a new standard for transport category airplanes which would provide lightning protection requirements for installed electrical and electronic systems. This proposal is the result of increasing concern for the vulnerability of these systems to the indirect effects of lightning. It seeks to promulgate specific lightning protection requirements for electrical systems which perform essential or critical functions.

Abstract: This notice would implement the Equal Access to Justice Act. The Act, which took effect on October 1, 1981, provides for the award of attorney fees and other expenses to parties who prevail over the Federal Government in certain administrative and court proceedings under Section 554 of the Administrative Procedure Act. It requires agencies conducting proceedings under Section 554 to establish uniform procedures for making awards. This notice would set uniform procedures under the Equal Access to Justice Act for any adversary adjudication conducted pursuant to Section 554 by the FAA.

Abstract: On November 21, 1988, the FAA published a final rule requiring specified aviation employers and operators to submit and to implement anti-drug programs for personnel performing sensitive safety- and security-related functions. This final rule extends certain compliance dates and revises the method by which certain entities may be covered by anti-drug programs approved by the FAA. This document also makes minor editorial changes and clarifications to the final anti-drug rule to aid an employer's development of a program and implementation of an approved anti-drug program. These issues were addressed in the prior rulemaking actions that lead to promulgation of the final anti-drug rule. This rulemaking action is necessary to facilitate implementation of the final rule published on November 21, 1988. This rulemaking action is intended to clarify the requirements of the final anti-drug rule and to improve administration of the rule. Comments on this final rule were invited through May 15, 1989. A response to those comments will be published in the Federal Register. This rulemaking is significant because of substantial public interest.

Significance: Agency Priority

CFR Citation: 14 CFR 61

Legal Deadline: None

Abstract: This final rule establishes a recreational pilot certificate. The recreational pilot certificate is intended to provide a lower cost alternative to the private pilot certificate by requiring less training than is currently required for private pilot certification. The recreational pilot certificate is intended for those persons interested in flying basic, experimental, or homebuilt aircraft in close proximity to a home airport while in airspace in which communication with air traffic control facilities is not required. The rule also establishes an annual flight review requirement for non-instrument-rated private pilots with fewer than 400 flight hours. This rulemaking is significant because of substantial public interest and safety implications.

1891. + LIMITS ON THE GROWTH OF NOISE FROM CERTAIN AIRPLANES AND AIRPLANE TYPES

Significance: Agency Priority

Legal Authority: 49 USC 1354(a) Federal Aviation Act of 1958, Sec. 313(a); 49 USC 1421(a) Federal Aviation Act of 1958, Sec. 601(a); 49 USC 1423 Federal Aviation Act of 1958, Sec. 603; 49 USC 1431(b) Federal Aviation Act of 1958, Sec. 611(b); 49 USC 1421 et seq National Environmental Policy Act, Title I; EO 11514; 49 USC 106(g)

CFR Citation: 14 CFR 36

Legal Deadline: None

Abstract: This final rule revises noise certification standards to ensure that aircraft certificated within certain noise level groups or "stages" remain within those stages. This rule applies to large transport category aircraft and to turbojet powered aircraft regardless of category and prohibits modification of individual airplanes and whole airplane types which result in increased noise beyond the limits of an airplane's certificated stage. While the rule does not restrict airplane changes that result in decreased noise, it does prohibit any remodification of an airplane which would return it to its original noise level. This rulemaking is significant because of intense public interest.

1892. + NOISE AND EMISSION STANDARDS FOR AIRCRAFT POWERED BY ADVANCED TURBOPROP (PROPFAN) ENGINES

Significance: Agency Priority

Legal Authority: 49 USC 1354; 49 USC 1421; 49 USC 1423; 49 USC 1431

CFR Citation: 14 CFR 36

Legal Deadline: None

Abstract: Although this project was considered significant due to public interest, the FAA has decided, after consideration of the public comments submitted in response to ANPRM No. 87-2, to discontinue this rulemaking. The ANPRM sought public comments on the need for modifications to current noise and emission standards as they apply to the emerging generation of advanced turboprop (propfan) engines and the aircraft powered by them. At this time, further rulemaking action is inappropriate. Before the FAA can determine whether any additional standards and regulations are necessary to govern the noise characteristics of the advanced turboprop (propfan) engines, the agency must first conduct the analysis required by Sections 611(b)(2) and (d) of the Federal Aviation Act of 1958. Only after this analysis has been performed will the FAA be able to determine whether additional noise standards are necessary or appropriate. In order to perform this analysis in a timely manner, the FAA will seek to enter into a joint research effort with the National Aeronautics and Space Administration and industry. The results of this research will be made available for public comment.

CFR Citation: 14 CFR 21; 14 CFR 25; 14 CFR 121

Legal Deadline: None

Abstract: This final rule establishes a new standard that limits the distance between emergency exits on transport category airplanes. This rule prohibits airplane manufacturers and air carriers from increasing the distance between emergency exits to more than 60 feet. Existing regulations do not limit the distance. This rule is intended to ensure an opportunity for safe passenger evacuation during an emergency, and for this reason, this rule is considered significant.

CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: On October 14, 1988, the FAA published a final rule on TCA Classification and TCA Pilot and Navigational Equipment Requirements. That final rule required, among other things, all aircraft operating in a TCA to be equipped with Very High Frequency Omnidirectional Range (VOR) or Tactical Air Navigation (TACAN) equipment, eliminating the previous exclusion for helicopters effective July 1, 1989. This action delays the effective date of the navigational equipment requirement for helicopter operations in a TCA until January 1, 1990. The FAA by separate action intends to propose to amend the regulations requiring VOR or TACAN navigational equipment only for aircraft conducting operations under IFR. Consequently, the FAA is delaying the effective date of the TCA navigational equipment requirement for 180 days. This delay is necessary to allow interested parties to comment on the related equipment proposal and to delay purchase of equipment should that proposal be adopted.

Abstract: This final rule requires foreign air carriers that land or take off in the United States to submit to the Administrator for approval a written security program that describes the procedures, facilities, and equipment used by foreign air carriers to provide for the protection of persons and property traveling in air transportation against acts of criminal violence and air piracy. This rulemaking was significant because of substantial public interest.

Legal Deadline: None

Abstract: The FAA amends its regulations to require digital flight data recorders and cockpit voice recorders (CVR) to be installed in a broad category of airplanes and rotorcraft operated by air carriers and commuters, as well as in selected aircraft operated in general aviation. The amendments are in response to legislation which mandates the FAA to amend its flight recorder and CVR requirements in accordance with recommendations from the National Transportation Safety Board. The intent of this rulemaking is to provide more information to accident investigators in determining the causes of accidents and the measures needed to correct the causes. In addition, the FAA requested comments on the general aviation requirements. A disposition of those comments was published in the Federal Register. This rulemaking is significant because of substantial public interest.

CFR Citation: 14 CFR 91

Legal Deadline: Final, Statutory, June 30, 1988.

Abstract: This rulemaking requires a transponder and automatic altitude reporting equipment in terminal airspace of certain airports where air traffic control radar service is provided. Implementation will be in two phases: Phase I, effective June 1, 1989, requires a transponder with Mode C at and above 10,000 feet MSL, and within 30 miles of TCA primary airports. Balloons, gliders, and aircraft without an electrical system are excluded when operating outside a TCA below the altitude of the TCA ceiling and when operating between 10,000 and 18,000 feet MSL. Phase II, effective December 30, 1990, implements a transponder with Mode C requirement in and above the airspace of an ARSA up to 10,000 feet. This rulemaking was significant because of substantial public interest and statutory requirement.

Additional Information: This final rule was published on June 21, 1988. On June 30, 1989, the FAA published a policy statement which allows operators flexibility while transitioning to this rule. This policy statement was necessary because many pilots delayed their decision to purchase the required equipment pending the outcome of the FAA's decision on a petition for rulemaking which would affect this final rule. Considering that the petition was denied only 14 days prior to the implementation date of this final rule, the FAA believed it was necessary to issue the policy statement.

CFR Citation: 14 CFR 121; 14 CFR 135

Legal Deadline: Final, Statutory, April 23, 1988.

Abstract: This rule requires the "no smoking" sign to be turned on at all times on scheduled airline flights, except for flights between the United States and other countries, which are scheduled to be two hours or less in duration. This rule carries out a ban on

smoking on such flights mandated by PL 100-202. This rule also makes minor changes in other related sections of Parts 121 and 135 which affect smoking aboard air carrier aircraft during flights not covered by a total ban. Smoking in lavatories is prohibited on all air carrier flights. Also, the required passenger briefing must include more detailed instructions on smoking, including all of these changes and the new statutory ban on tampering with smoke alarms in aircraft lavatories. This rulemaking was significant because of substantial public interest.

As mandated by PL 100-457.

Abstract: This final rule makes several technical amendments to the regulations pertaining to allocation and transfer of air carrier and commuter operator slots (i.e., allocated instrument flight rules take-off and landing reservations) at Kennedy International Airport, LaGuardia Airport, O'Hare International Airport, and Washington National Airport. It provides that slots generally will not be withdrawn from carriers holding eight or fewer slots if the holding carrier itself operates the slots. It also changes the maximum passenger seating capacity for operations in "scheduled commuter" slots from less that 56 seats to less than 75 seats, and changes the definition of "summer" and "winter" season to conform to the current legal definition of Daylight Savings Time and Local Standard Time. This rulemaking was significant because of congressional interest.

This rule also requires mandatory compliance with the countermeasures prescribed in Security Directives and prohibits the release of the information contained in both Security Directives and Information Circulars to unauthorized persons. This action is necessary to simplify and expedite existing procedures, to ensure that appropriate officials take specific measures to counter terrorism directed at civil aviation, and to prohibit the unauthorized disclosure of sensitive security information. CFR Citation: 14 CFR 91

Legal Deadline: None

Abstract: This action responded to a petition filed by the Experimental Aircraft Association, Aircraft Owners and Pilots Association, and Helicopter Association International concerning Mode S and Mode C transponder requirements. The Mode S transponder aspect of that petition was partially granted with a final rule that revised the dates associated with the installation of Mode S transponders. This final rule allows certain aircraft operators to install non-Mode S

transponders in aircraft until July 1, 1992, instead of until January 1, 1992, provided that such transponders are manufactured prior to January 1, 1991, instead of prior to January 1, 1990. A manufacturer's comment to the petition which cited a delay in the production of general aviation type Mode S transponders necessitated this final rule action. This action also denied that portion of the petition concerning Mode C transponders. This rulemaking was considered significant because of substantial public interest.

Significance: Nonsignificant

Legal Authority: 49 USC 1348(a); 49 USC 1354(a); 49 USC 106(g)

CFR Citation: 14 CFR 75

Legal Deadline: None

Abstract: This action will review Part 75 per National Airspace Review Recommendations toward revocation and establish nonrulemaking procedures for handling jet route actions.

This project is being removed from the agenda until the FAA's Regulatory Review Board, which establishes priorities and sets timetables for rulemaking projects, designates this project as an agency top priority and establishes a timetable for a rulemaking action. Abstract: This amendment reorganized and realigned the general operating and flight rules to make them more understandable and easier to use. Also, several changes were made to provide more flexibility for certain operations. These changes resulted from comments received from the general public and aviation industry in response to a request for specific comments to help identify substantive areas needing review.

CFR Citation: 14 CFR 135

Legal Deadline: None

Abstract: This proposed action would revise several sections of Part 135 dealing with instrument flight rules. The proposed rule would: (1) permit IFR operations enroute with a VFR buffer zone underneath the cloud ceiling by permitting an IFR approach at destination; (2) change IFR takeoff minimums at U.S. military airports to be compatible with U.S. civil airport requirements; and (3) provide driftdown standards during enroute operations in IFR conditions in multiengine aircraft.

This project is being removed from the agenda until the FAA's Regulatory Review Board, which establishes priorities and sets timetables for rulemaking projects, designates this project as an agency priority and establishes a timetable for a rulemaking action. Abstract: On June 3, 1987, the FAA published a final rule which amended the regulations applicable to protective breathing equipment (PBE). This final rule amends the compliance date for installing PBE and for training air carrier crewmembers in the use of PBE. The compliance date is extended from July 6, 1989, to January 31, 1990. This rule is necessary due to technical problems and delays in the certification of PBE and production problems experienced by several manufacturers of PBE. By extending the compliance date, air carriers will not be penalized for the supply problems caused by the delayed certification and production of PBE units.

Abstract: This is a recodification of 14 CFR Parts 47 and 49 in order to modernize these parts, making them compatible with modern business practices, in keeping with FAA policy.

The potential costs have not yet been assessed, but are considered to be

negligible as the impact will be procedural and not substantive.

The potential benefits are the clarification of regulatory language and facilitation of procedures for registration of aircraft and recordation of conveyances affecting ownership of or interest in U.S. civil aircraft.

This project is being removed from the agenda until the FAA's Regulatory Review Board, which establishes priorities and sets timetables for rulemaking projects, designates this project as an agency top priority and establishes a timetable for a rulemaking action. Significance: Nonsignificant

Legal Authority: 49 USC 1348; PL 100-91

CFR Citation: 14 CFR 91; 14 CFR 135

Abstract: On June 02, 1988, the FAA published a final rule for the operation of aircraft in the airspace above the Grand Canyon up to an altitude of 14,500 feet above mean sea level, with an effective date of September 22, 1988. The regulations were adopted to comply with recent legislation requiring additional flight regulations based on the recommendations of the U.S. Department of the Interior. The FAA requested comments on the final rule at the time it was published. This action establishes a corridor into the airport on the Hualapai Indian Reservation and simplifies the configuration of a flight corridor in the vicinity of Dragon Butte in the central canyon.

Authority to assess civil penalties and conduct on-the-record hearings terminates 12/30/89; FAA had to report to Congress by 06/30/89.

Abstract: This final rule revises the initiation procedures and provides new procedural rules regarding civil penalty assessment actions. This final rule provides procedures for one-the-record hearings required by Congress in civil actions not in excess of $50,000 assessed by the FAA.

Additional Information: This final rule was published on September 7, 1988. Because the rules of practice are purely procedural and are necessary to govern on-the-record hearings required by statute, the FAA determined that notice and public comment procedures were impracticable, unnecessary, and contrary to the public interest. However, the FAA provided an opportunity for public comment on the final rule through November 7, 1988. A disposition of those comments was published in the Federal Register on March 22, 1989.

Abstract: The purpose of this action was to clarify the intent of the two-way radio communications requirement of airport radar service areas. This project is being removed from the Agenda until the FAA's Regulatory Review Board, which establishes the priorities and sets timetables for rulemaking projects, designates this project as an agency top priority and establishes a timetable for a rulemaking action. When a timetable has been established, this project will be returned to the Agenda.

CFR Citation: 14 CFR 93

Abstract: Subpart E was implemented to segregate aircraft departing/arriving Luke Air Force Base Federal Airway Victor 16 (V-16) from uncontrolled aircraft operating along that airway. The United States Air Force has recently established a military approach control unit at Luke Air Force Base. Petitioner believes there is no longer a valid reason to retain this part of the regulation since the Luke Air Force Base approach control exercises control over the subject airspace and is

aware of all activity in that area. Petitioner believes that safety has, therefore, been enhanced. This project is being removed from the Agenda until the FAA's Regulatory Review Board, which establishes the priorities and sets timetables for rulemaking projects, designates this project as an emergency top priority and establishes a timetable for a rulemaking action. When a timetable has been established, this project will be returned to the Agenda.

1924. MINIMUM LEVELS OF FINANCIAL RESPONSIBILITY FOR MOTOR CARRIERS: SELF-INSURANCE

Significance: Nonsignificant

Legal Authority: 49 USC 10927 Note

CFR Citation: 49 CFR 387

Legal Deadline: None

Abstract: The FHWA has determined that the issues associated with its authority to permit motor carriers to self-insure need to be examined in light of the insurance crisis affecting the motor carrier industry. The FHWA is seeking public comment from interested parties concerning self-insurance as a viable and effective mechanism for demonstrating financial responsibility as required by the Motor Carrier Act of 1980.

This rulemaking action will further analyze the issues addressed in the interim final rule. After analyzing comments received to the 6/18/86 ANPRM, the FHWA has decided to issue a supplemental ANPRM in order to further explore the issues.

Abstract: This rulemaking action responds to a petition filed by the American Diabetes Association (ADA) and others. The current diabetic rule prohibits insulin-using diabetics from driving in interstate or foreign commerce. The ADA has petitioned to change the regulation to provide for exemptions. The purpose of this action is to consider the proposed exemption program. A supplemental ANPRM is being issued to request comments on the development of medical evaluation procedures and risk assessment procedures for insulin dependent diabetics.

Abstract: The FHWA is requesting public comment on how, under Section 411(h) and 416(b) of the Surface Transportation Act of 1982 (STAA) (Pub. L. 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Significance: Regulatory Program

Legal Authority: PL 100-202, Sec 9105

CFR Citation: 49 CFR 383

Legal Deadline: None

Abstract: This action will develop improved identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Such high technology "unique" identifiers, when and if incorporated into the Commercial Driver's License Information System and the related State information systems, would reduce still further the opportunities for a driver to fraudulently obtain multiple licenses and to conceal disqualifying offenses. Alternatives under consideration include, but will not be limited to, retinal eye scans and advanced fingerprint technologies. Potential costs will accrue to the States for startup and operation of the upgraded identification methods, and to drivers and/or employers for incremental licensing costs passed on to them by the States. Safety benefits are expected to flow from the more accurate identification of CDL applicants and tracking of CDL holders' offenses. This rulemaking is significant because of substantial public interest.

Abstract: This rulemaking document proposes revisions to the current requirements contained in 49 CFR 390.21 concerning the marking of motor vehicles. Three areas are being considered for possible revision: (1) the applicability of the marking requirements to all commercial motor vehicles operated in interstate commerce, (2) postcard type registration of motor carriers, and (3) the treatment of rental vehicles. The third area of concern is being considered in response to a request for interpretation filed by the Truck Rental and Leasing Association (TRALA). This rulemaking is considered significant because of the public interest in commercial motor-carrier safety.

Abstract: The FHWA and NHTSA are considering the establishment of an advisory committee to develop a report which includes a recommended rulemaking proposal concerning a uniform system for handicapped parking. The committee would develop its recommendation using a negotiation process. The committee would be comprised of persons who represent the interests affected by handicapped parking regulations. The regulations would address: the use of the International Symbol of Access on Handicapped plates and placards; fees for plates and placards; and the recognition of out-of-State handicapped plates and placards. It is intended that the problems facing the handicapped traveler would be greatly reduced. Due to the nationwide interest in this issue, this rulemaking action is considered significant.

Abstract: Sections 207-209 of the Motor Carrier Safety Act of 1984 establish a process whereby any State law or regulation pertaining to commercial motor vehicle safety in interstate commerce will be reviewed and analyzed by the Commercial Motor Vehicle Safety Regulatory Review Panel (Safety Panel). The Safety Panel is to determine if such law or regulation has the same effect as, is less stringent than, or is additional to or more stringent than the Federal Motor Carrier Safety Regulations. Based on the determination of the Safety Panel, the Secretary is to initiate a rulemaking proceeding to determine if such a law or regulation may remain in effect and enforced. This notice of proposed rulemaking is the initial rulemaking action for any possible preemptive action by the Secretary. It will contain alternatives for comment on ways the Secretary may satisfy the requirements of section 208 of the Act. Section 9109 of the Truck and Bus Safety and Regulatory Reform Act of 1988 extends the deadline for Secretarial preemption under certain conditions until no later than 10/30/91.

1938. ENVIRONMENTAL IMPACT AND RELATED PROCEDURES; CONSTRUCTIVE USE

Significance: Nonsignificant

Legal Authority: 23 USC 315; 49 USC 303

CFR Citation: 23 CFR 771

Legal Deadline: None

Abstract: The need for rulemaking in this area has been caused by recent court decisions. The courts have delayed or halted several important Federal-aid highway projects on the grounds that the proximate effects or impacts from a given highway would constructively use land from a park or historic site. In each instance the FHWA had determined that there existed no constructive use. This determination was based on an analysis of proximity impacts and whether the impacts would substantially impair the functions or values which qualified the property for protection under Section 4(f) of the DOT Act. The FHWA has been operating under an informal policy directive on constructive use since 11/12/85. This rulemaking action would formalize existing policy on constructive use, and future court decisions would address the regulation rather than be based on ad hoc interpretations of specific project facts.

Abstract: The FHWA is addressing the issue of the gross vehicle weight rating (GVWR) criterion used to define a "commercial motor vehicle" subject to the Federal Motor Carrier Safety Regulations (FMCSR's). The FHWA is specifically seeking public comment on the enforcement and regulatory capability regarding the rating.

Abstract: The American Association of State Highway and Transportation Officials (AASHTO) has approved and published a document entitled "Roadside Design Guide" which superseded its 1977 "Guide for Selecting, Locating and Designing Traffic Barriers." The Federal Highway Administration (FHWA) is proposing to replace references to the latter document in 23 CFR Parts 625 and 645 with references to the 1989 "Roadside Design Guide." Further, the FHWA is soliciting comments on whether the "Roadside Design Guide" should be considered in whole or in part or modified in any way for application to Federal-aid projects.

Abstract: This rulemaking document proposed to amend current regulations to include dromedary decks and plates under the dromedary box provisions. This would preempt inconsistent State laws and regulations to permit truck tractors equipped with dromedary decks or plates having the capacity to carry cargo that were in legal use on December 1, 1982, to continue to operate throughout their useful lives. Proof of such legal use would continue to rest with the operator of the equipment.

Abstract: The FHWA is proposing revisions to the requirements for private motor carriers of passengers and the drivers of private motor vehicles of passengers. The proposed revisions would require private motor carriers of passengers and drivers of private motor vehicles of passengers to operate under the Federal Motor Carrier Safety Regulations (FMCSR). However, the paperwork burden of these requirements will be minimized and several parts of the FMCSR will not apply to either private motor carriers of passengers or to drivers of such vehicles. This rulemaking is significant in that it is controversial, involving bringing new carriers under the regulatory scheme.

Abstract: The FHWA is proposing to amend Parts 383 and 391 of the Federal Motor Carrier Safety Regulations (FMCSR's) to address certain questions that were posed in the final rule (Docket MC-125; Notice No. 87-06) published in the Federal Register on June 1, 1987. Specifically, in this document the FHWA proposes to define "excessive speeding," "reckless driving" and "other serious traffic violations." The FHWA also proposes to amend the subject parts to clarify or make minor revisions. Because of the public interest in the issue of commercial motor vehicle safety and the expected benefits of improved transportation safety, this action is considered significant under the regulatory policies and procedures of the Department of Transportation.

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments are also intended to provide more authority and flexibility to States and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

Abstract: The FHWA considered amending the noise emission standards to add a new minimum distance of 31 feet from which to measure highway noise. FHWA also considered eliminating the correction factor which allowed a variance for noise tests taken at hard sites, e.g., asphalt, compared to those taken at soft sites, e.g., grassy areas. Abstract: The FHWA is amending Parts 390, 391, and 393 of the Federal Motor Carrier Safety Regulations (FMCSRs). This action amends the intracity zone exemption to make it consistent with Truck and Bus Safety and Regulatory Reform Act of 1988 (the Act) (Title IX, Subtitle B of PL 100-690, 102 Stat. 4181). It also exempts certain foreign motor carriers from the provisions of 49 CFR Part 393 for a period of one year from the date of enactment of the Act (i.e., 11/18/89). The Act also requires the Secretary to report to Congress on the effects of the delayed application and recommend "on the extent to which foreign motor carriers may or should comply with all or any of the requirements of Part 393." To comply with the Congressional mandate, the FHWA is requesting comments from all interested parties on this issue.

Significance: Nonsignificant

Legal Authority: 23 USC 109; 23 USC 315; 23 USC 402

CFR Citation: 23 CFR 625

Abstract: The Federal Highway Administration (FHWA) is requesting comments on a proposed amendment to the design standards which apply to Interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards--Interstate System, AASHTO 1988" would be substituted for the previous version of these standards last revised June 20, 1967. If the Federal Highway Administration (FHWA) adopts the 1988 document, the new AASHTO publication would constitute the FHWA's policy on geometric design for all federally-assisted construction and reconstruction projects on the Interstate highway system.

1963. ● QUALIFICATION OF DRIVERS: WRITTEN EXAMINATIONS

Significance: Nonsignificant

Legal Authority: 49 USC App. 2503, 2505; 49 USC 3102; 49 USC 4104

CFR Citation: 49 CFR Subchapter B, Appendix C

Legal Deadline: None

Abstract: Due to amendments to the Federal Motor Carrier Safety Regulations (FMCSRs) which have occurred in the past few years, certain information and terminology currently found in the written examinations for drivers is no longer correct. Consequently, the FHWA is amending the written examination, which is given to driver applicants by motor carriers subject to the jurisdiction of the FHWA, to correct the examination's information and terminology. While the revisions are nonsubstantive in nature, they will improve the usefulness of the written examination.

Abstract: An ANPRM had been issued requesting public comment on a petition to designate a particular combination of vehicles as specialized equipment under the provisions of section 411(d) of the Surface Transportation Assistance Act of 1982 (STAA). Upon further review, the FHWA has determined that no rulemaking action is required at this time. This rulemaking action has been withdrawn effective 7/10/89 (54 FR 29060).

CFR Citation: 23 CFR 635

Abstract: This amendment would have revised the existing regulation prescribing the inclusion of prevailing wage rates determined by the Secretary of Labor in advertisements and contracts for Federal-aid highway projects. The proposed amendment would have precluded the inclusion of State prevailing wage rates which are higher than those determined by the Department of Labor in Federal-aid contracts. However, in light of the comments received as to the federalism implications and enforcement problems, the proposed amendment action was withdrawn.

Significance: Agency Priority

Legal Authority: 23 USC 141; 23 USC 154; 23 USC 315; PL 100-17, Sec 174

CFR Citation: 23 CFR 659

Legal Deadline: None

Abstract: The FHWA and the National Highway Traffic Safety Administration (NHTSA) have amended the regulations on certification of speed limit enforcement in order to streamline the sanction process and to take into account the provisions mandated by section 174 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (STURAA). Section 174 of STURAA amended 23 U.S.C. 154 by giving the States the authority to increase, without loss of Federal-aid funds, the maximum speed limit to no more than 65 miles per hour (mph) on certain Interstate System highways. A notice of proposed rulemaking was issued proposing revisions to the sanction process contained in 23 CFR Part 659. A separate final rulemaking action has been issued in order to provide the States the authority to adjust the speed sampling and analysis plan required for determining the level of 55 mph noncompliance.

Abstract: The FHWA was proposing to modify the National Network for commercial motor vehicles by deleting a certain route in South Carolina. The National Network was established by the final rule on Truck Size and Weight published at 49 FR 23302 on June 5, 1984. It is maintained under 23 CFR 658, Appendix A, as amended. However, the State then requested that the route not be deleted. Rulemaking was therefore terminated on April 24, 1989 at 54 FR 16372. This rulemaking was considered significant because of substantial public interest.

Additional Information: The NPRM was published as part of the entry under RIN 2125-AC10. Since additional information and data was needed to resolve the issue of deleting the route in South Carolina, the FHWA has separated the action on South Carolina from those actions that addressed routes in Iowa and Kentucky. Also, since the NPRM addressed routes in the States of Iowa and Kentucky, the NPRM was not withdrawn.

Abstract: This revision was intended to expedite the processing of Federal-aid highways projects by promoting wider use of the findings and recommendations of the demonstration project carried out under section 141 of the 1976 Federal-Aid Highway Act. Upon further review, it has been determined that no further action was required. Therefore, the ANPRM was withdrawn by final notice on June 1, 1989 (54 FR 23489).

Additional Information: An interim policy statement was published 6/6/83 (48 FR 25181) to implement acceleration methods for selected projects within existing regulations. Initially, FHWA had considered issuing a new regulation as a vehicle for accelerating Federal-aid projects pursuant to Section 129 of the STAA of 1982. However, it has been determined that the objectives of Section 129 can be best implemented by revisions to existing regulations. Therefore, separate regulations will not be issued regarding the acceleration program. This approach received the concurrence of Deputy Administrator Lamm on April 11, 1984. This regulation has been withdrawn.

1973. FEDERAL MOTOR CARRIER SAFETY REGULATIONS; GENERAL; RENTAL VEHICLE LEASING

Significance: Nonsignificant

Legal Authority: 49 USC 2905

CFR Citation: 49 CFR 390

Legal Deadline: None

Abstract: This rulemaking action responds to a petition filed by the Truck Rental and Leasing Association (TRALA). The FHWA is proposing to amend its commercial motor vehicle marking requirements to allow certain "rental vehicles" to be marked with the name and address of the rental company and the U.S. DOT identification number issued to the rental company in lieu of requiring the renting motor carrier to display its required identification information on the sides of the rental vehicle. This action will enhance the uniform identification of commercial motor vehicles operated on the nation's highways and aid enforcement officers in carrying out their duties. This rulemaking action will also reduce the marking burden placed on motor carriers which operate rental vehicles from time to time. This rulemaking action has been merged with the rulemaking action entitled: "Federal Motor Carrier Safety Regulations; General; Motor Vehicle Marking" (RIN #2125-AC28), in the prerule section of the Agenda.

Also, FHWA is considering a possible future rulemaking action related to bridge railing design and is requesting public comment on the AASHTO guide specifications, on their possible application as a standard rather than as a guide on Federal-aid projects, and on any other bridge railing design-related subjects.

Significance: Nonsignificant

Legal Authority: 49 USC 3102; 49 USC App 2505; PL 99-570, Title IX

CFR Citation: 49 CFR 383

Abstract: This rulemaking document technically amended 49 CFR 383 by inserting into the regulatory text the Federal Highway Administrator's determination that commercial drivers' licenses issued by Canadian jurisdictions under the Canadian National Safety Code meet the commercial driver testing and licensing standards contained in 49 CFR Part 383. Accordingly, a commercial driver's license issued by a Canadian jurisdiction in conformity with the Canadian National Safety Code is considered to be the single commercial driver's license for operation in the United States by Canadian drivers. Also, a Canadian driver is prohibited from obtaining any driver's license from a State or other licensing jurisdiction of the United States. The actual letter of determination prepared by the Administrator appeared in a separate notice published on May 23, 1989 (54 FR 22392).

Abstract: This standard, which is applicable to passenger cars, light trucks, and school buses, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries caused by fires which result from fuel spillage after motor vehicle crashes. This evaluation follows up and expands on a prior study on passenger cars which showed that, while the regulation was effective in preventing deaths and injuries, the incidence of crash fires appeared to be increasing. This evaluation will also provide the initial assessment of the regulation as it applies to light trucks.

Abstract: The intention to apply in Federal Motor Vehicle Safety Standard No. 208 rulemaking additional injury criteria in order to prevent facial lacerations, neck injury, knee shear, tibia, and ankle trauma was announced in Notice 39 Docket 74-14 (50 FR 14602, April 12, 1985). The final rule (Notice 40) stated that the agency will issue another Notice on the additional information about the potential effects of adopting these criteria. Alternatives and potential costs were addressed in Notice 39.

Abstract: Consumers Union has petitioned to restore the bumper-damage criteria to the 1982 protection level of 5mph or, if this is not possible, to require automobile dealers to provide repair cost and insurance premium information related to the bumper systems on the passenger cars that they sell. The agency has completed and published a study on the cost effects and consumer interest in bumper-damageability standards. The agency will now consider the arguments set forth in the petition and take appropriate further action.

The Motor Vehicle Information and Cost Savings Act (P.L. 98-547) requires a Report to Congress five years after promulgation of the Federal Motor Vehicle Theft Prevention Standard.

Abstract: This standard, which applies to passenger cars, requires identifying numbers or symbols to be placed on major parts of high theft passenger motor vehicles. A comprehensive evaluation will be performed to determine the effectiveness of the regulation in reducing the incidence of motor vehicle thefts and to estimate the costs of manufacturing and applying the identifying information. The evaluation of the regulation is required by the Motor Vehicle Information and Cost Savings Act and calls for a Report to Congress five years after promulgation of the standard.

Abstract: This standard regulates the performance of antilock brake systems for passenger cars and other vehicles with hydraulic brakes. The purpose of antilock brakes is to enhance the driver's control of the vehicle during emergency braking. Antilock brakes are currently available on some passenger cars. The standard, at this time, does not require them for all cars. The regulation was selected for review because of public interest in the costs and benefits of antilock brakes.

Abstract: Accidents involving heavy trucks have a disproportionate (higher) fatality rate than all other motor vehicles. This rulemaking proposes to reinstate stopping distance performance requirements in Standard 121 so as to help improve heavy vehicle braking performance and hence reduce the number of accidents involving these vehicles. Although a court decision found that Standard 121, as it then existed, was unenforceable, additional accident data and technical review have persuaded NHTSA that the court's requirements can now be met.

Significance: Agency Priority

CFR Citation: 49 CFR 571.121; 49 CFR 571.105

Legal Deadline: None

Abstract: Proposed action would establish a new brake standard for all trucks, buses, and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as antilock systems, automatic brake adjustors, load-sensing proportioning values, air driers, and retarders for heavy trucks, buses, and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

Abstract: Action proposes a New Standard No. 135, "Passenger Car Brake System," which would replace Standard No. 105, "Hydraulic Brake System," as it applies to that vehicle type. New Standard would differ from the existing one primarily in that it contains a revised and shortened test procedure based on a draft harmonized international procedure developed by the United Nations Economic Commission for Europe (ECE). Abstract: The purpose of this notice is to announce that the NHTSA is considering the proposal of requirements for light trucks, vans, and multipurpose passenger vehicles intended to reduce the risk of fatalities and injuries in side impacts and other crashes where the side protection of the vehicle is a relevant factor, and to request comments to assist the agency in developing the proposal. The contemplated requirements would be part of the agency's efforts to address the serious problem of side impacts. As another part of those efforts, the agency proposed requirements for passenger cars intended to reduce the risk of injuries to the thorax and pelvis in side impact crashes between vehicles. Significance: Agency Priority

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 571.301

Legal Deadline: None

Abstract: NHTSA is contemplating amending the standard to include buses over 10,000 pounds gross vehicle weight rating (GVWR) (such as intercity and transit buses) and to upgrade the standard's current requirements for all buses (including school buses) to which the standard already applies. The current standard applies to passenger cars, multipurpose passenger vehicles, trucks, and buses that have a GVWR of 10,000 pounds or less. This action is considered significant because of the safety implications involved.

2015. ● + STOP-SIGNAL ARMS ON NEW SCHOOL BUSES; NEW STANDARD

Significance: Agency Priority

Legal Authority: 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: Many injuries occur to school age children when drivers of other vehicles do not see the children or the school bus as the children are approaching or leaving a school bus. An average of 13 fatalities per year were reported resulting from pedestrians being struck by vehicles other than the school bus as they are approaching or leaving the school bus. The objective of this proposed project is to develop a new motor vehicle safety standard that will require installation of stop signal arms on all new school buses as recommended in the National Research Council's report "Improving School Bus Safety." Stop signal arms are stop signs with flashing red lights that extend from the left side of the school bus when it stops to load or unload students. This will probably necessitate additional equipment and possibly more training for some drivers. This action is significant because of substantial public interest, and possible Federalism implications.

2017. ● + PROCEDURES FOR PARTICIPATING IN AND RECEIVING DATA FROM THE NATIONAL DRIVER REGISTER PROBLEM DRIVER POINTER SYSTEM

Significance: Agency Priority

Legal Authority: 23 USC 401

CFR Citation: 23 CFR 1325

Legal Deadline: None

Abstract: This regulation will implement an improved National Driver Register (NDR), the purpose of which is to assist chief driver licensing officials of participating States in exchanging information regarding the motor vehicle driving records of individuals. The objective is to prevent the issuance of driver's licenses to individuals whose licenses to operate a motor vehicle have been withdrawn or denied, especially those convicted of drunk driving. By participating in the NDR, State Driver licensing officials may better identify problem drivers and deny them access to the nation's highways, thus making them safer. Annual cost to the Government will be between $5 and $7 million. This action is considered significant because of the impact on transportation safety.

Significance: Nonsignificant

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 552; 49 CFR 571

Abstract: Federal Motor Vehicle Safety Standard (FMVSS) No. 301 specifies requirements for the integrity of motor vehicle fuel systems so that fires that result from fuel spillage during and after motor vehicle crashes may be reduced. This standard applies to passenger cars and school buses, and to multipurpose passenger vehicles, trucks, and buses that have a gross vehicle weight rating of 10,000 pounds or less. The California Highway Patrol (CHP) petitioned the agency to specify requirements in FMVSS No. 301 to reduce fuel spills from the fuel tank or fuel lines on heavy trucks and truck tractors over 10,000 pounds. The fuel spills, according to the CHP, are due to damage caused by road debris. On May 2, 1988, the agency published a grant of petition for rulemaking in the Federal Register for the CHP petition. However, the agency is granting the petition pending the results of its forthcoming investigation of fuel-tank fires in over-the-road trucks.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1401; 15 USC 1403; 15 USC 1407

CFR Citation: 49 CFR 571.105

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard No. 105 requires vehicles to have a brake failure indicator lamp which illuminates upon a failure within the brake system. This failure may be the result of a gross loss of pressure (Par. S5.3.1(a)) or a drop in the level of brake fluid in any master cylinder reservoir compartment to less than a specified safe level (S5.3.1(b)). The standard does not specify which mode of failure must be specified. This mode selection is left to the choice of the manufacturers. A petition from Mr.

Sinclair Buckstaff, Transamerica Consultant Engineers (Buckstaff) requests that a loss of pressure indicator be made mandatory with a fluid level loss indicator to be optional (preferably mandatory) also, along with the pressure failure indicator. Buckstaff maintains a master cylinder internal failure can occur wherein no failure indication would ever occur if only a fluid level loss indicator were installed on the vehicle.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1401; 15 USC 1403; 15 USC 1407

CFR Citation: 49 CFR 571.106

Legal Deadline: None

Abstract: Federal Motor Vehicle Safety Standard No. 106 requires hoses, end fittings, and hose assemblies, except under limited circumstances, to be marked in a manner providing source identification for the hose, fitting, or assembly. Paragraphs S12 and S13 provide two exceptions. Paragraph S12 exempts "assemblies" from individual labelling of the "components." The "assembly" must still be labeled as specified in the appropriate paragraphs S5.2, S7.2, and S9.2. Paragraph S13 exempts hoses, fittings, and assemblies, if each or all are installed in a vehicle to which the standard applies (i.e., new vehicles, factory assemblies) from the individual requirements for labelling these components or assemblies. Rulemaking is to be initiated to clarify these requirements as they apply to the labelling of components or assemblies which use "reusable" fittings. A conflict may exist as to whether these materials with "reusable" components are considered to be "assemblies."

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, a second NPRM was issued.

Significance: Agency Priority

Legal Authority: 15 USC 2032

CFR Citation: 49 CFR 544

Legal Deadline: Final, Statutory, October 25, 1989.
Rental and leasing companies who are self-insured are required to report to the agency October 25th of each year.

Abstract: This notice has proposed to require theft reports only from rental and leasing companies with combined fleets of 50,000 or more vehicles. This would result in the largest rental and leasing companies being required to file theft reports, instead of the approximately 4,000 companies currently required to do so. NHTSA has determined that reports from the largest rental and leasing companies would provide the agency with the representative sampling of the theft experience of rental and leasing companies, while reducing an unnecessary burden on smaller such companies. This rulemaking is significant because of substantial public interest.

NHTSA is required to publish a final rule by November 18, 1989.

Abstract: Under the Anti-Drug Abuse Act of 1988, Pub. L. 100-690, this rulemaking establishes regulations and criteria under which States may apply for and receive federal alcohol highway safety incentive grants. Grant criteria include prompt license suspension for Driving While Intoxicated (DWI) offenses, self-sustaining community DWI programs, mandatory alcohol blood testing, prevention of underage drivers from drinking, suspension of vehicle license plates and registration for DWI offenses, and prevention of open alcohol containers and drinking in cars. Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.114

Legal Deadline: None

Abstract: This action would amend Federal Motor Vehicle Safety Standard

114 to prevent the inadvertent knocking out of gear of the gear shift lever and potential accidents, injuries and fatalities from vehicles rolling out of control. This amendment is in response to a petition for rulemaking relating to an inadvertent knock-out-of-gear accident resulting in a fatality. In addition, FMVSS 114 is proposed to be amended to insure that, if a steering column locking device is employed, the device cannot be activated until the key is removed and the vehicle must be in park on automatic transmission vehicles to remove the key.

Significance: Nonsignificant

Legal Authority: 15 USC 1981

CFR Citation: 49 CFR 580

Legal Deadline: None

Abstract: An interim final rule permitted, in limited circumstances when a title document is physically held by a lienholder, the use of a secure power-of-attorney form. Final action contemplates further action on that issue, clarifying definitions of transferor and transferee, requiring the transferee to return to the transferor a signed copy of the odometer disclosure statement, and requiring that title reassignment documents be issued by the States. Comments to the interim final rule are being evaluated and will be discussed in the final action.

Legal Deadline: None

Abstract: The agency proposed to amend Federal Motor Vehicle Safety Standard No. 115 and Part 567 with regard to vehicles not originally manufactured for sale in the United States and that do not comply with Federal motor vehicle safety standards, but that are imported into this country by businesses unaffiliated with the original manufacturer. These vehicles often are labelled with "homemade" 17 digit Vehicle Identification Numbers (VIN). Under the proposal, the importer would label the vehicle partially exempt from Standard No. 115 and direct interested parties to the location of the original manufacturers's number to be used in lieu of the VIN. The agency is taking this action in response to a petition from the National Automobile Theft Bureau (NATB).

2080. + POST-1988 PASSENGER-CAR FUEL-ECONOMY STANDARDS

Significance: Regulatory Program

Legal Authority: 15 USC 2002

CFR Citation: 49 CFR 531

Legal Deadline: Final, Statutory, October 1, 1988.
Amendments reducing the fuel economy standard for a particular model year are required to be made by the beginning of a model year.

Abstract: Automotive Importers of America, Inc., Austin Rover Group Ltd., Mercedes-Benz of North America, Inc., Competitive Enterprise Institute, and General Motors Corporation petitioned to lower passenger car Corporate Average Fuel Economy (CAFE) standards for Model Years 1989 and 1990. The March 1988 ANPRM sought public comment on whether to reduce the CAFE standard for MY 1989 and/or 1990, to determine whether retaining the present standard would adversely affect U.S. employment or competitiveness of the U.S. auto industry. The final action determined that retention of the 27.5 mpg standard will not adversely affect employment or competition.

Abstract: Final action amends Standard 108 headlighting requirements by deleting certain external dimensions for sealed-beam headlamps, lifetime requirements for sealed-beam headlamps and standardized replaceable light sources, photometric requirements for headlamps designed to conform to SAE J579a, and certain durability requirements for headlamps. A new category was added: headlamps without dimensional requirements. These issues had been separated from RIN 2127-AB87. This rulemaking was significant because of substantial public interest.

2082. + UNIFORM TIRE-QUALITY GRADING

Significance: Agency Priority

Legal Authority: 15 USC 1423

CFR Citation: 49 CFR 575

Legal Deadline: None

Abstract: This action contemplated including rolling resistance for tires as a substitute for top-temperature-resistance grade in the Uniform Tire Quality Grading Standards, and was considered significant because of substantial public interest. However, since excessive temperature can lead to sudden tire failure, this aspect is more important as to safety than is rolling resistance. Of the two, temperature resistance should be retained and rolling resistance, which cannot be defined in terms of fuel economy, put aside. For this reason, the action on this rulemaking is terminated.

Abstract: In response to a petition for rulemaking, the agency is proposing a new regulation to add a requirement that 102-inch wide trailers be equipped with axle tracks having a minimum axle width of 77 inches. An advanced notice of proposed rulemaking seeking comments on the safety issue raised by the petition was published 05/22/84 (48 FR 21551). This rulemaking was initially considered significant because of possible impact on the industry. However, the industry has voluntarily adopted the 102-inch axle/tire track and, therefore, further action is unnecessary.

Abstract: This action proposed to amend FMVSS No. 222, School Bus Passenger Seating and Crash Protection, to set requirements for safety belts when belts are voluntarily installed on school buses having gross vehicle weight ratings greater than 10,000 pounds, and was considered significant because of substantial public interest. However, information indicates most

safety belts on new, large school buses are voluntarily installed by major manufacturers in a manner compliant with the proposed amendment and the agency has decided not to amend the standard.

Abstract: Volkswagen of America petitioned to change Federal Motor Vehicle Safety Standard No. 108, Lamps, Reflective Devices, and Associated Equipment to permit an additional standardized replaceable light source for motor vehicle headlamps. The type of light source proposed was that currently used in European headlamps, the type H-4. Review of the merits of the petition found that, as used in Europe, the light source was not capable of achieving the level of performance required of U.S. light sources and NHTSA subsequently proposed a U.S. version to be known as the type HB2, which would have interchangeability and performance aspects compatible with U.S. safety needs. The final rule adopted NHTSA's proposed type HB2. This rulemaking was considered significant because of substantial public interest.

Abstract: Motor Vehicle Manufacturer's Association (MVMA) petitioned to amend Federal Motor Vehicle Safety Standard (FMVSS) No. 208, Occupant Crash Protection, to require that height-adjustable seats, and other adjustable seat features such as lumbar supports, be placed in the nominal design riding position specified by the manufacturer. However, current compliance procedures are objective and simple to administer; there appears no compelling reason for changing them. Available information indicates current positioning procedures are representative of the seat positioning most drivers have chosen. For these reasons, the petition was denied.

Abstract: Federal Motor Vehicle Safety Standard No. 105 requires vehicles to have one or more brake system indicator lamps in the instrument panel area, to warn drivers about certain types of brake failure and to indicate when the parking brake is in the applied position. Section S5.3.2 of the standard requires that the brake system indicator lamps be activated automatically when the vehicle is started, to enable the driver to check whether the lamp bulb is burned out. That section also provides that in a vehicle equipped with an automatic transmission, the activation of the lamp as a check of lamp function is not required when the transmission shift lever is in a forward or reverse drive position, since the vehicle cannot be started when the transmission shift lever is in those positions. In response to a petition for rulemaking submitted by Mazda, the final rule amends the standard to provide that the activation of the lamp as a check of lamp function is not required whenever the starting of a vehicle is prevented by an interlock switch.

Abstract: The purpose of Federal Motor Vehicle Safety Standard No. 102 is to reduce the likelihood of shifting errors. Manufacturers have provided a permanently displayed shift lever position indicator to meet the requirement of S3.2 of this Standard. Chrysler and General Motors petitioned the agency to amend the Standard to allow the use of electronic "PRNDL" displays. The amended requirements will facilitate the use of electronic displays, while assuring the information is displayed at all times.

Abstract: This standard requires that windshield wiper arms inside windshield moldings, horn rings, and frames and brackets of inside rearview mirrors have matte surfaces which will greatly reduce the likelihood of hazardous reflection into the driver's eyes. A petition was filed to extend the standard to the above items which are made of non-metallic, as well as metallic, materials. However, in view of the lack of substantiation of a problem, the apparent insignificance of any problem if one does exist, and the costliness of developing and using a more complex test procedure, extending the standard was determined to be inappropriate.

Abstract: The purpose of this notice is to report the results of this agency's actions for determining which car lines are subject to the marking requirements of the motor vehicle theft prevention standard for the 1989 model year, and publish a list of those car lines. NHTSA has previously published a list of the car lines that were selected as high theft car lines for prior model years, beginning with the 1987 model year. The list in this notice includes all of the car lines in the previous lists, as well as the new lines that were introduced for the 1989 model year and that have been selected as likely high theft lines. This notice is revised yearly (each model year). This notice is used by other Federal agencies in carrying out the statutory requirements under Titles II and III. 2105. + TRAIN OPERATION EVENT RECORDERS

Significance: Agency Priority

Legal Authority: PL 100-342, Rail Safety Improvement Act of 1988

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, December 22, 1989.

Abstract: FRA is required to issue necessary rules to provide for the recording of events relating to train operations and to ensure that devices recording those events are tamper-resistant. Aspects of the issue being explored include: determining the state of the art for such devices; the recordable events appropriate for accident investigation purposes; standards for "tamper resistance"; and regulatory structure. This project is considered significant because of Departmental policy.

2106. + RAILROAD ACCIDENT/INCIDENT REPORTS CLASSIFICATION AND NOTIFICATION OF RIGHT TO SUBMIT EMPLOYEE SUPPLEMENTS

Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This project addresses possible problems of bias and inaccuracy in FRA's railroad data base. Although FRA investigates about 400 accidents a year and receives unsolicited information on a few more accidents, FRA's sole source of information on the great majority of railroad accidents is the railroad company itself. The proposed rule would require that the railroad provide written notification to any employee whom the railroad alleges to have caused a certain type of accident, informing the employee of the relevant allegations and of his or her right to file an accident statement with FRA. The proposed rule also would establish the format and filing procedures for such statements. Alternatives being considered are: (1) revising the reporting form itself to include boilerplate language regarding what, where, and how to file the employee statement and (2) requiring a separate notice to the employee with the same information. Potential costs have yet to be determined. This action is considered significant because of Departmental policy.

2107. + RAILROAD OPERATING PRACTICES -- PROTECTION OF ON-TRACK SLEEPING QUARTERS

Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

DOT—FRA

Final Rule Stage

CFR Citation: 49 CFR 218

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: Railroads use on-track equipment adapted for service as mobile sleeping quarters, in order to have large dormitories adjacent to work sites. A recently enacted statute requires FRA to establish rules to protect those vehicles from the risk of being struck by other on-track vehicles. This project is intended to accomplish that purpose and is therefore considered significant.

2108. + SAFETY ENFORCEMENT PROCEDURES; DISQUALIFICATION OF EMPLOYEES

Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: FRA has been granted legal authority to disqualify an individual railroad employee who is shown to be unfit to perform safety-sensitive functions based on a violation of FRA's safety rules. The procedures that FRA will employ in exercising this authority must include a notice and hearing for the individual. FRA must define what constitutes a safety-sensitive function; the nature of the hearing; appellate review structure; and criteria for what constitutes unfitness. This proceeding is considered significant because of Departmental policy.

Abstract: Although significant, this proceeding is terminated because the issue of radio communications is being addressed by the FRA within the broader rail industry communications context of railroad dispatcher practices. An FRA study of dispatcher practices and related issues is in process in response to section 22 of the Rail Safety Improvement Act of 1988, and FRA may initiate a rulemaking in the future if warranted by the results of the present study.

Abstract: A new proceeding has been initiated pursuant to the Rail Safety Improvement Act of 1988, with an ANPRM published 11/23/88 and an NPRM anticipated in the near future. Because of the confusion resulting from the use of an old regulatory agenda number assigned to a related, but now completed, rulemaking that has not yet been deleted, a new RIN Number (2130-AA45) is assigned to the new proceeding. Consequently, this agenda item is terminated under this entry number. Information regarding the new proceeding will be found under RIN 2130-AA45.

Significance: Nonsignificant

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 228

Legal Deadline: None

Abstract: FRA's interpretive guidance concerning compliance with an hours-of-service statute will be extended by operation of law unless FRA acted within 6 mos. FRA guidelines specify a maximum noise level for the interior of facilities used to give train crews required periods of rest under the Hours of Service Act. The statute will make the noise level applicable to on-track vehicles used as dormitories for other railroad employees unless FRA alters its guidance on this matter for the on-track vehicles. FRA has determined that there is no need to delay the effective date of the statute; the statute is in effect without change.

Abstract: This policy statement set forth UMTA's criteria for evaluating proposals for new fixed guideway systems and extensions of systems. The policy statement was effective upon publication and was significant because it involved important departmental policy. This entry has been carried inadvertently in the Agenda and is now removed. For the new rulemaking relating to the Surface Transportation and Uniform Relocation Assistance Act of 1987, see RIN 2132-AA35.

Significance: Regulatory Program

Legal Authority: 49 USC 1804

Abstract: DOT lacks comprehensive data on the number, volume, and other statistics characterizing the transportation of hazardous materials in commerce. Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1387

CFR Citation: 14 CFR 241; 14 CFR 298; 14 CFR 399

Legal Deadline: None

Abstract: The threshold for the aviation-information program for regulatory flexibility analysis is 60 seats or maximum payload of 18,000 pounds or less. Carriers operating aircraft under these limits are considered small carriers. FAA, on the other hand, uses a threshold based on the operational certificate requirements (Part 121 versus Part 135) with the threshold established at 30 seats or maximum payload of 7,500 pounds for a Part 135 certificate. FAA regulatory analysis for safety, congestion, etc., centers around the lower threshold which means much of the aviation economic information that they use has to be manipulated to fit their needs. This proposal of standardizing the threshold within the Department would save considerable resources and would eliminate much confusion in the air transportation industry. Most carriers, especially the newer ones, are familiar with FAA's requirements. This rulemaking is significant because it will achieve consistency in departmental treatment.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 298

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for all the carriers' on-line passengers. The Department is considering proposing a new traffic and market data system for certificated and foreign air carriers. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1373

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of new air fares in the marketplace, such as business class, these definitions may also be outmoded. The DOT is considering several options for revising these definitions.

Abstract: This action will develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Rulemaking also includes former nonsignificant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade. This rulemaking is significant because of substantial public interest and safety implications.

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel. A related rulemaking to provide procedures requiring operators to amend operation and maintenance plans, and make operators subject to enforcement sanctions for failure to maintain plans, is entitled Amendment of an Operator's Plans or Procedures (RIN 2137-AB77).

Significance: Agency Priority

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Abstract: Recent accidents involving petroleum product pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on those product pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines. This rulemaking is significant because of substantial public interest in the safety implications.

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of Congressional and State concerns about the need for appropriate public officials to have pipeline information.

Abstract: The accounting system that underpins the Form 41 Report is based on Generally Accepted Accounting Principles (GAAP) established by the Financial Accounting Standards Board. This board recently amended GAAP reporting disclosure standards by adding a Statement of Cash Flows. The Form 41 Report currently has a Statement of Financial Position. Unless there is some incompatibility with

another aviation regulatory program, a proposed rule will be issued to replace the Statement of Financial Position with a Cash Flow Statement to maintain uniformity with GAAP. This rule would relieve large U.S. air carriers from the burden of preparing two different statements.

2168. + NATURAL GAS AND HAZARDOUS LIQUID PIPELINE DAMAGE PREVENTION PROGRAM

Significance: Agency Priority

Legal Authority: 49 USC 2002(e)

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid pipeline operators to provide damage prevention programs and gas operators would have to expand their programs to cover rural areas. This is a significant action because of the widespread interest in the use of "one-call" programs to prevent damage to buried pipelines.

2174. DETERMINING THE EXTENT OF CORROSION ON EXPOSED GAS PIPELINES

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Abstract: This rule modifies cargo tank specifications in sections 178.337-178.343 to improve clarity, quality control and safety, and provides for vacuum-loaded cargo tanks. It includes improved standards for inspection and testing of cargo tanks, improved valves and closures to prevent leakage and the risk of fire in overturns and other accidents, and new qualification criteria for cargo tank manufacturers, repairers, and inspectors. This rulemaking was developed in conjunction with FHWA. This rulemaking is considered significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1809

CFR Citation: 49 CFR 171

Legal Deadline: None

Abstract: The final rule implements several changes to the system of collecting information on incidents involving the transportation of hazardous materials. The incident report form has been modified to provide more meaningful and comprehensive incident data, especially in terms of incident causation and consequence. Reporting requirements have been expanded to include closure of major transportation arteries or facilities, unscheduled events involving aircraft transporting hazardous materials, and fires associated with shipments of radioactive materials. This rulemaking is significant because of substantial public interest due to safety implications.

Significance: Nonsignificant

Legal Authority: 49 USC 1672; 49 USC 1804

CFR Citation: 49 CFR 192.611(a)

Legal Deadline: None

Abstract: This rule provides an alternate method for confirmation or revision of the maximum allowable operating pressure of pipelines previously tested to less than 90 percent of specified minimum yield strength. The alternate method allows operators to establish a maximum allowable operating pressure in proportion to the level permitted for pipelines tested to 90 percent of specified minimum yield strength, or more, without retesting the pipeline. Abstract: The Maritime Administration and Department of the Treasury are jointly proposing to amend the regulations for determining the tax liability of participants in a Capital Construction Fund (CCF) to give effect to amendments in the Tax Reform Act of 1986 (PL 99-514). This rulemaking is a companion to RIN 2133-AA65, which proposes to implement changes in regulations for administering the CCF, consistent with PL 99-514.

Significance: Nonsignificant

Legal Authority: 46 USC App. 1114(b); 46 USC App. 1283

CFR Citation: 46 CFR 308

Legal Deadline: None

Abstract: This rulemaking proposes to amend MARAD's War Risk Insurance regulations to permit certain vessels registered in the Republic of the Marshall Islands to become eligible to apply for war risk insurance. Under the existing regulations, only vessels registered under United States law, as well as certain vessels that are owned or controlled by U.S. citizens and registered under the laws of Panama, Honduras, Liberia, and the Bahamas, are eligible to apply for war risk insurance interim binders.

Significance: Regulatory Program

Legal Authority: 46 USC App 1242(b); 46 USC App 1114(b)

CFR Citation: 46 CFR 382, (New)

Legal Deadline: None

Abstract: This regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. Calculation of fair and reasonable rates would be based on industry cost data supplied by participating carriers. It would establish requirements for submission of data on which the calculations would be based. This rulemaking is significant because it concerns a matter on which there is substantial public interest. It would clarify the meaning of a statutory term.

Significance: Regulatory Program

Legal Authority: 46 USC App 1114

CFR Citation: 46 CFR 252

Legal Deadline: None

Abstract: MARAD has proposed a rulemaking that clarifies its policy that cargoes which are not preference cargoes, but are reserved to U.S.-flag vessels by agreement of countries which receive U.S. foreign assistance in the form of cash transfers (or any similar cash assistance program), are not "commercial" cargoes, subject to foreign competition and are therefore not subsidizable. This rulemaking is considered significant because it concerns a matter on which there is substantial public interest.

CFR Citation: 46 CFR 203 (New); 46 CFR 201

Legal Deadline: None

Abstract: Regulations would establish procedures relating to the conduct of hearings under the Merchant Marine Act, 1936, as amended, prior to approval of applications for operating differential subsidy. The procedures to be proposed would allow MARAD to render more timely decisions by providing alternatives to the conduct of evidentiary hearings, in appropriate circumstances. This rulemaking is significant because of substantial public interest in the award or amendment of ODS contracts.

Abstract: The Maritime Administration is amending its regulations concerning the Capital Construction Fund (CCF) to give effect to amendments in the Tax Reform Act of 1986 (P.L. 99-514) relative to the operation of a CCF. This rulemaking proposes to amend the regulations at 46 CFR Part 390 governing the administration of a CCF to reflect changes made by PL 99-514. Other regulations are being developed jointly with the Department of the Treasury (IRS) to implement provisions of PL 99-514 relating to Federal Income Tax Aspects of the Capital Construction Fund (46 CFR 391). Significance: Agency Priority

Legal Authority: 46 USC App 1241

CFR Citation: 46 CFR 381

Legal Deadline: None

Abstract: These amendments to the existing cargo-preference regulations would have implemented S1142 of P.L. 98-198, the Food Security Act of 1985, that clarifies the applicability of cargo-preference requirements to the shipment of U.S. agricultural products. This regulation was terminated because the passage of time while awaiting the U.S. Court of Appeals decision involving allocation of preference cargoes to port ranges has made a number of issues irrelevant and rendered other issues no longer appropriate. This rulemaking was considered significant because of substantial public interest.

Additional Information: NPRM was withdrawn because the Maritime Subsidy Board final Opinion and Order in Docket S-764, that does not require CDS repayment for bulk vessels carrying preference cargoes, is a more attractive alternative for operators than ODS suspension that requires CDS repayment. Also, operator of only liner vessels to make election is in bankruptcy.

2216. REVISION OF 31 CFR PART 205 (TDC NO. 1075), PAYMENTS BETWEEN THE FEDERAL GOVERNMENT AND RECIPIENT ORGANIZATIONS

Significance: Agency Priority

Legal Authority: 31 USC 6503

CFR Citation: 31 CFR 205

Legal Deadline: None

Abstract: Revision of 31 CFR 205 will implement a new funding technique for Federal programs. The regulation would require a State to pay interest on Federal funds from the time they are deposited to the State's account until the time those funds are paid out to redeem checks or warrants or make payments by other means. This new "Checks Issued-Interest Remitted" technique was developed in response to statutes in some States that require that funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government if a State disburses its own funds for program purposes in accordance with Federal law, regulation or Federal/State agreement.(cont)

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309

CFR Citation: 31 CFR 223, (Revision)

Legal Deadline: None

Abstract: The revision makes editorial changes, and contains substantive changes to sections concerning business experience, collateral and reinsurance requirements. Substantive changes include: 1) a 3-year aging requirement in order to qualify for Treasury certification, 2) elimination of the alternative to use collateral for protecting excess risks, and 3) a requirement that all reinsurance on Federal bonds be placed with companies recognized by Treasury for reinsurance purposes. The proposed regulations provide provisions for exceptions to the aging and reinsurance regulations under certain circumstances. These regulations will help Treasury ensure that certified companies are capable of carrying out their surety contracts.

Abstract: Revision of 31 CFR Part 210 will clarify the breadth of payments governed by the regulations. These include non-benefit payments such as vendor payments, miscellaneous payments, Internal Revenue Service (IRS) tax refunds, savings bonds, grants and loans. It will also include the payment of discretionary allotments of net pay of Federal employees' salaries by DD/EFT. Electronic funds thus transferred through the Federal Reserve System eliminate the possibility of checks being lost, stolen, or forged. The Federal Government's operating efficiency will be improved, productivity will be increased, and the costs associated with the current methods will be reduced.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General Notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the

regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of April 1990.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Lori Weins, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue NW., Washington, DC 20226; (202) 566-7626.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Dated: August 18, 1989.

Significance: Agency Priority

Legal Authority: 27 USC 205(e); 27 USC 205(f)

CFR Citation: 27 CFR 4; 27 CFR 5; 27 CFR 7

Legal Deadline: None

Abstract: "Light (Lite)" was addressed to a limited extent in Notice No. 362 (45 FR 83530). However, subsequent to its publication ATF was petitioned by the Center for Science in the Public Interest (CSPI), requesting mandatory caloric labeling on all alcohol beverages, as well as the establishment of upper limits on calories in products labeled as "light (lite)." Comments will be requested on CSPI's petition as well as other issues involving use of the term "light (lite)."

2238. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983 with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.32; 27 CFR 5.32; 27 CFR 7.22

Legal Deadline: None

Abstract: ATF is proposing to amend the regulations by requiring the mandatory disclosure of FD & C Yellow No. 6 on labels of alcoholic beverages,

because of evidence indicating the possibility of allergic-type reactions to the color additive. As in the case of FD & C Yellow No. 5, which also requires label disclosure under existing regulations FD & C Yellow No. 6 is used infrequently in the production of alcoholic beverages being limited to mostly cocktails, liqueurs, and other specialty products.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on April 24, 1989 (54 FR 17064) are also included. It is expected that this semiannual agenda will enable the public to be more aware of and allow it to more effectively participate in the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities" and, therefore, are not subject to the provisions of the act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dated: August 14, 1989.

Robert L. Clarke,

Comptroller of the Currency.

Legal Authority: Sec 1, 77 Stat 668; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Legal Deadline: None

Abstract: Comments in response to a prior rulemaking Final Rule Docket No. 80-16 (46 FR 71571) published October 29, 1980, included recommendations that additional amendments should be made to 12 CFR 9. The OCC believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The OCC requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. In view of the favorable disposition of litigation impacting on the fiduciary powers of national banks and collective investment funds (Investment Company Institute v. Clarke, 789 F.2d 175 (2d Cir. 1986), cert. denied, 55 U.S.L.W. 3316 (U.S. Nov. 4, 1986); Investment Company Institute v. Conover, 790 F.2d 925 (D.C. 2247. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and the OCC concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the OCC in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The OCC considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the OCC determined it was appropriate to propose the additional requirements as amendments to Part 11 because the OCC believes the proposed requirements will help to clarify the types of disclosures which the OCC, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The proposed rule will also include amendments to update Part 11 to conform with recent amendments by the Securities and Exchange Commission to its Securities Exchange Act Disclosure Rules. 2254. DESCRIPTION OF OFFICE, PROCEDURES, PUBLIC INFORMATION

Legal Authority: 5 USC 552; EO 12600

CFR Citation: 12 CFR 4

Legal Deadline: None

Abstract: This proposed regulation implements recent amendments to the Freedom of Information Act (FOIA). The amendments concern Exemption 7 of the FOIA (relating to law enforcement records) and the provisions of the FOIA concerning fees and fee waivers. In addition, the proposed regulation implements Executive Order 12600, which deals with predisclosure notification procedures for confidential commercial information. This proposed regulation also makes technical changes to the OCC's existing FOIA regulation. The proposed regulation, and the OCC's FOIA regulations in general, affect public disclosure of information by the OCC. The effect on small entities will be considered in the development of this rulemaking.

2255. LEASING OF PERSONAL PROPERTY

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 7.3400

Legal Deadline: None

Abstract: The proposed regulation will interpret new statutory lease financing authority provided to national banks by Section 108 of the Competitive Equality Banking Act of 1987, codified at 12 USC 24(10). The OCC is considering what prudential guidelines, if any, are needed, in order to ensure that national banks conduct this new activity safely. 2256. RECORDKEEPING AND CONFIRMATION REQUIREMENTS FOR SECURITIES TRANSACTIONS

Legal Authority: 12 USC 24; 12 USC 92a

CFR Citation: 12 CFR 12.7

Legal Deadline: None

Abstract: This rulemaking would broaden an exemption from requirements that banks maintain certain records and establish certain written policies and procedures. Under the proposal, the current exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year. The purpose of broadening the exemption from 200 transactions per year to 1,000 transactions per year is to reduce the regulatory burden on small banks.

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5.61; 12 CFR 5.62; 12 CFR 7.6100; 12 CFR 7.6125

Legal Deadline: None

Abstract: This rulemaking will amend two interpretive rulings in 12 CFR 7 and promulgate them as regulations in 12 CFR 5. The amendments are needed to revise and clarify certain OCC interpretations of statutes that govern the payment of dividends by national banks (12 USC 56 and 60). The intended effect is to make the calculation of the restrictions on the payment of dividends by national banks consistent with generally accepted accounting principles (GAAP). The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: The OCC is proposing to amend its capital regulation in 12 CFR 3. Primarily, this amendment would (1) make the definition of capital in 12 CFR 3.2 and in the OCC's recently published risk-based capital guidelines consistent and (2) change the minimum capital ratio in 12 CFR 3.6. This amendment will limit the amount of leverage a national bank can undertake. The intended effect of this amendment is to ensure the continued safety and soundness of the national banking system. The effect on small entities will be considered in the development of this rulemaking.

2260. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Significance: Agency Priority

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5

Legal Deadline: None

Abstract: The OCC is engaged in a continuing review of its rules, policies, and procedures governing corporate activities. The OCC proposes to provide clarification of the OCC's ability to impose conditions on transactions between a bank and its subsidiaries; to add 12 CFR 5.36 to require notification to the OCC of certain equity investments which national banks are authorized by statute to make; to outline the responsibility of the applicants for accurate and complete filings; to centralize the OCC's distribution of forms; and to make several miscellaneous technical amendments. These proposals are expected to benefit the OCC by assisting the OCC in fulfilling its responsibility for maintaining the safety and soundness of national banks and the national banking system, and to improve OCC efficiency. The effect on small entities is considered in the development of each rulemaking. If adopted as final rules, the changes to Part 5 will not have a significant economic impact on a substantial number of small entities.

2261. LENDING LIMITS

Legal Authority: 12 USC 84(b)(1); 12 USC 84(d)(1); 12 USC 93a

CFR Citation: 12 CFR 32.2(d)

Legal Deadline: None

Abstract: This rulemaking will revise the definition of a "contractual commitment to advance funds" in response to comments received on the Temporary Rule on National Bank Lending Limits, at 53 FR 23752 (June 24, 1988). Comments were generally in favor of the temporary rule, but expressed concern about its impact on banks which had not experienced a decline in capital. This proposed revision will address those concerns through an amendment to the definition of a "contractual commitment to advance funds." This action will return to banks some flexibility in monitoring their lending limits and outstanding loan commitments. The effect on small entities will be considered in the development of this rulemaking.

Abstract: The proposed regulation will clarify the standards of insolvency the OCC may use in determining whether to appoint a receiver under 12 USC 191. Specifically, the rulemaking describes the net worth and liquidity tests. The rulemaking is intended to state OCC procedures clearly, to conform those procedures more closely to GAAP and to evaluate an insolvent bank's true financial condition. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 1818; 12 USC 1881 to 1884

CFR Citation: 12 CFR 21

Legal Deadline: None

Abstract: This regulation revises the two criminal referral forms, raises the threshold for filing criminal referrals where no suspect has been identified, and clarifies the filing requirement as far as reporting financial crimes where no loss is incurred by the bank, such as money laundering, bank bribery, and Bank Secrecy Act violations. These revisions are intended to clarify the filing requirement for these reports and are intended to reduce the overall number of criminal referral reports to be filed by national banks. This regulation will not have a significant economic impact on a substantial number of small banks or other small entities.

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest

degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

Abstract: Amendment to the Customs Regulations to set forth revised special informal entry procedures applicable to the entry and clearance of cargo carried by the various entities which comprise the express consignment industry and to further refine and expand upon the existing procedures which recognize the special needs of the growing express consignment industry. The member countries of the Customs Cooperation Council have recently examined the industry and associated issues and have adopted international guidelines which established various definitions, including the term "Express Consignment Operators or Carriers." The overwhelming growth of this industry requires Customs to provide more expedited clearance procedures. The amendments will promote uniform, fair and consistent treatment of the various courier and express air services, while at the same time better assuring the protection of the revenue in accord with all applicable laws and regulations.

CFR Citation: 19 CFR 134

Legal Deadline: None

Abstract: Amendment to the Customs Regulations relating to the country of origin marking of jewelry. More permanent methods of marking are proposed to avoid removal of country

of origin identifications from jewelry, particularly Native American style jewelry, after importation, but before sale to consumers often for the purpose of deceptively representing the merchandise as made in the U.S. The proposed rule will limit the permanent marking requirement to the smallest practicable portion of imported jewelry that will ensure that imported jewelry is permanently identified with the country of origin. For jewelry covered under the proposed rule, previous methods permitting country of origin marking for jewelry using adhesive labels or string tags would be permitted only where the size of the article does not permit more permanent marking methods. For other articles, the changes will require that jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving, stamping, or some other equally permanent methods, or with a similarly marked plastic or metal tag.

Additional Information: A proposed interpretive rule was published on July 15, 1986 (51 FR 25574) soliciting comments on a proposal to require that all foreign-made Native American-style jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving or stamping. In response to the notice, 92 written comments were received. Thirty-five of the comments supported the proposal that all foreign-made Native American-style jewelry be permanently marked with the country of origin; 42 favored the permanent marking of all foreign-made silver jewelry; 11 commenters said that all foreign-made jewelry should be permanently marked; and one commenter favored permanent marking of all imported gold and silver jewelry. On August 23, 1988, Congress enacted PL 100-418, which, among other things, requires the indelible and permanent marking on all imported Native American-style jewelry. The final rule will implement this law, taking into consideration public comments on the revised proposal concerning ways in which the type of jewelry subject to permanent marking might be reduced while accomplishing the statutory objective.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from October 1, 1989, through September 30, 1990. Determinations with respect to the agenda were made as of July 31, 1989. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert Boyer, (202) 566-3935 (not a toll-free number), Regulations Unit, Office of the Assistant Chief Counsel (Corporate), Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224, Attention: CC:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register.** The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in April of 1990.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (IRS) as of July 31, 1989, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Disclosure Litigation), Assistant Chief Counsel (Employee Benefits and Exempt Organizations), Assistant Chief Counsel (General Litigation), and Associate Chief Counsel (International). The following information is provided for each regulation project: the title; priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Fred T. Goldberg,

Commissioner of Internal Revenue.

2374. SECTION 361 OUTBOUND TRANSFERS OF PROPERTY TO FOREIGN CORPORATIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The income tax regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (Cont)

Legal Deadline: None

Abstract: Grantor trusts would file 1099's or nothing at all with the Service, and provide a statement of earnings

deductions and credits to each grantor. This will enable the Service to match the reported income from grantor trusts with the grantor's tax return. Different procedures will be required for trusts with single grantors as opposed to multiple grantors. Corporation grantors will be included. Other considerations will be whether backup withholdings rules apply and whether there is a legal basis for requiring a payor to report income directly to the grantor rather than the trust.

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMI and American Samoa are granted full authority over their own local income tax systems, with respect to income of bona fide residents sourced within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information and other administrative matters. Regulations are needed to clarify who qualifies as a bona fide resident and to determine sourcing rules.

2444. COORDINATION OF U.S. AND VIRGIN ISLANDS TAXES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

2477. REVISED WITHHOLDING TAX REGULATION TO MODIFY "AS SOON AS PRACTICAL" REQUIREMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations will modify a requirement of Treas. Reg. section 1.1441-6(c) regarding the time for filing of Form 1001. Section 1.1441-6(a) provides that the withholding rate shall be reduced as may be provided by a treaty with any country. To secure a reduced treaty withholding rate, subsection (c) of the regulation requires the recipient of the income to file Form 1001 (ownership, exemptions, or reduced rate certificate) with the withholding agent. The regulation further provides that each such Form 1001 filed with any withholding agent shall be filed "as soon as practicable". The "as soon as practicable" requirement will be changed to a narrower and more objective time period.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986 foreign controlled foreign corporations doing business in the US and foreign controlled US corporations are required to report transactions with related foreign corporations. The 86 Act requires such entities to report transactions with all related foreign parties, whether or not corporations. The Act also provides a new definition for the term related parties, and requires information necessary to carry out the installment sales rules, as amended by such Act, to also be reported.

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a state has adopted a Federal law establishing a place for the filing of liens under a national filing system, the state is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not subject to any other Federal law establishing a national filing system.

2530. EFFECT OF HONORING A LEVY

Legal Authority: 26 USC 6332 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6332-1(c)

Abstract: Section 1.6332-1(c) currently provides that any person in possession of or obligated with respect to property or rights to property subject to levy and upon which levy has been made who surrenders the property or rights to property, or discharges the obligation to the district director is discharged from any obligation or liability to the delinquent taxpayer. Section 1015(t) of Technical and Miscellaneous Revenue Act of 1988 amends Section 6332 of the Internal Revenue Code to provide that a person who honors a levy is protected from any obligation or liability to any other person as well as the delinquent taxpayer. This should cause a reduction in the number of interpleader actions filed because of concerns over liability to third parties.

2535. USE OF FACSIMILE SIGNATURES BY INCOME TAX RETURN PREPARERS OF FORMS 1041, U.S. FIDUCIARY INCOME TAX RETURNS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must

manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses with 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

Legal Deadline: None

Abstract: Section 7429 currently provides for administrative and judicial review of jeopardy assessments, but these review procedures do not apply to jeopardy levies. The Technical and Miscellaneous Revenue Act of 1988, PL 100-647, Sec. 6237, extends the review procedures of Section 7429 to the review of jeopardy levies and provides concurrent jurisdiction to the Tax Court with Federal District courts with respect to actions challenging a jeopardy assessment or jeopardy levy, provided a Tax Court petition is filed prior to the making of the assessment or levy. We are examining whether any regulations need to be promulgated under the statutory amendment. In particular, we are examining whether any procedural guidelines for the filing of actions in the Tax Court are needed by means of regulations, or whether revision to Tax Court rules is more appropriate. We are also examining whether the revised review procedures contain any ambiguity for which clarification by way of regulation would be helpful.

2540. CIVIL DAMAGES FOR FAILURE TO RELEASE LIEN

Legal Authority: PL 100-647, Sec 6240; 26 USC 7432

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The new section 7432 grants taxpayers the right to bring a cause of action for damages in Federal District court if any officer or employee of the Internal Revenue Service knowingly or negligently fails to release a lien under section 6325 on property of the taxpayer. Damages will not be awarded for failure to release a lien unless the court determines that the taxpayer has exhausted all administrative remedies within the Internal Revenue Service. The Secretary must provide by regulations a reasonable procedure for the taxpayer to notify the Service of a failure to release a lien on property of the taxpayer. Currently, we are considering regulations that will provide procedures for a taxpayer to notify the Service of a failure to release a lien and procedures for administrative exhaustion of remedies.

Abstract: PL 100-647, Sec 6241, adds a new section 7433 to the Internal Revenue Code. This provision allows taxpayers to sue the Internal Revenue Service to recover economic damages if a Service employee, in connection with the collection of a tax, recklessly or intentionally disregards any provision of the Code or regulations. The new implementing regulation will establish administrative remedies for taxpayers to meet the statutory requirement that administrative remedies be exhausted prior to a court award of damages. The regulation will also outline what steps taxpayers should take to satisfy the statutory requirement that they mitigate their damages.

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. It will also include rules for rounding the applicable interest rates. In addition, the regulations will modify the current regulations for gift, estate, and charitable transfers of annuity trusts, and unitrusts and pooled income funds.

CFR Citation: 26 CFR 301.7605-1(a), (Revision)

Legal Deadline: NPRM, Statutory, November 10, 1989. Final, Statutory, November 10, 1992.

Abstract: Section 7605(a) of the Internal Revenue Code, 26 USC 7605(a), and section 301.7605-1(a) of the regulations currently provide the time and place of an examination shall be fixed by an officer or employee of the Internal Revenue Service and shall be reasonable under the circumstances. No regulations have been promulgated elaborating on this provision. The Taxpayer Bill of Rights requires the publication within one year of regulations enumerating standards for determining whether the selection of a time and place for interviewing a taxpayer is reasonable. These regulations are to provide that if it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office within the assigned district other than the office located closest to the taxpayer's home. They will also provide it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that doing so will essentially require the taxpayer to close his business.

2613. ● SCOPE OF GENERAL UTILITIES REPEAL

Legal Authority: 26 USC 337(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, downstream mergers, conversion into tax exempt entities, and cross ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

2622. AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in regulations, sections 382 (b) (3) (A) and (d) (1) of the Internal Revenue Code of 1986 provide for a ratable allocation of income or net operating loss, respectively, for the taxable year that includes the change date. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books as of the change date (rather than on the basis of a ratable allocation). The purpose of this regulations project is to implement the above mentioned portion of Notice 87-79 and to provide guidance in certain related areas.

Abstract: The temporary regulations under section 382 of the Code require loss corporations to identify their five percent shareholders and any five percent shareholders of the loss corporation's corporate shareholders. Foreign corporations do not always have the ability to identify their five percent shareholders. This project will consider whether the attribution, aggregation, and segregation rules under section 382 should be modified when applied to foreign corporate shareholders of a loss corporation, and whether the Service should substitute a more convenient inquiry for foreign corporate shareholders than the current five percent shareholder identification.

2642. ANNUAL INFORMATION REPORTS BY TRUSTEES AND ISSUERS OF INDIVIDUAL RETIREMENT PLANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 408 Internal Revenue Code of 1986; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities

(including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

2664. INCOME TAX--LIMITATION ON DEDUCTIONS IN CASE OF FARMING SYNDICATES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 464 Internal Revenue Code of 1986; 26 USC 278 (b) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide that enterprises which qualify as farming syndicates must deduct expenses for feed, seed fertilizer, etcetera, only when used or consumed and to capitalize certain cost of poultry. Furthermore, farming syndicates are to capitalize certain expenses of groves, orchards and vineyards to the extent such expenses are incurred before the grove, orchard or vineyard becomes productive.

2665. INCOME TAX--DETERMINATION OF AMOUNTS AT RISK WITH RESPECT TO CERTAIN ACTIVITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 465 Internal Revenue Code of 1986; PL 94-455, Sec 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 465 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This temporary regulation will provide rules for aggregating certain activities for purposes of applying the at-risk rules under section 465. In general, the at-risk rules limit the amount of loss deductible in a taxable year with respect to an activity to the amount the taxpayer is at risk in the activity.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 99-514, Sec 1203

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1203 of the Tax Reform Act of 1986 amends section 904 (f) by adding paragraph (5) at the end thereof which requires that foreign source losses with respect to any income category first offset the taxpayer's other foreign source income subject to a separate limitation for the taxable year on a proportionate basis before such losses offset the taxpayer's U.S. source income. Accordingly, the regulation will provide rules for the allocation of foreign source losses incurred in taxable years beginning before the effective date of the Tax Reform Act of 1986.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 905 (c) Internal Revenue Code of 1986; 26 USC 6689 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 301; 26 CFR 602

Legal Deadline: None

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986 importers could claim a transfer price for customs purposes that was too low to be consistent with the price they claim for income tax purposes. Section 1248 of the Tax Reform Act of 1986 addressed this problem by enacting Section 1059A of the Internal Revenue Code, under which importers cannot claim a transfer price for income tax purposes that is higher than would be consistent with the value they claim for customs purposes. Regulations will be needed to provide rules for coordinating customs and tax valuation principles. It is anticipated that as a result of Section 1059A of the Internal Revenue Code, some taxpayers will claim higher transfer prices for customs purposes. No estimate has been made of the revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-3(f)(2)

Legal Deadline: None

Abstract: Section 47 (a) (1) of the Internal Revenue Code and the regulations thereunder provide the general rule that if section 38 property is disposed of there shall be recapture of investment credit. Section 1.1502-3 (f) (2) provides an exception to that rule for the transfer of section 38 property between members of an affiliated group; such a transfer will not cause a disposition within the meaning of section 47 (a) (1). This exception is premised on treating the affiliated group, for investment tax credit purposes, as a single entity that continues to own the property after the transfer. Such a premise is not justified, and the exception does not apply, if at the time of the transfer there is an intent that the property subsequently leave the group in a transaction described in section 1.1502-13 (f). See Rev. Rul. 82-20, 1982-1 CB 6. In such a case, recapture is appropriate. The regulation will amend section 1.1502-3 (f) (2) to make this explicit.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32 (T)

Legal Deadline: None

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events (declaration of dividend and payment of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

2750. ● TRANSACTIONS BETWEEN MEMBERS INVOLVING COMMON NONTAXABLE EXCHANGES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-13

Legal Deadline: None

Abstract: Section 1.1502-13 of the Income Tax Regulations provides the general rule that the term intercompany transaction means a transaction during a consolidated return year between corporations which are members of the same group. Section 1.1502-13 (f) provides as a general rules that deferred gain attributable to a selling member will be triggered when the asset leaves the group. The regulation, in effect, does not deal with a situation where a selling member exchanges property subject to Section 1.1502-13 rules in a nontaxable exchange to an outside party. Moreover, the current regulations do not adequately cover tax free transactions between members. This proposed regulation will provide rules for certain common nontaxable exchanges within the affiliated group.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1503(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: If a U.S. Corporation is subject to a foreign country's tax on worldwide income, or on a residence basis as opposed to a source basis, any taxable loss it incurs cannot reduce the taxable income of any other member of a U.S. affiliated group for any other taxable year. Where a corporation is subject to foreign tax on a residence basis, then for U.S. purposes, its loss will be available to offset income of that corporation in other years, but not income of another U.S. Corporation. Regulations may exempt a U.S. corporation from this rule to the extent that its losses do not offset the income of foreign corporations for foreign tax purposes.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.
